200 Questions

Que. 1 **Directions:** Read the following information carefully and answer the questions that follow:

There are 9 persons A, B, C, D, E, F, G, H and I who were born in three different months January, June and December of the same year but not necessarily in the same order. Not more than three persons were born in one month. C and H were not born in the month of June. D and I were born in a month having 30 days. E and A were born in a month having 31 days but not in the first month of the year. B was younger to F but elder to G. Who was born in January?

1. D
2. A
3. B
4. G
5. F

Correct Option - 5

Que. 2 Who was born in December?

1. F
2. H
3. C
4. E
5. I

Correct Option - 4

Que. 3 Who was born in having 30 days?

1. D
2. A
3. F
4. E
5. C

Correct Option - 1

Que. 4 Which of the following is not the correct pair?

1. D – June
2. A – December
3. C – December
4. F – January
5. G – December

Correct Option - 3

Que. 5 Who were born in June?

1. D
2. C
3. B
4. Both 1 and 3
5. Both 2 and 3

Correct Option - 4

Que. 6 **Direction:** Read the following information carefully and answer the questions that follow:

Eight kids of 5-13 age group A, B, C, D, E, F, G and H were sitting in two rows but not necessary in the same order. Kids who were sitting in row 1 were facing towards the south and person in row 2 were facing towards the north.

Age of F was not a square number. H was sitting third to the right of D who was the youngest kid. Age of F was not a square number. D was facing the kid who was 8 years old. Neither D nor A were facing towards the south. G and C were immediate neighbour and difference between their ages was 6. A was 10 years old and he was sitting opposite to F who was an immediate neighbour of E. Age of E was a cube number. B was 13 years old and he was 6 years elder than the kid who was sitting his immediate right. F was elder to C but younger to G. What is the sum of ages of B and F?

1. 24
2. 20
3. 25
4. 12
5. 13

Correct Option - 1

Que. 7 Who was sitting diagonally opposite to H?

1. F
2. H
3. E
4. D
5. Cannot be determined

Correct Option - 3

Que. 8 What was the age of H?

1. 7
2. 6
3. 13
4. 12

5. 5

Correct Option - 1

Que. 9 Who was sitting opposite to B?

1. A
2. C
3. G
4. H
5. Cannot be determined

Correct Option - 5

Que. 10 Who is 11 years old?

1. B
2. C
3. D
4. E
5. F

Correct Option - 5

Que. 11 **Direction:** Read the following information carefully and answer the questions that follow:

A group of six students G, H, I, J, K and L are sitting around a circular table facing the centre. They belong to the different city, Delhi, Mumbai, Goa, Shimla, Kolkata and Chennai.

L is sitting to the immediate left of K. I doesn't belong to Kolkata. Neither K nor L belong to Delhi. K is sitting opposite to G who is from Mumbai. H who is not from Goa and Kolkata, and is sitting to the immediate right of G. J is from Goa and is sitting opposite to the person who is from Delhi. A person who belongs to Shimla is opposite to the one who is from Kolkata.

Who is sitting third to the right of the person who belongs to Goa?

1. G
2. I
3. k
4. L
5. H

Correct Option - 5

Que. 12 Who belongs to Shimla?

1. L
2. K
3. H

4. I
5. G

Correct Option - 4

Que. 13 Who is sitting second to left of I?

1. K
2. G
3. H
4. J
5. I

Correct Option - 1

Que. 14 Who is from Delhi?

1. H
2. G
3. J
4. K
5. I

Correct Option - 1

Que. 15 Who among the following belongs to Kolkata?

1. J
2. K
3. L
4. H
5. G

Correct Option - 3

Que. 16 **Directions:** Read the following information carefully and answer the questions that follow:

In a bank meeting, the six bank employees (A, B, C, D, E and F) were sitting from left to right in their hierarchy order: Managing Director, Executive Director, Chief General Manager, General Manager, Assistant General Manager and Divisional Manager. They belong to different cities, G, H, I, J, K and L.

The Chief General Manager and the Assistant General Manager belong to city J and K but not in the same order. E is neither Divisional Manager nor Chief General Manager. F is neither Chief General Manager nor he is from city K. The person who is Divisional Manager is not from city H. The person who is Executive Director belongs to city L. Neither the B nor C belong to city I. B was neither Executive Director nor Divisional Manager. Four people were sitting between A and D. C was sitting third to the right of D. Neither E nor B was sitting between The General Manager and Divisional Manager. Four employees sit between the one who belongs to city H and I. Who was sitting immediately left to the General Manager?

1. The person who is form city J

2. The person who is form city G
3. The person who is form city K
4. The person who is form city I
5. The person who is form city L

Correct Option - 3

Que. 17 How many persons were sitting between A and B?

1. One
2. Two
3. Three
4. Four
5. Five

Correct Option - 2

Que. 18 What was the designation of D?

1. Executive Director
2. Chief General Manager
3. Managing Director
4. Divisional Manager
5. Assistant General Manager

Correct Option - 3

Que. 19 How many people were sitting between Assistant General Manager and C?

1. One
2. Four
3. Zero
4. Three
5. Cannot be determined

Correct Option - 3

Que. 20 Who belong to city K?

1. A
2. B
3. C
4. Cannot be determined
5. None of above

Correct Option - 2

Que. 21 Six students A, B, F, G, K and M are standing in a row (not necessary in the same order). B is taller than F but shorter than G. A is neither tallest nor shortest. G is Shorter than A. M is not tallest. Who among them is Shorter than F?

1. G and B
2. A and K
3. Only M
4. Only B
5. Cannot be determined

Correct Option - 5

Que. 22 **Direction:** In each of the following questions two statements are given and these are followed by two conclusions I and II. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Some TVs are LEDs.

All the computer are LEDs.

Conclusion:

I. Some LEDs are computer.

II. Some LEDs are TV.

1. Only I follows.
2. Only II follows.
3. Either I or II follows.
4. Neither I nor II follows.
5. Both I and II follow.

Correct Option - 5

Que. 23 **Direction:** In the following question, a given question is followed by information in three statements. You have to decide the data in which statement (s) is/are sufficient to answer the question and mark your answer accordingly.

How is F related to S?

I. F is the husband of A and S is the son of B.

II. F is the father of E and D is the sister of S.

III. F is the husband of S's father's sister.

1. Only I is sufficient
2. Only II is sufficient
3. Only III is sufficient
4. Only I and II are sufficient
5. Insufficient data

Correct Option - 3

Que. 24 **Direction:** In the following question, a given question is followed by information in three statements. You have to decide the data in which statement (s) is/are sufficient to answer the question and mark your answer accordingly.

S, T, U, V, W, X and Y are seven friends. Who is fourth tallest among these friends if they are arranged in ascending order as per their heights?

I. X and Y are taller than U.

II. X is taller than U but shorter than S. W is tallest.

III. V is shorter than T but taller than S. Y is taller than T.

1. Only I is sufficient
2. Only II is sufficient
3. Only I and II are sufficient
4. Only I and III are sufficient
5. Only II and III are sufficient

Correct Option - 5

Que. 25 **Direction:** The following question is followed by information given in three statements. You have to decide the data in which statement (s) is/are sufficient to answer the question and mark your answer accordingly.

A building of Samsung company has 5 floors (numbered as 1 to 5) with different products on each floor. Ground floor is numbered 1 and topmost floor is numbered 5. Mobile products are on which floor?

