F is working as a designation of clerk in the company.

Which of the following person working as a Officer?

1. A
2. D
3. B
4. F
5. None of these

Correct Option - **3**

Que. 2 Whose designation is just above the D's designation?

1. Manager
2. Officer
3. G
4. Both Option 2 and 3
5. Both option 1 and 3

Correct Option - **5**

Que. 3 Which of the following statement is correct regarding G?
    I) G is a manager.
II) The position which is just above G is E's position.
III) Two designation between A and G.

1. Only I is correct
2. Only II is correct
3. Only III is correct
4. Any II statement is correct
5. All are correct.

Correct Option - **5**

How many designation between A and G?

Que. 4

1. One
2. Two
3. Three
4. More than three
5. None

Correct Option - **2**

Que. 5 On which position does C is working?

1. Director
2. General manager
3. Assistant General manager
4. manager
5. Assistant manager

Correct Option - **2**

Que. 6 **Directions:** In the question below are given three statements followed by two conclusions numbered I, II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Only a few cats are dogs.

No dogs are monkey.

Only horses are monkeys.

Conclusions:

I. Some cats being monkey is a possibility.

II. Only few dogs are cats.

1. Only I follows
2. Only II follows
3. Either I or II follows
4. Neither I nor II follows
5. Both I and II follows

Correct Option - **4**

Que. 7 **Direction:** In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statement:

Some boxes are jars.

All spoons are boxes.

Only few jars are lid.

Conclusion:

I. Some spoons are lid.

II. No spoons being jars is a possibility.

1. Only I follow
2. Only II follow
3. Both I and II follow
4. Either I or II follow
5. Neither I nor II follow

Correct Option - **2**

Que. 8   **Direction:** In the question below are given three statements followed by two conclusion numbered I and II.You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusion logically follows from the given statements disregarding commonly known facts.

Statements:

Some players are energetic

No player is short

At least some short are man

Conclusion:

I. All short can never be energetic.

II. All players are energetic.

1. Only I follows
2. Only II follows
3. Either I or II follows
4. Niether I nor II follows
5. Both I and II follows

Correct Option - **4**

Que. 9   **Direction:** Study the following information to answer the given questions:

There are certain numbers of persons sitting in a row, facing north direction. Four of them likes different colours i.e. Green, Pink, White and Yellow.

Two persons sit between the one, who likes White colour and the one, who likes Pink colour. Person, who likes White colour is adjacent to A. Position of H is exactly between position of B and position of C, who sits immediate left of E. Number of persons to the right of one, who likes Yellow, is equal to number of persons to the left of one, who likes White colour. H and F are not adjacent to each other. A sits third to the left of H, who is two places away from the one, who like Yellow colour. F is third person from right end. At most two persons sit between F and the one, who likes Yellow colour. Person, who likes Yellow is to the left of F. Number of persons to the left of D is half of number of persons to the right of E. B sits immediate right of A and does not like White colour. G sits immediate left of one, who likes Pink. Person, who likes Green is exactly between B and H.
Who sits second to the left of C?

1. E
2. H
3. F
4. D
5. G

Correct Option - **2**

Que. 10 | Total number of seats in the row?

1. 13
2. 16
3. 19
4. 17
5. 20

Correct Option - **4**

Que. 11 | D likes _____ colour.

1. White
2. Green
3. Yellow
4. Pink
5. Cannot be determined

Correct Option - **4**

Que. 12 | How many persons sit between A and F?

1. Seven
2. Six
3. Four
4. Five
5. Three

Correct Option - **1**

Que. 13 | Who sits immediate left of D?

1. A
2. B
3. G
4. E
5. C

Correct Option **- 3**

Que. 14 | **Directions:** These questions are based on the following information.

There are seven members in the family in three generations namely, Kavish, Lavanya, Mahipal, Prinshu, Ritika, Tanveer and Ushu in which there are 3 married couples. Kavish has only two children. Ushu is the unmarried sister in law of Ritika. Tanveer is the only son of Prinshu. Lavanya is the wife of Mahipal. Kavish is the paternal grandfather of Mahipal. Both Kavish and Prinshu are in the same generation.
How many male members are there in the family?

1. Four
2. Three
3. Five
4. Data inadequate
5. None of these

Correct Option **- 2**

Que. 15 | How is Tanveer related to Lavanya?

