Q.108 The following statements are related to audio media communication.

Statement I: Audio media communication is highly interactive.
Statement II: The biggest drawback of audio media communication is the lack of visual support.
Statement III: In audio media communication, there is no scope for any input from the listener.

Which of the above-mentioned statements is/are true?

Ans 1. Only I and II
 2. Only III
 3. Only II and III
 4. Only I and III

Q.178 The Physics teacher of Rahul has assigned him a project on the solar system. This falls into the category of:

Ans 1. learner-centred curriculum
 2. subject-based curriculum
 3. teacher-centred curriculum
 4. activity-based curriculum

Question Type : MCQ
Question ID : 630680816526
Option 1 ID : 6306803198380
Option 2 ID : 6306803198378
Option 3 ID : 6306803198377
Option 4 ID : 6306803198379
Status : Answered
Chosen Option : 4
Marks : 1

Q.179 The word 'Pedagogy' actually means:

Ans 1. to understand the student
 2. to motivate the student
 3. to lead the student towards the modern technology
 4. the method of how teachers teach, in theory and in practice

Question Type : MCQ
Question ID : 630680816524
Option 1 ID : 6306803198372
Option 2 ID : 6306803198369
Option 3 ID : 6306803198370
Option 4 ID : 6306803198371
Status : Answered

Marks : 1

Q.180 When a radiation of 1.414 \AA is allowed to fall on a crystal with a grazing angle 45° , the inter-planar spacing of the crystal is _____.
(Assume $n = 1$.)

Ans 1. $1.414 \times 10^{-9} \text{ m}$
 2. $1.414 \times 10^{-10} \text{ m}$
 3. 10^{-9} m
 4. 10^{-10} m

Q.181 Pramila, a Physics teacher of Class XI, wants to introduce the best strategy for peer learning. Which of the following should she adopt?

Ans 1. Making a group of 5 students in alphabetical order

2.

Making a homogeneous group of 5 students of the same gender and the same socio-economic background

3.

Making a group of 5 students who score the same (on average) in the exams

4.

Making a heterogeneous group of 5 students based on their involvement and collaboration in the class

Question Type : MCQ

Question ID : 630680816529

Option 1 ID : 6306803198389

Option 2 ID : 6306803198391

Option 3 ID : 6306803198390

Option 4 ID : 6306803198392

Status : Answered

Q.185 The following are a few steps in the direct instructional method.

- A: Monitor and diagnose progress
- B: Teach/re-teach
- C: Provide feedback
- D: Present new content
- E: Practise

Which of the following sequences correctly describes the direct instructional method?

Ans 1. A, B, C, D, E
 2. A, C, D, E, B
 3. A, D, E, C, B
 4. B, E, A, C, D

Q.188 Which of the following is true about average speed and average velocity?

Ans 1. Both should always be negative or zero
 2. Both should always be positive or zero
 3.

Average speed can be positive, negative or zero, but average velocity is always positive

4.
Average velocity can be positive, negative or zero, but average speed is always positive

Q.189 The length 2.308 cm can be written in different units as 0.02308 m, 23.08 mm. Which of the following is true about the above three numbers?

Ans 1. They have different number of significant figures.
 2. All of them have 4 significant figures 2, 3, 0, and 8.
 3. All of them have only 1 significant figure 2.
 4. All of them have 3 significant figures 2, 3, and 8.

Q.191 In a Young's double slit experiment, the distance between the slit and the screen is D and the separation between the slit is d, then the fringe width becomes β_0 . If the distance is increased to 3D and slit separation is decreased to $d/4$, then the fringe width will be (using the same source):

Ans 1. $\frac{3}{4} \beta_0$
 2. $6\beta_0$
 3. $12\beta_0$
 4. $\frac{4}{3} \beta_0$