I. Mobile products are not on the floor 3.

II. Mobile products are on the floor which is 2 floors below the floor of Laptop products and Laptop products are neither on the floor 5 nor on 3.

III. Mobile products are neither on the topmost floor nor on the lowermost floor.

1. Only I is sufficient
2. Only II is sufficient
3. Only III is sufficient
4. Only I and III are sufficient
5. Insufficient data

Correct Option - 2

Que. 26 **Direction:** In the following question, a given question is followed by information in three statements. You have to find out the data in which statement (s) is sufficient to answer the question and mark your answer accordingly.

A, B, C, and D are sitting from left to right in the descending order with respect to their weight. Who is at the right end?

I. A is heavier than B.

II. C is heavier than D.

III. C is heavier than B.

1. Statements II and III together are sufficient.
2. Statement I alone is sufficient.
3. Statement II alone is sufficient.
4. Statement III alone is sufficient.
5. Data insufficient.

Correct Option - 5

Que. 27 In a row of 40 students, A is 13th from left end. What is his place from the right end?

1. 27
2. 28
3. 29
4. 30

Correct Option - 2

Que. 28 **Directions:** Study the following information carefully and answer the given questions.

A word and number arrangement machine when given an input line of words and numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement.

Input: can cat hat 45 71 93 taken 16

Step I: 16 can cat hat 45 71 93 taken

Step II: 16 taken can cat hat 45 71 93

Step III: 16 taken 45 can cat hat 71 93

Step IV: 16 taken 45 hat can cat 71 93

Step V: 16 taken 45 hat 71 can cat 93

Step VI: 16 taken 45 hat 71 cat can 93

Step VII: 16 taken 45 hat 71 cat 93 can

And step VII is the last step of the rearrangement.

As per the rules followed in the above steps, find out in each of the following questions the appropriate step for the given input.

Input: Keep 20 116 honey dell 68 54 yarn

How many steps will be required to complete the rearrangement?

1. Three
2. Four
3. Five
4. Six
5. None of these

Correct Option - 3

Que. 29 Input: belly 57 catch 21 book 43 boy 7
Which of the following steps will be the last but one?

1. V
2. IV
3. VII
4. VI
5. None of these

Correct Option - 4

Que. 30 Step III of an input is: 25 good 45 dartbow bull 83 64
Which of the following will definitely be the input?

1. 45 dartbow bull 83 64 good 25
2. 45 dartbow bull 83 64 25 good
3. 45 dartbow bull 25 good83 64
4. Cannot be determined
5. None of these

Correct Option - 4

Que. 31 Step II of an input is: 5 yell 59 48 melon poll 69 out
How many more steps will be required to complete the rearrangement?

1. Five
2. Six
3. Seven
4. Four
5. None of these

Correct Option - 4

Que. 32 Step III of an input is: 24 tin 48 91 60 may get fill
Which of the following will be step VI?

1. 24 tin 48 may 60 get fill 91
2. 24 tin 48 may 60 91 get fill
3. 24 tin 48 may 60 get 91 fill
4. There will be no such step
5. None of these

Correct Option - 3

Que. 33 **Direction:** Study the following information carefully and answer the questions given below:

K is the sister of H. I is the son of G. J is the mother of H. G is married to K. H is the father of M. L is married to J.

If H is married to N, then how N related to K?

1. Mother
2. Sister
3. Sister-in-law
4. Daughter
5. Mother-in-law

Correct Option - 3

Que. 34 How is I related to M?

1. Brother
2. Sister
3. Father
4. Maternal Uncle
5. Cousin

Correct Option - 5

Que. 35 How is L related to G?

1. Father
2. Uncle
3. Brother
4. Father-in-law
5. Son

Correct Option - 4

Que. 36 **Directions:** Study the information given below carefully and answer the questions that follow.

A, B, C, D, E, F, G, H and I are nine Temples. C is 4 km East of B. A is 2 km North of B and H is 4 km South of A. G is 2 km West of H while D is 6 km East of G and F is 4 km North of G. I is situated just in the middle of B and C while E is just in the middle of H and D.

What is the distance between Temple E and Temple G?

1. 1 km
2. 1.5 km
3. 2 km
4. 4 km
5. 5 km

Correct Option - 4

Que. 37 What is the distance between Temple E and Temple I?

1. 1 km

2. 2 km
3. 3 km
4. 4 km
5. 5 km

Correct Option - 2

Que. 38 What is the shortest possible distance between B and E?

1. 1 km
2. 2 km
3. $2\sqrt{2}$ km
4. $4\sqrt{2}$ km
5. $3\sqrt{2}$ km

Correct Option - 3

Que. 39 In a certain code language, 'JULY' is written as '9 - 20 - 11 - 24'. How is 'AUGUST' written in that code language?

1. 1 - 20 - 6 - 20 - 18 - 19
2. 0 - 20 - 5 - 20 - 18 - 19
3. 0 - 20 - 6 - 20 - 14 - 19
4. 0 - 20 - 6 - 20 - 18 - 19
5. Both 1 and 2

Correct Option - 4

Que. 40 How many such pairs of letters are there in the word MONOPOLY each of which has as many letters between them in the word (in both forward and backward directions), as they have between them in the English alphabetical series?

1. Seven
2. Six
3. Five
4. Four
5. Eight

Correct Option - 2

Que. 41 A box contains 20 balls with random numbers and having an average of 34. When one ball is drawn at random from the box, the average of the remaining balls is reduced to 31. What was the number on the ball drawn out from the box?

1. 19
2. 33

3. 57
4. 74
5. 91

Correct Option - 5

Que. 42 In a town 76% of people decided to vote for candidate X and remaining for candidate Y. But X only got 1518 votes as some people changed their mind and voted for candidate Y and some even did not go for voting. Because of this, the vote share of Y got increased by 25%. If the number of people who did not go for voting constitutes 11.11% of the number of votes by which X won election. Then the population of town was?

1. 1625
2. 2300
3. 4250
4. 3250
5. 1575

Correct Option - 2

Que. 43 A shopkeeper bought milk at rate of Rs. 26 per litre. He mixed water and sold the mixture for Rs. 26 per litre and gains a profit of 30%. If he bought milk worth Rs. 2,028, then what is the amount of water added?

1. 26.3 litres
2. 25.78 litres
3. 23.4 litres
4. 20.2 litres
5. None of the above

Correct Option - 3

Que. 44 **Directions:** Study the paragraph and answer the questions that follow.

A man runs his own transportation business. He owns 3 auto-rickshaws, 4 cars and a truck. On each ride of an auto-rickshaw, he earns a profit of Rs. 20. Similarly, on each ride of a car, the profit earned is Rs. 40. A profit of Rs. 110 is earned on each ride by the truck. In the month of April 2018, each auto-rickshaw took equal number of rides on all the days of the month. Similarly, the number of rides taken by each car was also same on each day of the month. While, the number of rides taken by an auto-rickshaw and a car in the month of April is in the ratio 3 : 2. At the end of the month, the man earned a total profit of Rs. 436200 from all the three types of vehicles, out of which a profit of Rs. 46200 was earned by the truck alone.

Find the ratio of the profit earned by the 3 auto-rickshaws and 4 cars in the month of April.

1. 2 : 3
2. 3 : 4
3. 8 : 9
4. 9 : 4
5. 9 : 16

Correct Option - 5

Que. 45 Find the total number of rides taken by 4 cars in the month of April?