1. Father
2. Son
3. Father – in - law
4. Data inadequate
5. None of these

Correct Option **- 3**

Que. 16 | How many persons are there in youngest generation?

1. One
2. Two
3. Three
4. Data inadequate
5. None of these

Correct Option **- 2**

Que. 17 | **Direction:** Read the following information carefully and answer the questions that follow:

P, Q, R, S, T, U, V and W were born in different months of the year such as January, February, March, April, May, June, July and August but not necessarily in the same order. They like different types of soup i.e. Tomato, Corn, Spinach, Garlic, Ginger, Bean, Mushroom and Chickpea though not in the same order.

V does not like Tomato soup. S is born immediate before P. At the most three people are scheduled between R and the person who likes Chickpea soup. T is born in April. R, who likes Garlic soup, was born in the first quarter of the year in the month having maximum number of days. U, who likes Spinach soup is born in the second quarter of the year in a month having least number of days. The person who likes Tomato soup is born before R in a month having maximum number of days. Q, who likes Mushroom, is born before T. T does not like Corn soup. The person who likes Ginger soup is born before Bean soup. The person who likes Chickpea soup is

born after the person who likes Corn soup.
The person who likes Ginger soup?

1. Q
2. T
3. V
4. R
5. None of these

Correct Option - **2**

Que. 18 The person born in the month of June likes which soup?

1. Chickpea
2. Mushroom
3. Garlic
4. Spinach
5. Bean

Correct Option - **4**

Que. 19 The person 'R' is born in which month?

1. April
2. February
3. March
4. June
5. August

Correct Option - **3**

Que. 20 The person born in the month of April likes which soup?

1. Corn
2. Garlic
3. Tomato
4. Bean
5. Ginger

Correct Option - **5**

Que. 21 Identify the incorrect statement among the following statements-

1. W is born in January.
2. V likes Corn soup.
3. The person who likes Bean soup is born in August.
4. V is born in the second quarter of the year.

5. S likes Mushroom soup.

Correct Option **- 5**

Que. 22 In a word "BANKING", if all letters are arranged in the alphabetical order, and then the consonants are changed to the previous letter and the vowels are changed to the next letter as per the English alphabetical series, then how many letters do not repeat more than once?

1. Four
2. Three
3. Five
4. Six
5. Two

Correct Option **- 2**

Que. 23 If in the given number 86352876, every even digit is replaced with the digit immediately preceding it and every odd digit is replaced with the digit immediately following it in natural number series, then what will be the product of 2nd digit from the left end and 5th digit from the right end?

1. 12
2. 80
3. 30
4. 25
5. 45

Correct Option **- 3**

Que. 24 **Directions:** Question below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

There are seven friends M, N, O, P, Q, R and S are sitting in a row. All are facing towards north direction. Who sits in the middle of the row?

I. Three friends sit between O and N. None of them sits at the extreme ends.

II. N sits second to the left of S. Q sits third to the right of S.

1. Data in statement I alone sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
2. Data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
3. Data either in statement I alone or in statement II alone are sufficient to answer the question.
4. Data in both the statements I and II together are not sufficient to answer the question.
5. Data in both the statements I and II together are necessary to answer the question.

Correct Option **- 5**

Que. 25 **Directions:** Question below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

Six boys Amrit, Ankit, Abhinav, Abhay, Ashu and Anirudh are sitting around a circular table. All are facing towards the center. Who among the following sits immediate right of Abhinav?

I. Abhay sits third to the right of Abhinav. Amrit is second to the left of Abhay.

II. Ashu sits third to the right of Anirudh, who sits to the immediate right of Amrit.

1. Data in statement I alone sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
2. Data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
3. Data either in statement I alone or in statement II alone are sufficient to answer the question.
4. Data in both the statements I and II together are not sufficient to answer the question.
5. Data in both the statements I and II together are necessary to answer the question.

Correct Option - **1**

Que. 26 | **Directions:** Question below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

How A is related to B?

I. C is the mother of A. B is the sister of A.

II. A is the son of D. D has two children A and B.

1. Data in statement I alone sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
2. Data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
3. Data either in statement I alone or in statement II alone are sufficient to answer the question.
4. Data in both the statements I and II together are not sufficient to answer the question.
5. Data in both the statements I and II together are necessary to answer the question.

