100 Questions

Que. 1 Arrange the sentences in the correct order and answer the following questions.

- A. Over the past year, perceptions of relative U.S. economic power have declined in many of America's key trading partners and allies.
- B. Following the onset of the financial crisis nearly a decade ago, Europeans increasingly named China, rather than the U.S., as the world's leading economic power.
- C. This year, however, the pattern has reversed itself again, and in countries such as Germany, the United Kingdom and Spain, China is once more seen as occupying the top spot.
- D. But in recent years, as the American economy slowly recovered, the pendulum began to swing back in the direction of the U.S.
- E. The trend can be seen in several European countries, where views about the economic balance of power have fluctuated in recent years.

Which of the following is the **THIRD** statement?

1. A
2. B
3. C
4. D
5. E

Que. 2 Which of the following is the **FIRST** statement?

1. A
2. B
3. C
4. D
5. E

Que. 3 Which of the following is the **SECOND** statement?

1. A
2. B
3. C
4. D
5. E

Que. 4 Which of the following is the **FIFTH** statement?

1. A
2. B
3. C
4. D
5. E

Que. 5 Which of the following is the **FOURTH** statement?

1. A
2. B
3. C
4. D
5. E

Que. 6 Read the sentence to find out whether there is an error in it. The error, if any, will be in one part of the sentence. If there is no error, the answer is option (5). Ignore errors of punctuation, if any.

Shooting as well as horse riding (1) are taught (2) to cadets at the National Defence (3) Academy every morning. (4)

1. 1
2. 2
3. 3
4. 4
5. No error

Que. 7 Read the sentence to find out whether there is an error in it. The error, if any, will be in one part of the sentence. If there is no error, the answer is option (5). Ignore errors of punctuation, if any.

The President, along with several international guests, (1) are to be present (2) during the swearing-in ceremony (3) of the new government. (4)

1. 1
2. 2
3. 3
4. 4
5. No error

Que. 8 Read the sentence to find out whether there is an error in it. The error, if any, will be in one part of the sentence. If there is no error, the answer is option (5). Ignore errors of punctuation, if any.

India has a long way (1) to go to reach environmental (2) quality similar to that enjoyed (3) in developed economies. (4)

1. 1
2. 2
3. 3
4. 4
5. No error

Que. 9 Read the sentence to find out whether there is an error in it. The error, if any, will be in one part of the sentence. If there is no error, the answer is option (5). Ignore errors of punctuation, if any.

Stories are all about going further reality (1) and it is no wonder that they (2) let you understand big concepts with only (3) a little bit of reading practice. (4)

1. 1

2. 2
3. 3
4. 4
5. No error

Que. 10 Read the sentence to find out whether there is an error in it. The error, if any, will be in one part of the sentence. If there is no error, the answer is option (5). Ignore errors of punctuation, if any.

Who wouldn't love to chat (1)/ about who character is their favorite, (2) or predict what will happen in a (3) suspense story they are reading? (4)

1. 1
2. 2
3. 3
4. 4
5. No error

Que. 11 Read the sentence to find out whether there is an error in it. The error, if any, will be in one part of the sentence. If there is no error, the answer is option (5). Ignore errors of punctuation, if any.

Over the last few decades, (1) the exploitation of our planet and (2) the degradation of our environment have (3) grown up at an alarming rate. (4)

1. 1
2. 2
3. 3
4. 4
5. No error

Que. 12 Read the sentence to find out whether there is an error in it. The error, if any, will be in one part of the sentence. If there is no error, the answer is option (5). Ignore errors of punctuation, if any.

In June, the Swedish medical company (1) Elekta announced the introduction Watson (2) for Oncology, a medical AI system developed (3) by IBM in the United States. (4)

1. 1
2. 2
3. 3
4. 4
5. No error

Que. 13 Parents prefer private schools. A global survey in 2017 found that they were a lot more likely to give the teaching at their children's school a positive rating if it was private than if it was public; **parents in Chile have voted with their children's feet in favour of the private sector.** The private sector's efficiency is one reason why it does well at providing access to education. Another is its speed: in fast-growing cities, governments struggle to provide schools, but wherever there are people, schools spring up. Governments are often less keen on private education. Some of the reasons for their hostility are bad ones: a reluctance to **cede** power, the opportunity for patronage, the influence of teachers' unions. But some are entirely in order: governments need to promote quality, access to schooling and equity. The private sector is

good at some, but not all, of those. Yet well-designed public-private partnerships can work. Two of the world's best education systems—those of the Netherlands and Hong Kong—are based on them.