1. 4680
2. 5960
3. 6240
4. 7410
5. 8580

Correct Option - 3

Que. 46 The profit earned by each truck ride remained the same in May as was earned in April. If the man earned a profit of Rs. 57970 from the truck in the month of May, how many more rides did the truck took per day as compared to the month of April?

1. 2
2. 3
3. 4
4. 5
5. Couldn't be determined

Correct Option - 2

Que. 47 **Directions:** Study the paragraph and answer the questions that follow.

A man runs his own transportation business. He owns 3 auto-rickshaws, 4 cars and a truck. On each ride of an auto-rickshaw, he earns a profit of Rs. 20. Similarly, on each ride of a car, the profit earned is Rs. 40. A profit of Rs. 110 is earned on each ride by the truck. In the month of April 2018, each auto-rickshaw took equal number of rides on all the days of the month. Similarly, the number of rides taken by each car was also same on each day of the month. While, the number of rides taken by an auto-rickshaw and a car in the month of April is in the ratio 3 : 2. At the end of the month, the man earned a total profit of Rs. 436200 from all the three types of vehicles, out of which a profit of Rs. 46200 was earned by the truck alone. consider all months have 30 days. The profit earned by each auto-rickshaw ride remained the same in May as was earned in April, but increased by 40% in the month of June. If the total number of rides taken by an auto-rickshaw in the month of May and June is in the ratio 4 : 5, then the total profit earned by an auto-rickshaw in June is what percentage more than that in May?

1. 25%
2. 40%
3. 50%
4. 75%
5. 80%

Correct Option - 4

Que. 48 **Directions:** Study the paragraph and answer the questions that follow.

A man runs his own transportation business. He owns 3 auto-rickshaws, 4 cars and a truck. On each ride of an auto-rickshaw, he earns a profit of Rs. 20. Similarly, on each ride of a car, the profit earned is Rs. 40. A

profit of Rs. 110 is earned on each ride by the truck. In the month of April 2018, each auto-rickshaw took equal number of rides on all the days of the month. Similarly, the number of rides taken by each car was also same on each day of the month. While, the number of rides taken by an auto-rickshaw and a car in the month of April is in the ratio 3 : 2. At the end of the month, the man earned a total profit of Rs. 436200 from all the three types of vehicles, out of which a profit of Rs. 46200 was earned by the truck alone.

In the year 2017, the average number of rides on each day taken by an auto-rickshaw, a car and the truck is 50, 45 and 12 respectively. If the profit earned on each ride of the respective vehicles was the same as in April 2018, find the average monthly profit earned by the man in the year 2017?

1. Rs. 346200
2. Rs. 350400
3. Rs. 362800
4. Rs. 378600
5. Rs. 388000

Correct Option - 2

Que. 49 The following question has three statements. Study the question and the statements and decide which of the statement(s) is necessary to answer the question.

A departmental store sold a product for Rs. 1620. Find the cost price of the product.

- I) The store marked the price of the product 35% above its cost price.
- II) The product was sold at a discount of 20% on the marked price.
- III) The store earned a profit of 8%.

1. Either I or II and III
2. Either II or I and III
3. Either III or I and II
4. Any two
5. All three

Correct Option - 3

Que. 50 The following question has three statements. Study the question and the statements and decide which of the statement(s) is/are necessary to answer the question.

Find the average of the two numbers.

- I) 6 times the smaller number is 4 more than 4 times the larger one.
- II) $\frac{1}{2}$ of the smaller number is 3 more than $\frac{1}{5}$ of the larger one.
- III) 2 times their difference is 2 less than the smaller number.

1. Only I
2. II and either I or III
3. Only III
4. Only II
5. None of these

Correct Option - 2

Que. 51 The following question has three statements. Study the question and the statements and decide which of the statement(s) is necessary to answer the question.

What is Ankit's current monthly salary?

- I) On receiving an increment of 8%, his monthly salary will be Rs. 70200.
- II) On receiving an increment of 12%, his yearly salary will be Rs. 873600.
- III) Before receiving an increment of 30% last year, his monthly salary was Rs. 50000.

- 1. Only III
- 2. Either I or II
- 3. Any one
- 4. Any two
- 5. All three

Correct Option - 3

Que. 52 The following question has three statements. Study the question and the statements and decide which of the statement(s) is necessary to answer the question.

A man makes a payment in cash using Rs. 2000, Rs. 500 and Rs. 100 notes. Find the amount paid by him.

- I) The number of notes is in the ratio 6 : 3 : 2 respectively.
- II) He paid Rs. 4500 in terms of Rs. 500 notes.
- III) He paid Rs. 600 in terms of Rs. 100 notes.

- 1. I and either II or III
- 2. II and either I or III
- 3. III and either I or II
- 4. Any two
- 5. All three

Correct Option - 1

Que. 53 The following question has three statements. Study the question and the statements and decide which of the statement(s) is necessary to answer the question.

Find the value of 'x'.

- I) The average of x, y and z is 41.
- II) x is 30% of y and 40% of z.
- III) The sum of y and z is 3 less than 6 times of x.

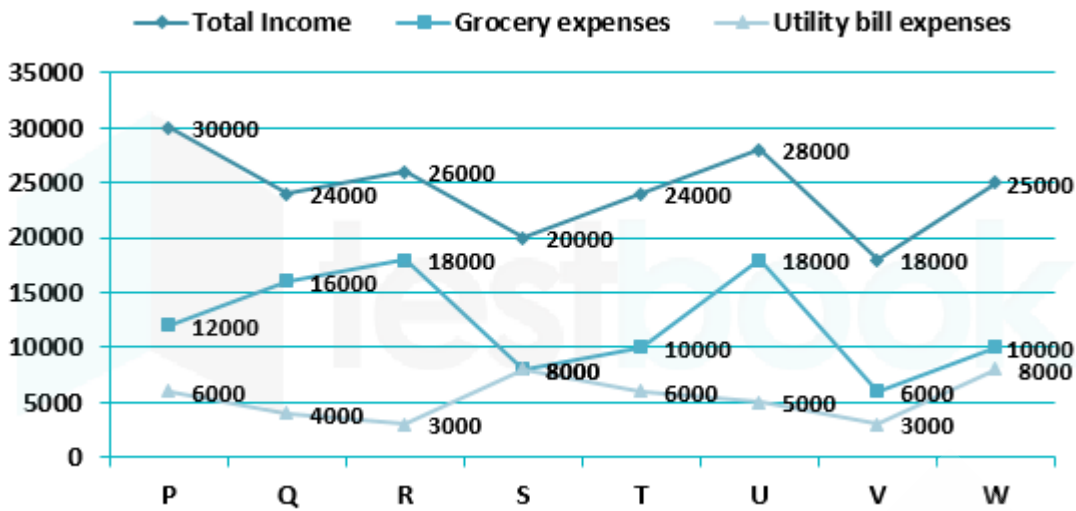

- 1. I and II
- 2. I and III
- 3. Any one
- 4. Any two
- 5. All three

Correct Option - 4

Directions: These questions are based on the following graph.

Que. 54 The following graph shows the total monthly income and monthly expenditure of eight families – P, Q, R, S, T, U, V, and W.

Savings = Total income - (Grocery expenses + Utility bill expenses)

For how many families is the ratio of savings to utility bill expenses more than 1.4?

