Q.No: 2 **Passage:**
Read the passage to answer the following question:

North Korea criticized a group of seven countries known as the G7, calling them a leftover from the Cold War that causes problems for their own gain and interferes with other countries' independence. This information comes from North Korea's state media, KCNA, as reported on Tuesday.

Jo Chol Su, who leads the Department of International Organizations at North Korea's foreign ministry, disapproved of G7 foreign ministers for condemning North Korea's actions in a joint statement issued after a meeting in Tokyo last week.

According to Mr. Jo, the G7 is seen as a source of global conflict and an obstacle to creating a fair international order. He argued that the group doesn't truly represent the international community but instead protects the interests of only a few

countries. He specifically pointed out the United States for supplying weapons to Ukraine, accusing it of deliberately undermining peace and stability in Europe.

Mr. Jo also accused the United States of supporting military strikes in Gaza while protecting Israel. He stated that the G7 has lost its justification for existence and called for its immediate dismantling as the first step toward resolving the present international crisis and restoring global peace.

According to North Korea's state media, KCNA, what criticism did Jo Chol Su level against the G7?

- A **Accusation of causing problems for their own gain and interfering with other countries' independence**
- B **Praise for promoting global cooperation**
- C **Recognition of their role in fostering a fair international order**
- D **Support for North Korea's missile tests**