Correct Option - **2**

Que. 27 | **Direction:** The following question consists of two statements numbered I and II. Decide if data given in the statements are sufficient to answer the questions below.

What is Arjun's position from the left and also find total no of persons in the row?

Statements:

I. Arjun is 9th from the right and Rahul is 9th from the left.

II. When Arjun and Rahul interchanges their position, Rahul will be 27th from the left.

1. The data either in statement I alone or in statement II are sufficient to answer the question.
2. The data in both statements I and II together are necessary to answer the question.
3. The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
4. The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
5. The data even in both statements I and II together are not sufficient to answer the question.

Correct Option - **2**

Que. 28 **Directions:** Read the following information carefully and answer the questions that follow:

Zb, Fc, Eb, Cs, Gv, and Um are six employees working in a company. Zb is the most experienced among the employees. Gv is more experienced than only Eb. Three persons have experience more than Fc. More than three persons have less experience than Cs who has experience of 28 years.

How many persons are more experienced than Um?

1. Two
2. Four
3. One
4. Three
5. Five

Correct Option - **1**

Que. 29 Who is fourth most experienced person?

1. Cs
2. Fc
3. Eb
4. Gv
5. Um

Correct Option - **2**

Que. 30 If the third least experienced person have experience of 21 years what may be the experience of Um?

1. 29 years
2. 20 years
3. 25 years
4. 30 years
5. 31 years

Correct Option - **3**

Que. 31 **Directions:** In the question given below, there is a statement followed by two assumptions numbered I and II. An assumption is something supposed or taken for granted. You have to consider the statement and assumptions and then decide which of the assumption(s) is/are implicit in the statement. You have to consider the statements to be true even if they seem to be at variance from commonly known facts.

Statement: 'This book has been written for everyone and does not require readers to have any experience in handling computers'. -- An author of a book on computers.

Assumption:

I. It is possible to learn computers with the help of a book only.

II. It is possible to learn to handle computers only after reading the book.

1. If only Assumption I is implicit.

2. If only Assumption II is implicit.

3. If either Assumption I or II is implicit.

4. If neither assumption I nor II is implicit.

5. Both assumption follow.

Correct Option - **4**

Que. 32 **Directions:** One statement is given followed by two conclusions, I and II. You have to consider the statement to be true, even if it seems to be at variance from commonly known facts. You are to decide which of the given conclusions can definitely be drawn from the given statement.

Statement:

1. Only Conclusion I follows.

2. Only Conclusion II follows.

3. Both the Conclusions I and II follow.

4. Neither Conclusion I nor II follows.

5. Either Conclusion I or II follows.

Correct Option - **1**

Que. 33 In each of the following questions, two statements numbered I and II are given. There may be cause and effect relationship between the two statements. These two statements may be the effect of the same cause or independent causes. These statements may be independent causes without having any relationship. Read both the statements in each question and mark your answer accordingly.

I: The co-founders of Instagram have announced they are quitting the social media company.

II: Instagram has largely escaped Facebook's high-profile problems with privacy, foreign election interference and fake news and has been able to maintain a younger user base than its parent company.

1. If statement I is the cause and statement II is its effect.

2. If statement II is the cause and statement I is its effect.

3. If both the statements I and II are independent causes.

4. If both the statements I and II are effects of independent causes.

5. If both the statements I and II are effects of some common cause.

Correct Option - **4**

Que. 34 **Direction**: Read the following information carefully and answer the questions given below.

Eight persons O, P, Q, R, S, T, U, and V are living in a four-storey building such that the ground floor is numbered as 1, above it is floor 2 then the top floor is numbered as 4. Each of the floors has 2 flats in it as flat-1 and flat-2. Flat-1 of floor-2 is immediately above flat-1 of floor-1 and immediately below flat-1 of floor-3 and so on. In the same way, flat-2 of floor-2 is immediately above flat-2 of floor-1 and immediately below flat-2 of floor-3 and so on. Flat-1 is to the west of flat-2. T lives to the east of V. There is a gap of one floor between P and

Q and they both live in the same flat. U does not live in flat-1. Q lives in flat-2 of an even-numbered floor. Only two floors are there between V and R. S and P lives on the same floor.