1. 4
2. 3
3. 6
4. 5
5. 8

Correct Option - 2

Que. 55 What is the percentage point difference between the percentage savings of P and W?

1. 35 - 24%
2. 40 - 28%
3. 26 - 16%
4. 28 - 16%
5. None of these

Correct Option - 2

Que. 56 By what percentage is the savings of family P more than that of family U?

1. 120%
2. 160%
3. 175%
4. 140%
5. 110%

Correct Option - 4

Que. 57 For how many families is the grocery expenses more than 60% of the total income?

1. 4
2. 3
3. 5
4. 2
5. 1

Correct Option - 2

Que. 58 For which of the given families is the percentage savings the second lowest?

1. S
2. Q
3. R
4. U
5. P

Correct Option - 4

Que. 59 A wholesaler who is selling fruits in wholesale market offers a cash discount of 30% for his customers. But in the entire deal he is still able to make a profit of 15%. In the whole deal he allows 20 apples to a dozen for his customer. How much percent above the cost price were his fruits were marked?

1. 173.8%
2. 195.8%
3. 186.9%
4. 159.8%
5. 159.9%

Correct Option - 1

Que. 60 A, B and C started a business in partnership with investments of Rs 12000, Rs 26000 and Rs 32000 respectively. After 4 months A leaves. After 6 months B leaves and A joins with an equal amount equal to his earlier investment. After 10 months, C leaves and B joins with his prior investment. At the end of the year they earn a profit of Rs 53622. Find the share of B in the annual profit.

1. 17221
2. 17212
3. 17222
4. 18212
5. None of these

Correct Option - 2

Que. 61

A sum of Rs. 10,000 is lent out in two parts in such a way that the simple interest on one part at 8% for 3 year is equal to that on the other part for 12% for 1 year. The sum lent out at 12% is _____

1. 6666.67
2. 3333.34
3. 5412.7
4. 4587.3
5. None of the above

Correct Option - 1

Que. 62 The length of a rectangular plot is $\frac{7}{3}$ times its breadth. A person takes 16 minutes to complete a round walking along the rectangular dimension of the park at the rate of 24 km/hr. What is the perimeter of the rectangular plot in metres?

1. 1600 m
2. 3200 m
3. 4800 m
4. 6400 m
5. None of these

Correct Option - 4

Que. 63 **Directions:** The given table shows the total number of emails received by a company in the five weekdays. It also gives the percentage of the read emails that were replied by the reader on the respective days. Study the table and answer the questions that follow.

	Total number of emails received	Percentage of read emails that were replied	Number of spam emails
Monday	428	-	48
Tuesday	493	30%	53
Wednesday	542	-	22
Thursday	-	25%	40
Friday	465	-	17

Note:

I) Total number of emails received = Number of read emails + Number of spam emails.

II) Spam emails were not read.

If the number of emails read on Monday and Thursday is in the ratio 19 : 18, and the number of emails replied on Monday and Thursday is in the ratio 38 : 45, then what percentage of the read emails were replied by the reader on Monday?

1. 10%
2. 15%
3. 20%
4. 25%

5. 30%

Correct Option - 3

Que. 64 If the total number of emails replied on Tuesday and Wednesday is 3 more than 20% of the total number of emails received in Tuesday and Wednesday, then what is the difference between the number of emails replied on Tuesday and Wednesday?

1. 42
2. 48
3. 54
4. 60
5. 66

Correct Option - 3

Que. 65 The number of emails that were replied on Thursday is what percentage more than the number of spam emails received on Thursday, if the total number of emails received on Thursday is 4 more than 220% of the total spam emails received in the five weekdays?

1. 75%
2. 100%
3. 125%
4. 150%
5. 200%

Correct Option - 3

Que. 66 If the number of read emails that were not replied on Friday and that on Tuesday is in the ratio 12 : 11, then what percentage of the read emails were replied on Friday?

1. 5%
2. 10%
3. 15%
4. 20%
5. 25%

Correct Option - 5

Que. 67 On Saturday, 90% of the received emails were read out of which only 10% were replied. If only 18 emails were replied, then the number of spam emails received on Saturday is what percentage of the total number of spam emails received on all six days?

1. 4%
2. 5%
3. 8%
4. 10%

5. 12%

Correct Option - 4

Que. 68 A man borrowed Rs.80000 at a simple interest of 5% per annum. After 5 years, he deposited an amount of Rs.50000, and the interest on the remaining amount was computed at a rate of 10% per annum compounded annually. After 2 years, he was given a rebate and he cleared his debt by paying Rs.55000. How much money was rebated?

1. Rs.4000
2. Rs.5000
3. Rs.5500
4. Rs.7500
5. Rs.8000

Correct Option - 3

Que. 69 Jose travels from the place A to place B at a certain speed. When he comes back from place B to place A, his speed is 60 miles per hour. If the average speed for the whole journey is 72 miles per hour, find his speed when he travels from the place A to B.

1. 40 miles per hour
2. 50 miles per hour
3. 70 miles per hour
4. 90 miles per hour
5. 25.5 miles per hour

Correct Option - 4

Que. 70 A boat takes 2 hrs. 36 min. to travel 20 km downstream and 10 km upstream. If it takes 3 hrs. 24 min. to travel 10 km downstream and 20 km upstream, find the speed of the stream.

1. $50/3$ km/hr
2. $50/7$ km/hr
3. $50/9$ km/hr
4. $100/21$ km/hr
5. $100/27$ km/hr

Correct Option - 4

Que. 71 The distance between the two points A and B is 1500 km. One train starts from point A and another from point B at the same time. If the two trains move in opposite direction, they meet in 10 hours. If they move in the same direction, they meet in 25 hours. What is the ratio of the speeds of the two trains?

1. 7 : 3
2. 2 : 7
3. 2 : 3

4. 7 : 2
5. 4 : 3

Correct Option - 1

Que. 72 In a certain number of days, 10 workers were assigned to complete a task. Since some of the workers have not worked all these days, only 25% of the task was completed after 15 days. From the 16th day onwards when all 10 started working, the percentage of the total work that was completed at the end of the assigned days was 62.5%. How many days were assigned initially?

1. 20
2. 22
3. 24
4. 25
5. None of these

Correct Option - 3

Que. 73 Pipes A & B can together fill a tank in 4 hours, while pipes C & D can individually empty the tank in 10 hours and 12 hours respectively. When the tank was empty, pipes A & B were simultaneously opened. After an hour, pipe C was also opened. After the opening of pipe C, pipe D will be opened after how much time such that the tank is only half filled in 3 hours?

1. 1 hr. 3 min.
2. 1 hr. 18 min.
3. 1 hr. 24 min.
4. 1 hr. 42 min.
5. 1 hr. 54 min.

Correct Option - 3

Que. 74 In how many ways is it possible to choose 2 white squares and 1 black square on a chess board so that all the squares must not lie in the same row or column?

1. 12668
2. 6452
3. 9688
4. 28452
5. 15488

Correct Option - 5

Que. 75 In a bag there are 5 red balls, 6 blue balls and 7 white balls. Two balls are drawn from the bag one after other without replacement. If the first ball turns out to be of blue colour, then 4 more blue coloured balls are to be added to the bag. Find the probability that both the balls are of blue colour.