The main reason for the private sector's superior efficiency seems to be teachers, who are paid less and are more likely to turn up for work than at government schools. Politics has a lot to do with that. Teachers' unions have huge bargaining power and can, therefore, protect their members from being held to account for poor performance. An Indian study found that in 3,000 government schools, only one principal had ever dismissed a teacher; among 600 private schools, 35 had.

Which of the following is TRUE based on the above passage?

1. However well-designed the public-private partnerships are, they can never effectively work.
2. Parents do not prefer public schools as they do not have responsible teachers.
3. Teachers' unions have very less bargaining power and, therefore, exercise it with accountability.
4. Well-designed public-private partnerships in the sector of education can be beneficial.
5. Public schools are more affordable than private schools.

Que. 14 According to the above passage which of the following is true?

1. Private schools are failing at meeting the demands of the country's population.
2. The accountability of teachers is much higher in the private education sector than public.
3. Teachers' unions don't perform the tasks of saving incompetent teachers from getting fired.
4. Parents these days are aware of the children and opt accordingly.
5. Private schools have a more positive rating among parents as compared to public schools.

Que. 15 What does the author mean by the line '**parents in Chile have voted with their children's feet in favour of the private sector**'?

1. Parents in Chile gave favourable ratings to public schools over private ones.
2. Parents in Chile gave the best ratings to public schools.
3. Parents in Chile gave favourable ratings to private schools over public ones.
4. Parents in Chile gave the worst ratings to public schools.
5. Parents in Chile gave favourable ratings to public schools over all others.

Que. 16 Why does the author mention the Netherlands?

1. As an example of a well-designed public-private partnership in education that can work.
2. As an example of a well-designed public-private partnership in education that cannot work.
3. As an example of a debate about the public-private partnership in education.
4. As an example of a the disadvantages of the public-private partnership in education.
5. As an example of a the problems of the public-private partnership in education.

Que. 17 What is the author trying to convey through the passage?

1. To not compare the public schooling sector with the private one.
2. To show the disadvantages of the public schooling sector.
3. To show the disadvantages of the private schooling sector.
4. To show that a public-private partnership in schools can work.
5. To show that a public-private partnership in schools cannot work.

Que. 18 Which of the words can explain the meaning of the word **good** in the passage?

1. Advantageous
2. Efficient
3. Productive
4. All of these.
5. None of these.

Que. 19 Which of the following words are similar in meaning to **cede** in the passage?

1. Relinquish
2. Yield
3. Surrender
4. None of these.
5. All of these.

Que. 20 What is the main reason for the private sector's superior efficiency?

1. The efficiency of the teachers.
2. The power of the teachers' unions.
3. The high fees charged by the private schools.
4. The higher level of education provided by the private schools.
5. The faith of the parents and the popularity of the private schools.

Que. 21 In the following sentence, a part of the sentence is emboldened. Below are given alternatives to the emboldened part, which may improve the sentence. Choose the correct alternative. In case no improvement is needed, choose the alternative that indicates 'No improvement.'

Acting in front of the camera **is easy** acting on the stage, as there is no audience.

1. Ease than
2. Is easier than
3. Are easy
4. Will be easier
5. No improvement

Que. 22 In the following sentence, a part of the sentence is emboldened. Below are given alternatives to the emboldened part, which may improve the sentence. Choose the correct alternative. In case no improvement is needed, choose the alternative that indicates 'No improvement.'

The municipality has decided to collect dry and wet waste **separate as** every housing society.

1. Separately from
2. Separate in
3. In separation
4. Separate
5. No improvement

Que. 23 In the following sentence, a part of the sentence is emboldened. Below are given alternatives to the emboldened part, which may improve the sentence. Choose the correct alternative. In case no improvement is needed, choose the alternative that indicates 'No improvement.'

