**Comprehension:**

Read the passage given below and answer the question that follows.

The term 'fake news' pertains to the deliberate dissemination of false or misleading information via various mediums such as print, broadcast, or online social media platforms. For material to be classified as fake news, it must be deliberately disseminated with the purpose of deceiving individuals in order to achieve financial, political, or other advantageous outcomes. Distinguishing fake news from parodies lies in their respective characteristics. Fake news refers to articles or content that employ attention-grabbing headlines with the intention of boosting readership or influencing individuals to act in a particular manner, such as favouring one political candidate over another. On the other hand, parodies include imitations of pre-existing material, intentionally amplifying its elements for comedic effect. In contemporary times, the proliferation of fabricated information on social media platforms has emerged as a prevalent occurrence. Multiple hoax blog sites are known to generate fabricated news content with the intention of bolstering their readership and garnering a larger following.

Q.15 Mr. Bubble starts from point A and walks 3 km towards east. He takes a right turn and walks 2 km. He then takes a left turn and walks 3 km. He then takes a left turn and walks 5 km, then takes a final left turn and walks 6 km to reach point B. How far (shortest distance) and towards which direction should he walk in order to reach Point A again? (All turns are 90 degree turns only unless specified otherwise.)

- Ans
- ☐ 1. 6 km South
  - ☐ 2. 2 km South
  - ☒ 3. 3 km South
  - ☐ 4. 3 km North