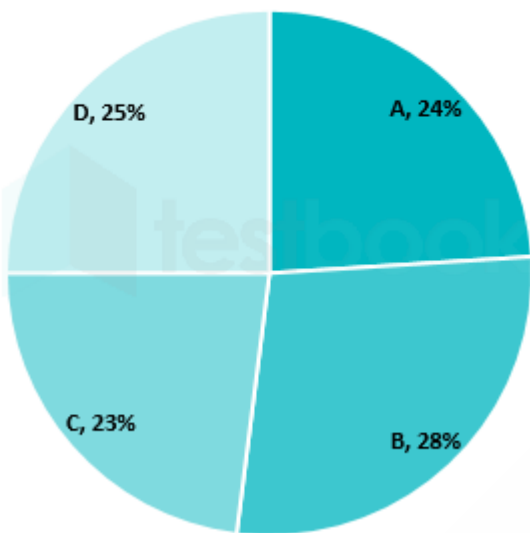

1. $\frac{2}{7}$

2. $\frac{1}{7}$
3. $\frac{2}{9}$
4. $\frac{1}{9}$
5. None of these

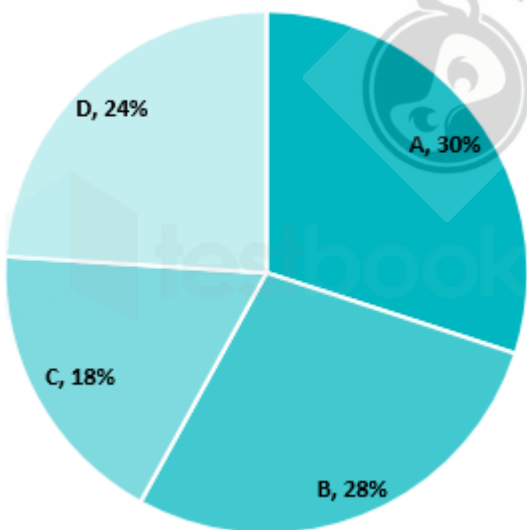

Correct Option - 2

Que. 76 **Directions:** The first pie-chart shows the percentage distribution of total number of balls (wet + dry) of four companies A, B, C and D. The second pie-chart shows the percentage distribution of the total number of wet balls of the companies. Study the pie-charts and answer the questions that follow.

Total number of balls (wet + dry) = 800

Total number of wet balls = 500

The number of dry balls of company A is what percentage of the total number of wet balls of companies B, C and D?

1. 10%
2. 12%

3. 14%
4. 16%
5. 18%

Correct Option - 2

Que. 77 If the number of wet balls of another company E is 20% more than that of company D and the total number of balls of company E is 25% more than that of company A, then the number of dry balls of company E is what percentage of the total number of balls of company E?

1. 20%
2. 30%
3. 40%
4. 50%
5. 60%

Correct Option - 3

Que. 78 If the total number of dry balls of company F is equal to that of company B, then find the difference between the number of dry balls of company F and that of companies C and D.

1. 60
2. 70
3. 80
4. 90
5. 100

Correct Option - 4

Que. 79 What is the ratio of the total number of dry balls of companies A & B and the total number of wet balls of companies C & D?

1. 1 : 3
2. 2 : 3
3. 3 : 4
4. 3 : 5
5. 4 : 5

Correct Option - 4

Que. 80 What is the difference between the average number of wet balls of companies B & C and the average number of dry balls of companies A & D?

1. 42
2. 46
3. 50
4. 54

5. 58

Correct Option - 4

Que. 81 Where are the headquarters of World Bank located?

1. Washington
2. New York
3. Geneva
4. Paris
5. None of these

Correct Option - 1

Que. 82 Where is the Headquarter of the United Nations Educational, Scientific and Cultural Organisation (UNESCO)?

1. Washington D.C
2. London
3. Paris
4. Berlin
5. New York

Correct Option - 3

Que. 83 Who was elected as the President of Pakistan on 4th September, 2018?

1. Yahya Khan
2. Arif Alvi
3. Mamnoon Hussain
4. Asif Ali Zardari
5. Farooq Leghari

Correct Option - 2

Que. 84 The rate at which banks borrow short-term loan from RBI?

1. Repo rate
2. Reverse repo rate
3. MSF rate
4. Bank rate
5. None of the above

Correct Option - 1

Que. 85 “Yudh Abhyas” is the joint military exercise between India and _____.

1. Nepal
2. U.S.
3. Bangladesh
4. Russia
5. None of the above

Correct Option - 2

Que. 86 The 2nd phase of the 'FAME India' scheme was launched on September 7, 2018. What does FAME stand for?

1. Faster Addition and Making of Hybrid Electric Vehicles
2. First Adoption and Manufacturing of Hybrid Electric Vehicles
3. Faster Adoption and Man-made Hybrid Electric Vehicles
4. Faster Adoption and Manufacturing of Hybrid Electric Vehicles
5. None of the above

Correct Option - 4

Que. 87 Who is the Chairman of SEBI?

1. Rajnish Kumar
2. Subhash Chandra Khuntia
3. Harsh Kumar Bhanwala
4. Madhabi Puri Buch
5. Ajay Tyagi

Correct Option - 4

Que. 88 What is the full form of DRDO?

1. Defence Research and Development Office
2. Defence Resource and Development Organisation
3. Defence Research and Development Organisation
4. Defence Research and Drone Organisation
5. Defence Record and Development Organisation

Correct Option - 3

Que. 89 India's first biofuel-powered flight was successfully tested by _____ on 27th August 2018

1. Indigo
2. Jet Airways
3. SpiceJet
4. GoAir
5. Air India Express

Correct Option - 3

Que. 90 ISRO has unveiled India's Gaganyaan programme for manned space flight before _____.

1. 2019
2. 2020
3. 2021
4. 2022
5. 2023

Correct Option - 4

Que. 91 The government of India proposed the merger of which three banks to create India's third-largest bank?

1. Bank of Baroda, Allahabad Bank and Oriental Bank of Commerce
2. Bank of Baroda, Dena Bank and Vijaya Bank
3. Andhra Bank, Bank of India and Central Bank of India
4. Canara Bank, Corporation Bank and Bank of Maharashtra
5. Bank of India, Indian Bank and Dena Bank

Correct Option - 2

Que. 92 Who is the author of 'The Golden House'?

1. V.S. Naipaul
2. Arundhati Roy
3. Salman Rushdie
4. Stephen King
5. JK Rowling

Correct Option - 3

Que. 93 What is the meaning of "A" in PCA?

1. Action
2. Addition
3. Agreement
4. Analysis
5. Assets

Correct Option - 1

Que. 94 Where is the headquarters of Indian Institute of Petroleum?

1. Mumbai
2. Bhopal

3. Lucknow
4. Chandigarh
5. Dehradun

Correct Option - 5

Que. 95 In Basic Saving Bank Deposit Account (BSBDA), how many times one can withdraw money?

1. 10
2. 3
3. 4
4. 6
5. There is no limit

Correct Option - 3

Que. 96 Which of the following stadiums has got the largest solar roof top installed ?

1. Rajiv Gandhi International Cricket Stadium
2. Green Park Stadium
3. Wankhede Stadium
4. Brabourne Stadium
5. Sawai Mansingh Stadium

Correct Option - 4

Que. 97 Mahe, the smallest district of India, is situated in which place?