Who among the following lives in the flat-1 on the third floor?

1. P
2. Q
3. V
4. T
5. O

Correct Option - **5**

Que. 35 Four of the following five are alike in a certain way and hence form a group, which among the following does not belong to that group?

1. T
2. Q
3. V
4. P
5. U

Correct Option - **3**

Que. 36 **Directions:** In making decisions about important questions, it is desirable to be able to distinguish between strong and weak arguments. Strong arguments are those, which are both important and directly related to the question. Weak arguments are those, which are of minor importance and also may not be directly related to the question or may be related to a trivial aspect of the question. The question below is followed by two arguments numbered I and II. You have to decide which of the arguments a Strong argument is and which a weak argument is.

3. Either I or II follows.
4. Neither I nor II follows.
5. Both I and II follow.

Correct Option **- 5**

Que. 38 | **Direction:** Study the information given below carefully and answer the questions that follow.

W is 12 m to the North of U.V is 5 m West of W. X is 7 m to the South of V. X is 4 m East of Z. Y is 9 m South of Z. A is 9 m East of Y.
If point O is 5 m west of U. Find out the distance and direction of X with respect to O?

1. 5 m, North
2. 5 m, South
3. 7 m, North
4. 4 m, South
5. 4 m, North

Correct Option **- 1**

Que. 39 | U is in which direction with respect to Y?

1. South
2. South West
3. North West
4. North East
5. North

Correct Option **- 4**

Que. 40 | What is the distance between A and U

1. 6 m
2. 4 m
3. 7 m

4. 9 m

5. None of these

Correct Option - **2**

Que. 41 | In the following number series, a wrong number is given. Find out the wrong number.

6, 24, 60, 120, 210, 335

1. 6
2. 24
3. 335
4. 120
5. 210

Correct Option - **3**

Que. 42 | What should come in place of the question mark '?' in the following number series?

3, 3, 9, 29, ?

1. 61
2. 51
3. 71
4. 75
5. 67

Correct Option - **3**

Que. 43 | What should come in place of question mark "?" in the following number series?

11, 14, 20, 31, 49, 76, ?

1. 120
2. 124
3. 104
4. 114
5. None of these

Correct Option - **4**

Que. 44 | What should come in place of the question mark '?' in the following number series?

40, 10, 50, 12.5, ?, 15.625

1. 60.5
2. 64.5
3. 65
4. 45

5. 62.5

Correct Option - **5**

Que. 45 What should come in place of the question mark '?' in the following number series?

6, 9, 23, 87, 429, ?

1. 2560
2. 2567
3. 2577
4. 2600
5. 1800

Correct Option - **2**

Que. 46 **Direction:** Read the table carefully and answer the following questions:

The table below shows the total number of visits, percent of men, percent of women and number of children visited a zoo in a week.

Day	Total Visits	Men (%)	Women (%)	Children
Monday	2,000	60%	50%	200
Tuesday	2,600	55%	70%	169
Wednesday	2,750	64%	45%	198
Thursday	1,850	50%	48%	481
Friday	2,400	70%	40%	48
Saturday	3,200	40%	125%	320
Sunday	3,600	75%	25%	225

Total number of visits = Men + Women + Children

Number of men = Percent of Total visits

and Number of women = Percent of Men visit

The total number of children visited on Thursday, Friday and Saturday is approximately what percent of the total number of men visited on the same days?

1. 18%
2. 20%
3. 22%
4. 24%
5. 26%

Correct Option - **3**

Que. 47 Find the average number of women visited the zoo from Wednesday to Saturday.

1. 877
2. 878
3. 887
4. 777
5. 817

Correct Option - **1**

Que. 48 Find the difference between the total number of men visited on Monday and Tuesday together and the number of women visited on Saturday and Sunday together.

1. 351
2. 352
3. 353
4. 354
5. 355

Correct Option - **5**

Que. 49 Find the difference between the total number of women and the total number of children visited the zoo in the week.

1. 4,140
2. 4,134
3. 4,144
4. 4,413
5. 4,143

Correct Option - **5**

Que. 50 Find the ratio of the number of women and children together visited on Tuesday and the number of men visited on the same day.