Though low inflation **helps keep** prices of commodities low, it can create unemployment.

1. Holds to keep

2. Protects
3. Does not help
4. No improvement
5. Help to keeps

Que. 24 In the following sentence, a part of the sentence is emboldened. Below are given alternatives to the emboldened part, which may improve the sentence. Choose the correct alternative. In case no improvement is needed, choose the alternative that indicates 'No improvement.'

As an institute, **we created qualify** professionals for a highly globalized and digital-driven world.

1. No improvement
2. We train qualified
3. Qualified
4. Creating quality
5. Qualified training

Que. 25 In the following sentence, a part of the sentence is emboldened. Below are given alternatives to the emboldened part, which may improve the sentence. Choose the correct alternative. In case no improvement is needed, choose the alternative that indicates 'No improvement.'

Apart from providing "clean" electricity, the nuclear plant **will providing** clean drinking water to every household in the area

1. Have provide
2. Also provides
3. Provide
4. No improvement
5. Had provide

Que. 26 Fill in the blank with the correct word.

The bulletproof vest _____ the young police officer's life by stopping the bullet from passing through the vest.

1. Saved
2. Dignified
3. Protect
4. Stopped
5. Deleted

Que. 27 Fill in the blank with the appropriate option.

Although the medicine was once thought safe, _____ data has proven it to be harmful to children.

1. Productive
2. Procreate
3. Recent
4. Individual
5. Plain

Que. 28 Fill in the blank with the appropriate option.

In every workforce, there will be some people more _____ and thus better paid than others.

1. Capable
2. Lazy
3. Guard
4. Human
5. Monetary

Que. 29 Fill in the blank with the appropriate option.

His competence as an economist had been _____ by his successful fight against inflation.

1. Capable
2. Tired
3. Prejudice
4. Proved
5. Disturbed

Que. 30 Fill in the blank with the appropriate option.

The headhunters faced problems in _____ suitably qualified scientific officers for national laboratories.

1. Order
2. Making
3. Last
4. Produce
5. Recruiting

Que. 31 The ratio of the A's present age and B's age 4 years ago is 7 : 8. After 8 years, ratio of age of A to that of B is 9 : 11. Find the present age of B.

1. 36 years
2. 23 years
3. 24 years
4. 25 years
5. 26 years

Que. 32 In a 170 lt mixture of milk and water the ratio of milk and water is 12 : 5. If 20% of the mixture was taken out and 10 liters of water is added. Find the quantity of water in the new mixture.

1. 60 litres
2. 50 litres
3. 70 litres
4. 80 litres
5. 90 litres

Que. 33 The cost price of A is double the cost price of B. If the selling price of B is Rs. 3600 and the profit percentage is 20% then find the cost price of A.

1. 3600
2. 4200

3. 6000
4. 6500
5. 7500

Que. 34 144 added to 40% of a number results in 188. Find the number.

1. 115
2. 125
3. 110
4. 135
5. 120

Que. 35 A sum of Rs. X was invested in a scheme at the rate of 10% calculated on simple interest for 3 years and the amount received is further invested into another scheme for 2 years at a rate of 20% compounded annually. If the final amount received is Rs. 12168, then find the value of X.

1. 4500
2. 6500
3. 2500
4. 5500
5. 3500

Que. 36 Find out the approximate value which should replace the question mark (?) in the following question.

$$1/7.99 + 1/11.96 - 1/3.94 + 1/? = 0$$

1. 24
2. 26
3. 34
4. 36
5. 44

Que. 37 Find out the approximate value which should replace the question mark (?) in the following question.

$$39.96\% \text{ of } (198.99 + 5.99^2) = ?$$

1. 94
2. 96
3. 95
4. 97
5. 99

Que. 38 Find out the approximate value which should replace the question mark (?) in the following question.

$$17.01 + 23.04 - 48.01 \div \sqrt{4.03} = ?^2$$

1. 16
2. 2
3. 4

4. 6
5. 8

Que. 39 Find out the approximate value which should replace the question mark (?) in the following question.