1. Maharashtra
2. Puducherry
3. Lakshadweep
4. Tamil Nadu
5. West Bengal

Correct Option - 2

Que. 98 According to Reserve Bank of India, what percent of junked Rs. 500 And Rs. 1,000 Notes have returned to banking system?

1. 90%
2. 100%
3. 99%
4. 98.7%
5. 99.3%

Correct Option - 5

Que. 99 Which of the following countries are member of the North American Free Trade Agreement (NAFTA)?

1. Mexico
2. Panama
3. Cuba
4. Venezuela
5. Bahamas

Correct Option - 1

Que. 100 Free and compulsory education is provided for children upto which age?

1. 6 Years
2. 18 Years
3. 16 Years
4. 14 Years
5. 8 Years

Correct Option - 4

Que. 101 What is the current rate of Statutory liquidity ratio (SLR) April 2019?

1. 10%
2. 18.75%
3. 22%
4. 25%
5. 40%

Correct Option - 2

Que. 102 As per 4th Advance Estimates, what is the estimated production of food grains during 2017-18?

1. 275 million tonnes
2. 300 million tonnes
3. 200 million tonnes
4. 250 million tonnes
5. 285 million tonnes

Correct Option - 5

Que. 103 Who among the following is not a member of Monetary Policy Committee?

1. Dr. Chetan Ghate
2. Dr. Pami Dua
3. Arun Jaitley
4. Dr. Viral V. Acharya

5. Dr. Urjit R. Patel

Correct Option - 3

Que. 104 Bajrang Punia, who won the Gold Medal in the Asian Games 2018, is associated with which among the following sports?

1. Boxing
2. Judo
3. Wrestling
4. Table Tennis
5. None of the above

Correct Option - 3

Que. 105 Biplab Kumar Deb is the Chief Minister of which among the following states in India?

1. Tripura
2. Nagaland
3. Jharkhand
4. Meghalaya
5. Manipur

Correct Option - 1

Que. 106 According to the MGNREGA Scheme, workers should get guaranteed employment for a minimum of _____ every year.

1. 150 days
2. 100 days
3. 125 days
4. 130 days
5. There is no such minimum days criterion in the scheme.

Correct Option - 2

Que. 107 Justin Trudeau is the Prime Minister of which among the following countries?

1. Peru
2. Honduras
3. Canada
4. Hungary
5. None of the above

Correct Option - 3

Que. 108 The Padma Bhushan Awards are announced on which among the following days every year by the Government of India?

1. Independence Day
2. Republic Day
3. Birth Anniversary of Mahatma Gandhi
4. Army Day
5. There is no such specific day

Correct Option - 2

Que. 109 Dr Harsh Vardhan is the present Union Minister of which among the following ministries?

1. Ministry of Science and Technology
2. Ministry of Earth Sciences
3. Ministry of Environment, Forest and Climate Change
4. Both 1 and 2
5. All 1, 2 and 3

Correct Option - 4

Que. 110 According to the data released by the Central Statistics Office, the Indian Economy has seen the GDP growth of _____ in the first quarter of 2018-19.

1. 8.3%
2. 8.5%
3. 8.9%
4. 9.5%
5. 8.2%

Correct Option - 5

Que. 111 The International Red Cross Day is celebrated on which among the following days every year all over the world?

1. May 10
2. May 12
3. May 15
4. May 8
5. None of the above

Correct Option - 4

Que. 112 The Government of India recently formed a high-level committee in order to look into the problem of stressed assets in the Public Sector Banks in the country. Who among the following was made the Chairman of this committee?

1. Usha Anantsubramaniam
2. Sunil Mehta
3. Arundhati Bhattacharya
4. HR Khan
5. R Gandhi

Correct Option - 2

Que. 113 Mr. Ravneet Gill is the CEO of which among the following private sector banks in India?

1. Yes Bank
2. Kotak Mahindra Bank
3. IDFC Bank
4. Standard Chartered Bank
5. None of the above

Correct Option - 1

Que. 114 In June and July 2018, the players and the assistant coach of a football team from which among the following countries were trapped inside a cave?

1. Malaysia
2. Thailand
3. Indonesia
4. Singapore
5. South Korea

Correct Option - 2

Que. 115 Krone is the official currency of which among the following countries?

1. Denmark
2. Turkey
3. Chile
4. Paraguay
5. Brazil

Correct Option - 1

Que. 116 Virat Kohli has scored _____ international centuries in the Test Cricket from 72 test matches played by him so far.

1. 25
2. 26
3. 29
4. 24

5. 19

Correct Option - 4

Que. 117 According to the Ministry of Civil Aviation Guidelines, which among following drones will not require any permission to fly in the country from December 01, 2018?

1. Nano Drones
2. Micro Drones
3. Small Drones
4. Both 1 and 3
5. All 1, 2 and 3

Correct Option - 5

Que. 118 The term 'backheel' is associated with which among the following sports?

1. Football
2. Hockey
3. Volleyball
4. Basketball
5. Handball

Correct Option - 1

Que. 119 The G20 Summit for the year 2019 is going to be held in _____.

1. Shanghai, China
2. Osaka, Japan
3. New Delhi, India
4. Seoul, South Korea
5. Islamabad, Pakistan

Correct Option - 2

Que. 120 Who among the following former Indian cricketers has recently turned down the honorary Doctorate Degree from Jadavpur University?

1. Rahul Dravid
2. Sunil Gavaskar
3. Ajit Agarkar
4. Sourav Ganguly
5. Sachin Tendulkar

Correct Option - 5

Que. 121 In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and click the option corresponding to it. If the sentence is free from error, click the “No error” option.

Japanese multinational Sony had unveiled (1) the IMX586 stacked CMOS image sensor for (2) smartphones, which it claims has the (3) world's highest pixel count with 48 megapixels. (4)

1. 1
2. 2
3. 3
4. 4
5. No error

Correct Option - 1

Que. 122 In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and click the option corresponding to it. If the sentence is free from error, click the “No error” option.

Alibaba, the startup, (1) who already counts Ant Financial (2) Services as an investor, is expected to (3) close the next round of funding within weeks. (4)

1. 1
2. 2
3. 3
4. 4
5. No error

Correct Option - 2

Que. 123 In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and click the option corresponding to it. If the sentence is free from error, click the “No error” option.

The state-ran Nalanda Medical College (1) and Hospital in Bihar's Patna was severely (2) waterlogged after heavy rainfall in the city, with (3) fish seen swimming in the ICU on Sunday. (4)

1. 1
2. 2
3. 3
4. 4
5. No error

Correct Option - 1

Que. 124 In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and click the option corresponding to it. If the sentence is free from error, click the “No error” option.

India's 1983 Cricket World Cup-winning captain (1) Kapil Dev had been selected in the national golf team to (2) take part in the 2018 Asia-Pacific Senior Amateur (3) Championship, which will be held from October 17 to 19

in Japan. (4)

1. 1
2. 2
3. 3
4. 4
5. No error

Correct Option - 2

Que. 125 In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and click the option corresponding to it. If the sentence is free from error, click the “No error” option.

A man named Timothy Buchanan from California has (1) claimed that a real-life spider has got struck between his iMac's glass (2) display and the screen. He suspected that the spider must have (3) reached the monitor after crawling in through the vents on the back of the computer. (4)

1. 1

4. 4
5. No error

Correct Option - 1

Que. 127 In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and click the option corresponding to it. If the sentence is free from error, click the “No error” option.