1. 11 : 9
2. 9 : 11
3. 8 : 11
4. 11 : 8
5. 13 : 77

Correct Option - **2**

Que. 51 Tap A can drain a cistern in 24 hours while Tap B can do the same in 36 hours. Tap A and B are opened simultaneously in which B works at 100% and 60% efficiency at alternate hours. Find the time (in hours) required to drain the cistern.

1. 15(13 / 21)
2. 15(17 / 21)

3. 14(3 / 5)

4. 16(11 / 21)

5. None of these.

Correct Option - **1**

Que. 52 Three glasses 1,2 and 3 have water and juice in ratio of 1 : 2, 3 : 4 and 2 : 5. Find out which glass contains maximum amount of juice if capacity of glasses is 90 ml, 210 ml and 140 ml respectively and 10 ml of juice was removed from glass 2 and added to glass 3.

1. Second glass

2. Both glass 2 and 3

3. Third glass

4. Both glass 1 and 2

5. None of the above

Correct Option - **2**

Que. 53 A starts her journey from a place X. She walks for two hours and takes a halt, if she travels $1/3^{rd}$ more of what she already covered then she would cover 60% of the total distance she needs to cover. Find the percentage of distance travelled by her in three hours.

1. 58.5%

2. 60%

3. 45%

4. 67.5%

5. 80%

Correct Option - **4**

Que. 54 In an examination, there were three subjects Hindi, Maths, and Science. Marks scored by P in Hindi is 40. Marks scored by P and Q in Maths is equal. Marks scored in 3 subjects by Q is 240. Marks scored by Q in science is 25% of total marks obtained. Marks scored by R in Hindi is equal to marks scored by Q in Maths. Marks scored in Maths by Q is 20 more than marks scored in Science. Find the ratio of Hindi marks obtained by P, Q and R.

1. 2 : 5 : 4

2. 3 : 5 : 7

3. 4 : 7 : 9

4. 2 : 7 : 5

5. 2 : 5 : 7

Correct Option - **1**

Que. 55 A boat has speed a of 15 m/s in still water, but while going upstream its speed is half the speed as compared to the speed of the boat going downstream. The boat is going downstream and a ship while going downstream crosses the boat in 15 seconds. The length of the ship is double the length of the boat. Find the

time the ship will take to cover a distance of 144 kilometers while going upstream if the length of the ship is 100 meters.

1. 1 hour
2. 2 hours
3. 1.33 hours
4. 1.6 hours
5. 3 hours

Correct Option - **2**

Que. 56 The graph shows data on financial literacy rate of town A and town B for year 2016, 2017, 2018, 2019 and 2020. Answer the questions considering the line graph mentioned below. The chart shows % increase in financial literacy rate with respect to base year 2015. Literacy rate of town A in 2015 was 35% and town B was 40%. Town A has 50,000 residents and town B has 60,000 residents.

Financially Literacy rate

From the graph shown below which town has lowest financially literate people and in which year?

1. Town A, 2017
2. Town A, 2016
3. Town B, 2016
4. Town B, 2017

Que. 129 **DIRECTIONS: Read the passage and answer the questions that follow.**

Last week, I spent two days at an "eco-friendly" homestay near Jim Corbett National Park in Uttarakhand. On day one, the owner, a nature enthusiast who has done _____ work in regenerating large tracts of forests, gave me a list of dos and don'ts. But what alarmed me was the fact that he did not have a plastic waste collection/recycling plan in place. When I asked what they do with their plastic waste, the staff said that they either burn or bury it. Both are terrible practices. Burning plastic in open air releases **carcinogenic** gases (dioxin and furan), and burying it means it stays in the environment for years. And when it breaks down, plastics release toxic chemicals, polluting the soil and groundwater. This practice of burning/burying plastics is common because of three reasons — the lack of awareness, lax governance and inspection, and non-existent waste collection-and-disposal/recycling systems.