$$23.02 - 13.19 \times \sqrt{9.09} + 200.02 = ?$$

1. 230
2. 184
3. 260
4. 360
5. 300

Que. 40 Find out the approximate value which should replace the question mark (?) in the following question.

$$4.03 \times (6.02)^2 - \sqrt{120.89} + \sqrt{144.06} = ?$$

1. 125
2. 135
3. 145
4. 148
5. 150

Que. 41 Find out the approximate value which should replace the question mark (?) in the following question.

$$8.02 - (? - 9.01) + (10.92)^2 = 120$$

1. 3
2. -3
3. 18
4. 5
5. 2

Que. 42 A started a business with the investment of Rs. 8000. After 4 months, B joins him with the capital of Rs. 10000. After 8 months of starting the business, C also joins him with the capital of Rs. 15000. Find the share of C in the profit of Rs. 118000 after 1 year.

1. 2000
2. 15000
3. 35000
4. 26000
5. 30000

Que. 43 The cost of gardening a circular field C at the rate of 10 Rs./m² is Rs. 3465. The side of square S is equal to the diameter of the circle C. Find the perimeter of the square S.

1. 76
2. 92
3. 84

4. 68
5. 65

Que. 44 Direction: The given bar graph shows the number of workers in a factory.

	Above the age of 40 years
A	50
B	70
C	110
D	120

If 40% of the total number of workers in a factory A and C together are females and 20% of the number of workers in a factory B are males. Find the total females in factory A, B and C together.

1. 510
2. 448
3. 536
4. 400
5. 356

Que. 45 If the total number of males and females in a new factory E is 20% more than the total number of males and females in factory D and the ratio of the number of males and females in factory E is 7 : 5. Find the number of females in factory E.

1. 220
2. 224
3. 180
4. 160
5. 240

Que. 46 If 60% of the workers above 40 years in factory A and C together and 50% of the workers above 40 years in factory B and D together is females then find the ratio of the number of males in factory A and C to factory B and D together who were above 40 years of age.

1. 75 : 83
2. 29 : 55

3. 64 : 95
4. 38 : 59
5. 67 : 85

Que. 47 In factory C, the number of males above 40 years of age is 30 and in factory A, the number of males above 40 years is 30. Find female workers above the age of 40 in factory C is how much percent more/less than the number of female workers above the age of 40 in factory A?

1. 300%
2. 400%
3. 150%
4. 200%
5. 600%

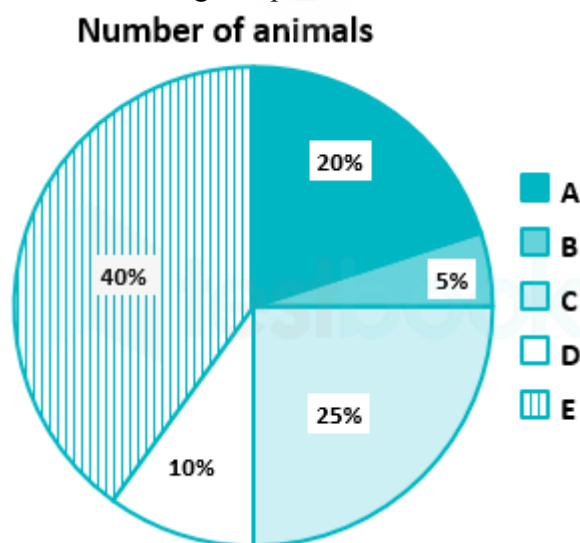

Que. 48 If the total number of females above 40 years in all the factories is 20% then what will be the average number of female workers above 40 years in all the factories?

1. 17.1
2. 17.2
3. 17.5
4. 17.8
5. 17

Que. 49 Find the total number of workers in all the factories whose age is below 40 years.

1. 840
2. 860
3. 910
4. 915
5. 925

Que. 50 Direction: The given pie chart shows the distribution of 5000 animals in 5 different forests.

Note: The animals are of 3 types: 1. Herbivores 2. Carnivores 3. Omnivores

Find the ratio of the number of animals in the forest A and B together to the number of animals in the forest D and E together.