American space agency NASA, that (1) was founded on July 29, 1958, has an Office of (2) Planetary Protection that function to 'protect (3) Earth's biosphere in case life does exist elsewhere'. (4)

1. 1

2. 2
3. 3
4. 4
5. No error

Correct Option - 3

Que. 128 Read the passage carefully and answer the questions that follow. Some words may be highlighted for your attention.

For big brands, the difference can be staggering. When Mercedes-Benz shared a post on Facebook recently about the premiere of its new A-Class, the update quickly garnered more than 10,000 Likes. Impressive ... until you consider that the very same image on Instagram generated more than 150,000 Likes—15 times the response! Granted, Mercedes is a visual brand and Instagram is a visual platform. (And engagement isn't everything—Facebook, the world's most popular social network, still enjoys an important edge in overall reach.) But the luxury automaker isn't the only company seeing eye-popping results on Instagram. The photo-based network added 100 million users in just 5 months—rivalling Facebook's growth numbers—and now boasts 800 million monthly users. With an audience that skews young (a majority of users reported to be under 30) and is also fiercely brand conscious (53% of users follow brands), Instagram is quietly emerging as the new home for companies seeking an impact on social media.

The dust has yet to settle on the impact of Facebook's big decision in January to **revamp** its news feed—prioritising 'meaningful interactions,' especially updates from friends and family while limiting content from brands and publishers. But, for companies, it's likely to only accelerate a shift of resources and awareness to Facebook's younger sibling. For businesses seeking to stay ahead of the social curve, here's why doubling down on Instagram makes sense this year.

Instagram is a skilled omnivore when it comes to devouring other networks' features. A social network with nearly a billion users isn't supposed to be innovative and turn-on-a-dime adaptable. But Instagram has shown itself to be just that. The 'Stories' concept, a daily disappearing **montage** of users' photos and videos, may have originated with Snapchat, but Instagram has taken it mainstream since copying it 2016- adding more than 300 million users in the process.

Instagram has also been quick to embrace everything from live video and private messaging functionality to Snapchat-inspired 'filters' for creative selfies. Plus, despite some initial user resistance, the network has pivoted in recent years from a chronological stream to an algorithmic news feed—a la Facebook—giving developers and advertisers more fine-grained control over what users see. What does all of this mean for companies? Instagram's ability to continually reinvent itself promises to pay off in the form of sustained user growth going forward.

Engagement for brands on Instagram is unparalleled. The differential comes down to Instagram's DNA: The network is and has always been a visual-first platform. Facebook, with its 2 billion-plus users, is obviously the undisputed champion of 'reach' in the social media universe. But Instagram holds the title for an arguably more critical metric—'engagement.' While definitions vary, engagement embraces the degree to which users actually interact with content—liking, sharing and commenting, rather than just passively looking. A recent study showed that brands are getting three times more engagement on Instagram when compared apples-to-apples with Facebook. On Twitter, meanwhile, engagement rates can be less than 1/30th what they are on Instagram.

Choose the option nearest in meaning to 'Montage' as used in the passage.

1. Hodgepodge
2. Gallimaufry
3. A rapid succession of images
4. Producing a new composite whole from fragments of pictures, text, or music.
5. None of these

Correct Option - 3

Que. 129 What is the main theme of the passage?

1. How Facebook is expanding its user base
2. Why Instagram is the emerging social giant for the future to come
3. Facebook is more of a visual platform than texting platform
4. Facebook is the most 'engaging' social media giant
5. None of these.

Correct Option - 2

Que. 130 Which of the following statements is wrong about Instagram?

1. Instagram's ability to continually reinvent itself promises to pay off in the form of sustained user growth going forward.
2. Instagram has also been quick to embrace everything from live video and private messaging functionality to Snapchat-inspired 'filters' for creative selfies.
3. A recent study showed that brands are getting three times more engagement on Instagram when compared apples-to-apples with Facebook.
4. For businesses seeking to stay ahead of the social curve, investing in Instagram can be beneficial.
5. None of these

Correct Option - 5

Que. 131 Choose the word opposite in meaning to 'Revamp'.

1. Renovate
2. Overhaul
3. Ameliorate
4. Stabilise
5. Recast

Correct Option - 4

Que. 132 According to the passage, why is Instagram being more preferred over Facebook.

1. Instagram is comparatively new as compared to Facebook.
2. Many celebrities can be found on Instagram.
3. People feel more 'engaged' on Instagram.
4. Facebook news policy is not reliable.
5. Instagram has comparatively fewer ads than Facebook.

Correct Option - 3

Que. 133 "The differential comes down to Instagram's DNA". What does the statement mean?

1. The decentralised network authority of Instagram is in the hands of its users.
2. Facebook and Instagram vary in terms of only network sharing.
3. Twitter and Instagram share more common features.
4. Instagram is more of a visual platform as compared to Facebook.
5. All of the above

Correct Option - 4

Que. 134 Choose the word nearest in meaning to 'Gamut'.

1. Range
2. Spectrum
3. Variety
4. Panorama
5. All of the above

Correct Option - 5

Que. 135 Engagement for brands on Instagram is _____.

1. Less

Correct Option - 3

Que. 139 Which of the following words most appropriately fits the blank labelled (B)?

1. Opinions
2. Mood
3. Position
4. Feelings
5. Mindset

Correct Option - 5

Que. 140 Which of the following words most appropriately fits the blank labelled (C)?

1. Acceptable
2. Default
3. Norm
4. Common
5. Rule

Correct Option - 2

Que. 141 Which of the following words most appropriately fits the blank labelled (D)?

1. Conventional
2. Normal
3. Conservative
4. Traditional

5. Progressive

Correct Option - 5

Que. 142 Which of the following words most appropriately fits the blank labelled (E)?

1. Qualified
2. Sanctioned
3. Allowed
4. Entitled
5. Permitted

Correct Option - 4

Que. 143 Which of the following words most appropriately fits the blank labelled (F)?

1. Receiving
2. Bequeathing
3. Succeeding
4. Ceding
5. Inheriting

Correct Option - 5

Que. 144 Which of the following words most appropriately fits the blank labelled (G)?

1. Accepted
2. Excepted
3. Expected
4. Intercepted
5. Accosted

Correct Option - 3

Que. 145 Which of the following words most appropriately fits the blank labelled (H)?

1. Unpaid
2. Professional
3. Salaried
4. Compulsory
5. Free

Correct Option - 1

Que. 146 The question below contains four scattered segments of a sentence. Indicate the sequence which correctly assembles the segments and completes the sentence.

- A. Desertification (UNCCD) defines it
- B. and dry subhumid areas resulting from various factors,
- C. as "land degradation in arid, semiarid,
- D. including climatic variations and human activities"

- 1. acbd
- 2. abcd
- 3. adcb
- 4. bcad
- 5. bdca

Correct Option - 1

Que. 147 The question below contains four scattered segments of a sentence. Indicate the sequence which correctly assembles the segments and completes the sentence.

- A. Adam Smith was well acquainted with the work
- B. of most physicists concerning
- C. the earth and the heavens,
- D. from Antiquity to the eighteenth century

- 1. ABCD
- 2. DCBA
- 3. BDAC
- 4. ABDC
- 5. CDBA

Correct Option - 1

Que. 148 The question below contains four scattered segments of a sentence. Indicate the sequence which correctly assembles the segments and completes the sentence.