India's plastic challenge is enormous. The country generates approximately 25,940 tonnes per day (TPD) of plastic waste. Of this, around 15,600 TPD gets recycled. On World Environment Day (June 5), 2018, the then environment minister Harsh Vardhan announced that SUP will be phased out by 2020 — a deadline subsequently revised to 2022. In his August 15 speech, Prime Minister Narendra Modi asked citizens to free the country from SUP *and hinted at an announcement on October 2.* However, this did not happen. Analysts believe the government is under pressure from the industry to refrain from banning plastics because the measure would be too disruptive at a time when India is coping with an economic slowdown and job losses. A representative of the All India Plastic Manufacturers Association told The Print that there are over 50,000 plastic manufacturing industrial units, employing four to five million people. This number was compelling (1)/, and even in good times (2)/, a government will think (3)/ twice before imposing a ban. (4)/

There is another problem too. Despite the **burgeoning** plastic menace, there is still no clear definition of SUP. Simply put, SUP means products that are used once and then discarded. the Centre will ask states (1) / using some SUP products (2)/ such as polythene bags and styrofoam (3)/ to enforce existing rules against storing, manufacturing and (4)/ according to a report, for now (5). Unfortunately, the track record of states in implementing this has been patchy.

Instead of a no-ban on SUPs, the least the Centre could have done was ban six SUPs — plastic bags, cups, plates, small bottles, straws, and certain types of sachets — and then others in a phased manner. By opting for short-term relief, we have only aggravated our long-term problems. Of the total plastic generated, 19% are of chips and confectionery packets, 12% bottle caps, and lids, 10% are PET bottles and 7% are straws. Around 60 countries have already banned single-use plastic fully or partially.

What is most troubling is not the plastic challenge in cities because they would still have the first access to information, technology, funds, and expertise to tackle the problem. The real challenge lies in smaller towns and kasbahs, especially those tucked away in **pristine** areas, and ecotourism and adventure tourism destinations, especially when the government is opening up newer areas for tourism.
With a spike in tourists going to these places, who will ensure that plastic poison doesn't enter the _____ of the ecosystem, pollute the oceans, the streams, and the mountains?

Que. 161 निर्देशः नीचे एक गद्यांश दिया गया है जिसपे आधारित आठ प्रश्न हैं। गद्यांश को ध्यान से पढ़िए व प्रश्नों के उत्तर उपयुक्त विकल्पों द्वारा दीजिये-

संसाधन वे होते हैं जो उपयोगी हों या फिर मनुष्य को अपनी जरूरतों को पूरा करने के लिये उपयोगी बनाये जा सकते हो। ऐसे संसाधन जो उपयोग करने के लिये परोक्ष रूप से प्रकृति से प्राप्त होते हों, प्राकृतिक संसाधन कहलाते हैं, जिनमें वायु, पानी जो वर्षा, झीलों, नदियों और कुओं द्वारा मृदा, भूमि, वन, जैवविविधता, खनिज, जीवाश्मीय ईंधन इत्यादि शामिल हैं। इस प्रकार प्राकृतिक संसाधन हमें पर्यावरण से प्राप्त होते हैं। जब मानव जनसंख्या (आबादी) कम थी और वे नियंत्रित एवं संयमित जीवन व्यतीत करते थे। तब संसाधनों का प्रयोग सीमित था। लेकिन बढ़ती जनसंख्या और आर्थिक प्रक्रियाओं के चलते अत्यधिक मात्रा में पदार्थों का उपयोग करने के कारण प्राकृतिक संसाधनों के आधार पर भारी बोझ पड़ता है और इस कारण पर्यावरण गंभीर रूप से नष्ट होता जा रहा है।

मानव जनसंख्या में होती अत्यधिक वृद्धि के कारण वनोन्मूलन, आर्द्रभूमि (मैंग्रोव) का बह जाना और तटीय क्षेत्रों का सुधार करके अपने घर एवं फैक्ट्रियों को बनाने का बढ़ावा मिला। बहुत बड़ी मात्रा में जीवाश्म ईंधनों का प्रयोग उद्योगों एवं परिवहन के लिये किया जाता है। वनों का उन्मूलन जैवविविधता की हानि का कारण है जिससे भावी पीढ़ियों को जैवविविधता रूपी खजाने से वंचित होना पड़ेगा। ऐसा इसलिये अत्यंत आवश्यक है कि आगे प्राकृतिक संसाधनों के विभिन्नीकरण को रोका जा सके और उनका उपयोग एक न्याय एवं तर्कसंगत ढंग, सततीय रूप में करने के लिये आश्वस्त किया जाए।

इनमें से कौन सा संसाधन प्राकृतिक नहीं हैं?

1. जल
2. भूमि
3. वन