1. 1 : 2
2. 2 : 3
3. 3 : 4
4. 4 : 5
5. 5 : 6

Que. 51 If the number of herbivores animals in forest E is half of the carnivores animals in the same forest and equal to the number of omnivores animals in the same forest then find the number of herbivores animals in forest E.

1. 500
2. 200
3. 300
4. 400
5. 600

Que. 52 If total number of carnivores animals in all the forest is 10%. Then find the average number of carnivores animals in all the forest.

1. 100
2. 200
3. 30
4. 40
5. 56

Que. 53 If 25% of the animals in forest A is omnivores. Then the number of omnivores animals in the forest A is what percent of the total number of animals in the forest D?

1. 16%
2. 20%
3. 36%
4. 40%
5. 50%

Que. 54 The total number of animals in the forest A, B and C together is what percent more or less than the total number of animals in the forest D and E together?

1. 10%
2. 20%
3. 32%
4. 0%
5. 5%

Que. 55 What will come in place of question mark (?) in the following series?
18, 26, 53, 117, 242, ?

1. 458
2. 216
3. 518

4. 468
5. 478

Que. 56 Find the missing number in the series

100, 108, 98, 106, 96, ?

1. 104
2. 107
3. 108
4. 204
5. 114

Que. 57 Find the missing number in the series

2, 1, 1, 1.5, 3, ?

1. 5.5
2. 6.5
3. 7.5
4. 6
5. 7

Que. 58 Find the missing number in the series

18, 24, 36, 56, 86, ?

1. 128
2. 256
3. 156
4. 144
5. 196

Que. 59 Find the missing number in the series

1, 11, 99, 693, 3465, ?

1. 8946
2. 11296
3. 10395
4. 12974
5. 10296

Que. 60 **Directions:** There are 3500 employees in a company working in three departments namely, Production, Marketing and Accounts. The ratio of male to female employees is 13 : 7. 30% of the employees are in the Accounts department. 20% of the males are in the Production department. Number of female employees in the Production department are two third the number of employees in the Accounts department. The ratio of male and female employees in the Marketing department is 5 : 2.

What is the ratio of female to male in the Accounts department?

1. 179 : 31
2. 31 : 179
3. 13 : 179

4. 179 : 13
5. 1 : 13

Que. 61 What percentage of male employees work in the Accounts department?

1. 40
2. 34.39
3. 39.34
4. 49.34
5. 43.39

Que. 62 What is the number of female employees in the Production department?

1. 1050
2. 700
3. 350
4. 530
5. 735

Que. 63 What is the difference between the no. males in the Marketing department and the Production department?

1. 470
2. 490
3. 740
4. 940
5. 790

Que. 64 A train crosses a platform having a length of 300 m in 30 seconds and a standing pole in 10 seconds. Calculate the length of the train in meters.

1. 85 m
2. 220 m
3. 150 m
4. 200 m
5. 110 m

Que. 65 In a set of 6 numbers, the average of first four is 10 and that of last four is 8. If the average of all the six numbers is 9, then find the average of the third and fourth number.

1. 7
2. 8
3. 9
4. 10
5. 11

Que. 66 **Direction:** Study the information carefully and answer the given questions.

Eight people A, B, C, D, E, F, G and H are sitting around a circular table with equal distance between them. Some of them are facing the centre while others are facing outside (i.e. opposite to the centre).

H is an immediate neighbor of F. F faces the centre. Only three people sit between F and A. C sits third to the left of A. Immediate neighbors of C face the same direction (i.e. if one neighbor faces the centre than the other also faces the centre and vice versa). G sits to the immediate right of B. B is an immediate neighbor of H. D sits second to the left of G. Immediate neighbors of D faces opposite direction (i.e. if one neighbor faces the centre other faces outside the centre and vice-versa). E sits to the immediate left of C. Both D and H face a direction opposite to that of E (i.e. if E faces the centre then both D and H face outside the centre and vice versa).

Who among the following sits second to the left of H?