- A. which was held to be a perfect geometric figure
- B. The Greek philosophers
- C. (Plato, Eudoxus, Aristotle) liked to think
- D. that the world could be represented as a sphere

- 1. BCDA
- 2. ABCD
- 3. BDAC
- 4. DBAC
- 5. CBAD

Correct Option - 1

Que. 149

The question below contains four scattered segments of a sentence. Indicate the sequence which correctly assembles the segments and completes the sentence.

- A. the way for the fourth great model,
- B. According to Smith,
- C. it is Descartes's system that paved
- D. that of Newton

- 1. DCAB
- 2. CBAD
- 3. BCAD
- 4. BDAC
- 5. ACBD

Correct Option - 3

Que. 150 The question below contains four scattered segments of a sentence. Indicate the sequence which correctly assembles the segments and completes the sentence.

- A. as capable of explaining
- B. The Newtonian system is described
- C. observed phenomena with a more limited number of basic principles
- D. and of predicting future developments accurately

- 1. DBCA
- 2. CDAB
- 3. BACD
- 4. DBAC
- 5. ADBC

Correct Option - 3

Que. 151 In the following sentence, four words have been printed in bold. One of these words might either be wrongly spelt or inappropriate in the context of the sentence. Find out the word that is inappropriate or wrongly spelt, if any. If the words printed in bold are correctly spelt and appropriate in the context of the sentence then mark (5) i.e. 'all correct' as your answer.

The Election **Commission** should not allow room for **controversy** that **erodes** its image and opens doors for **criticism**.

- 1. Commission

1. Replace
2. Find
3. Lookup
4. Search
5. None of these

Correct Option - 2

Que. 171 Which is not a storage device?

1. A CD
2. A DVD
3. A floppy disk
4. A printer
5. A Hard disk

Correct Option - 4

Que. 172 What will happen when you press F12 in micosoft word?

1. Save As dialog box will open
2. Save dialog box will open

3. Open dialog box will open
4. Close dialog box will open
5. None of the above

Correct Option - 1

Que. 173 Microsoft's Messenger allows users to

1. bypass a browser to surf the web
2. create a blog
3. communicate via direct live communion
4. identify and eliminate spam
5. make graphic presentations

Correct Option - 3

Que. 174 FTP stands for

1. File Transfer Protocol
2. Fast Text Processing
3. File Transmission Program
4. Fast Transmission Processor
5. None of the above

Correct Option - 1

Que. 175 The shortcut key Ctrl+F in Word is used for

1. To view document in full view
2. To open the Formula dialog box
3. To save the file
4. To open the Find box
5. None of these

Correct Option - 4

Que. 176 _____ can be moved up/down or left/right in a document file.

1. Title Bar
2. Status bar
3. Formula Bar
4. Scroll Bar
5. None of these

Correct Option - 4

Que. 177 Which type of software is a operating system?

1. Communication
2. Application
3. System
4. Word-processing
5. None of these

Correct Option - 3

Que. 178 A feature that automatically corrects common spelling errors is called _____.

1. Auto Fit
2. Auto Format
3. Auto Correct
4. Auto Lock
5. None of these

Correct Option - 3

Que. 179 To display the contents of a folder in Windows Explorer you should _____.

1. double click on it
2. collapse it
3. name it
4. give a password
5. rename it

Correct Option - 1

1. Mouse, Keyboard, Monitor
2. Mouse, Keyboard, Printer
3. Mouse, Keyboard, Plotter
4. Mouse, Keyboard, Scanner
5. None of these

Correct Option - 4

Que. 181 What happens when the user Presses CTRL+9 in Excel?

1. Prints 9
2. Prints
3. Prints 9 followed by spaces
4. Inserts 9 cells at the current location

- Hides the current row

Correct Option - 5

Que. 182 Windows logo key + _____ will lock the screen.

- I
- L
- K
- A
- G

Correct Option - 2

Que. 183 Operating system runs on computer _____ and serves as _____ for other software to run on.

- Software, hardware
- Hardware, software
- Hardware, platform
- Platform, hardware
- None of the above

Correct Option - 3

Que. 184 The shortcut key to print a document is _____.

- Ctrl + A
- Ctrl + P
- Ctrl + C
- Ctrl + V
- None of the above

Correct Option - 2

Que. 185 Which of the following uses a handheld operating system?

- A supercomputer
- A personal computer
- A laptop
- A mainframe
- A PDA

Correct Option - 5

Que. 186 Which of the following statements is false in the context of client/server network?

1. It is expensive to set up.
2. It requires a specialized server.
3. It is a slow network.
4. It is highly secure.
5. It is a congested network.

Correct Option - 3

Que. 187 Storage that retains its data after the power is turned off is referred to as

1. Volatile storage
2. Non-volatile storage
3. Sequential storage
4. Direct storage
5. None of these

Correct Option - 2

Que. 188 What kind of storage is a Hard disk drive?

1. Flash
2. Nonvolatile
3. Temporary
4. volatile
5. None of these

Correct Option - 2

Que. 189 MS-DOS is a _____ operating system.

1. point-and-click
2. user-friendly
3. command-driven
4. Mac
5. None of these

Correct Option - 3

Que. 190 HTML stands for__

1. Hyper Text Making Links
2. Hyper Text Markup Language
3. Higher Textual Marking of Links
4. Hyper Text Mixer of Links
5. None of these

Correct Option - 2

Que. 191 To restart the computer, following combination of keys is used.

1. Del + Ctrl
2. Backspace + Ctrl
3. Esc + Ctrl
4. Insert + Esc
5. Ctrl + Alt + Del

Correct Option - 5

Que. 192 In most Microsoft programs, what does 'Alt+F4' do _____.

1. Opens the program
2. Ends the program
3. Run the program
4. Modify the program
5. None of these

Correct Option - 2

Que. 193 Which is the most recent version of Internet protocol ?

1. IPv6
2. IP4
3. IP2
4. IP0
5. IP9

Correct Option - 1

Que. 194 _____ is a form of permanent memory that holds all the instructions the computer needs to start up does not get erased when the power is turned off.

1. The network Interface Card (NIC)
2. The CPU
3. RAM
4. ROM
5. None of these

Correct Option - 4

Que. 195 The full form of USB is _____.

1. Universal Security Block

2. Ultra Serial Block
3. United Service Block
4. Universal Serial Bus
5. None of these

Correct Option - 4

Que. 196 Which of the following is the correct sequence of compilation?

1. Compilation, Assembly, Linking
2. Assembly, Linking, Compilation
3. Linking, Assembly, Compilation
4. Assembly, Compilation, Linking
5. Compilation, Linking, Assembly

Correct Option - 1

Que. 197 Internet data is broken up as

1. Fixed length packets
2. Variable length packets
3. Not packetized
4. 64 bytes packets
5. None of these

Correct Option - 2

Que. 198 What is the connection known as which uses phone lines and modems?

1. Digital
2. Dial-up
3. Broadband
4. Dish
5. Both 2 and 3

Correct Option - 5

Que. 199 URL stands for _____.

1. Uniform Resource Locator
2. Universal Research List.
3. Uniform Research Locator
4. Universal Resource List
5. None of the above

Correct Option - 1

Que. 200 Which of the following is a programming language for creating special programs like applets?

1. Java
2. Cable
3. Domain name
4. Net
5. COBOL

Correct Option - 1