1. C
2. E
3. G
4. B
5. None of these

Que. 67 Four of the following five pairs are alike in a certain and hence form a group. Which among the following does not belong to that group?

1. AG.
2. DB.
3. CF.
4. DH.
5. BE

Que. 68 If D and B interchange their position, then which among the following sits second to the right of A as per the new arrangement?

1. D
2. B
3. E
4. C
5. None of these

Que. 69 How many persons sit between E and F when counted from the left of E?

1. One
2. Four
3. Three
4. None of these
5. Five

Que. 70 What is the position of A with respect to G?

1. Immediate Right
2. Third to the Right
3. Third to the Left
4. Immediate Left
5. Second to the Left

Que. 71 **Direction:** In the question below are given two statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statement:

No apple is gloves.

All boats are apple.

All radios are boat.

Conclusion:

I. At least some apples are boats.

II. All gloves are radios.

1. Only I follows
2. Only II follows
3. Either I or II follows
4. Neither I nor II follows
5. Both I and II follow

Que. 72 **Direction:** In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Only a few wines are cashews.

Few bottles are wines.

No dot is cashew.

Conclusion:

I. At least some wines are dots.

II. All cashews being bottles is a possibility.

1. Only I follows
2. Only II follows
3. Either I or II follows
4. Neither I nor II follows
5. Both I and II follow

Que. 73 **Direction:** In the question below are given two statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

All grains are band.

All poets are band.

No band is a lubricant.

Conclusion:

I. All bands being grain is a possibility.

II. No poet is a lubricant.

1. Only I follows

2. Only II follows
3. Either I or II follows
4. Neither I nor II follows
5. Both I and II follow

Que. 74 **Direction:** In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statement:

Only a few circles are Dollars.

Some Dollars are Soaps.

No rectangle is a circle.

Conclusion:

I. All circles being rectangles is a possibility.

II. Some rectangles are definitely not soaps.

1. Only I follows
2. Only II follows
3. Either I or II follows
4. Neither I nor II follows
5. Both I and II follow

Que. 75 **Direction:** Read the information carefully and answer the questions asked below.

Karthik is at point H and is facing towards East. He started walking from point H and walked 60 m to reach a point Z. From Z he has taken a right turn and walked 54 m to reach W, and again taken a left turn and walked 50 m to reach point S. Arjun started from point F and walked 30 m towards West direction to reach point G. From G he takes a left turn and walked 54 m to reach point S.

What is the distance between H and F?

1. 118 m
2. 110 m
3. 150 m
4. 140 m
5. 120 m

Que. 76 In which direction is point W with respect to point G?

1. South – West
2. North – West
3. North
4. South – East
5. South

Que. 77 Four of the following five are alike in a certain way, which among the following does not belong to the group?

1. Z

2. F
3. W
4. G
5. H

Que. 78 **Direction:** Study the following information carefully and answer the questions given below.

Ten people are sitting in a straight line facing North with equal distance between each other.

Only 3 people sit to the left of M. Only one person sits between M and R. P sits third to the right of R. As many people sit to the right of P as to the left of Q. Only three people sit between Q and S. U is an immediate neighbor of S. T sits second to the left of W. N sits to the immediate right of V.

How many people sit between N and R?

1. Four
2. Two
3. Five
4. One
5. Three

Que. 79 Who sits second to the right of Q?

1. W
2. R
3. M
4. T
5. N

Que. 80 Which of the following pairs represents persons seated at the two extreme ends of the line?

1. QW
2. ST
3. TQ
4. UN
5. WS

Que. 81 Four of the following five are alike in a certain way and so form a group. Who among the following does not belong to the group?

1. SP
2. UV
3. WT
4. MR
5. VP

Que. 82 Which of the following statement is definitely true?

1. Two people sit between V and W
2. V sits 3rd to the right of S
3. M sits at extreme left end

- None of the given statement is true
- P sits immediate left of Q

Que. 83 How many pairs of letters are there in the word "MERCHANT" which has as many letters between them as in the English alphabetical series? (in both forward and backward direction)

- Two
- Three
- Four
- More than four
- One

Que. 84 In a word "MODELLING", if all letters are arranged in the alphabetical order, and then the vowels are changed to the previous letter and the consonants are changed to the next letter as per the English alphabetical series, then how many letters do not repeat more than once?

- Three
- Four
- None
- One
- Five

Que. 85 **Directions:** Study the following information and answer the given questions:

There are six people A, B, C, D, E, and F of different heights. A is taller than D and C. B is taller than A but shorter than E. C is not the shortest person. D is shorter than only three-person. The third tallest person has 115cm height.

Who is the tallest?

- F
- E
- A
- C
- D

Que. 86 If the height of A and E is 235cm and the height of A and D is 220cm, then what is the height of E ?

- 80
- 120
- 85
- 95
- 100

Que. 87 **Directions:** Read the following information carefully and answer the questions that follow.

A, B, C, D, E, F, G, and H live on 8 different floors of 8 storey building. The lower most floor is numbered 1. The one above it, is numbered 2. Going on like this, the topmost floor is numbered 8. One person lives on each floor.

B lives on an odd-numbered floor above floor 3. Two people live between B and C. Three people live between C and D. The number of people who live below C is equal to the number of people who live

above A. F lives on two floors above C. G lives on one of the floors below E and H lives on one of the floors above both G & E. A lives on one of the floors above D.

Four of the following five are alike in a certain way and hence they form a group, which one of the following does not belong to the group?

1. GE
2. DH
3. EB
4. CD
5. FD

Que. 88 On which of the following floors A lives?

1. 2nd
2. 7th
3. 4th
4. 1st
5. None of these

Que. 89 Which of the following statements is not correct?

1. H lives on the topmost floor
2. G lives immediately below C
3. D lives on the even numbered floor
4. All of the above are correct
5. There are three people living between E and H

Que. 90 Who lives immediately above F?

1. H
2. B
3. C
4. E
5. A

Que. 91 How many people live exactly between C and A?

1. 1
2. 3
3. 5
4. 4
5. 2

Que. 92 Which of the following would replace @ and # in the following expression so that 'N > Y' is definitely true?

$S \geq Z = R @ Y; A = Z \# B = N$

1. \geq, \geq
2. $<, >$

3. $>, <$
4. \leq, \geq
5. $\geq, >$

Que. 93 In which of the following expressions will the expression 'H < J' will be definitely true?

1. $G < H = I = J$
2. $H > G > I = J$
3. $J = I \geq G > H$
4. $H \geq G > I < J$
5. None of these

Que. 94 **Directions:** In the following question, how to place the symbols so that both the conditions, $A \leq T$ and $B < Z$, definitely hold true when all the expressions are considered together?

Z ____ $T \geq L$; B ____ T ; $P < A$ ____ L

1. $>, \leq, \leq$
2. $>, =, <$
3. $\leq, \leq, <$
4. $<, =, >$
5. $>, =, >$

Que. 95 Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to that group?

1. DGIK
2. ZWUS
3. KNPR
4. QTVX
5. HKMO

Que. 96 Study the following information carefully and answer the questions given below.

Six teachers A, B, C, D, E, and F are going to attend the meeting in a famous ground of Delhi, on different months viz. January, April and August but not necessarily in the same order. In each month, they will attend the meeting on dates 5th or 11th of the given month. Only one teacher will attend the meeting on these given dates. B will attend the meeting on 11th of any of the given month but before D. There is no one between C and D attending the meeting. Two teachers will attend the meeting between B and D. Two teachers will attend the meeting between A and F. Only one teacher will attend the meeting between F and C. C will attend the meeting in August.

Who among the following will attend the meeting on 5th January?

1. D
2. E
3. F
4. A
5. None of these

Que. 97 How many teachers will attend meeting between E and D?

1. Two

2. Three
3. Four
4. Five
5. One

Que. 98 Who among following will attend the meeting on 11th April?

1. A
2. E
3. D
4. C
5. F

Que. 99 How many teachers will attend the meeting after D?

1. One
2. Two
3. Three
4. No one
5. Four

Que. 100 E attends the meeting on which of the following dates?

1. 5th April
2. 5th August
3. 11th August
4. 11th January
5. None of these
