Q.2 In this question, a question is followed by two statements numbered (I) and (II). You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and decide the appropriate answer.

Question: What is the speed of Train A?

Statements:

(I) Train A covers 240 km in 3 hours.

(II) Train B, traveling at the same speed as Train A, takes 4 hours to cover 320 km.

Ans

A. Data in Statement I alone is sufficient to answer the question, while data in Statement II is not.

B. Both Statements I and II together are not sufficient to answer the question.

C. Both statements I and II together (and not Statement I alone or Statement II alone) are sufficient to answer the question.

D. Data in Statement II alone is sufficient to answer the question, while data in Statement I is not.

Q.17 A question is given followed by two statements. Read the question and statements carefully and decide whether the data provided in the statements is sufficient to answer the question.

Question:
Four trees A, B, C and D are of different heights. What is the height of tree C?

Statement:

(I) The average height of A and C is 15 m.
 (II) The average height of A, C and D is 18 m.

Ans A. Data in statement II alone is sufficient to answer the question while data in statement I is not
 B. Both statements I and II put together are not sufficient to answer the question
 C. Data in statement I alone is sufficient to answer the question while data in statement II is not
 D. Both statements I and II put together (and not independently) are sufficient to answer the question

Q.12 What is the role of the client protocol in a web browser?

Ans A. To display the web document

B. To receive user input

C. To access the document over the network

D. To interpret JavaScript

Question Type : MCQ

Question ID : 6306801145753

Option 1 ID : 6306804503204

Option 2 ID : 6306804503205

Option 3 ID : 6306804503206

Option 4 ID : 6306804503207

Status : Answered

Chosen Option : C

Marks : 1

Q.13 Which technique is commonly used to connect a computer to the Internet via a wired connection that provides high-speed access?

Ans A. Connecting through a Wi-Fi network

B. Using a dial-up modem over a telephone line

C. Utilising a satellite dish for connection

D. Connecting via an Ethernet cable to a router or modem

Question Type : MCQ

Question ID : 630680997358

Option 1 ID : 6306803913140

Option 2 ID : 6306803913139

Option 3 ID : 6306803913142

Option 4 ID : 6306803913141

Status : Answered

Chosen Option : D

Marks : 1

Q.14 In a computer system, the control unit of the CPU obtains instructions from the _____, decodes them and then executes them.

Ans A. memory

B. speaker

C. printer

D. monitor

Question Type : MCQ

Question ID : 6306801031874

Option 1 ID : 6306804050164

Option 2 ID : 6306804050166

Option 3 ID : 6306804050163

Option 4 ID : 6306804050165

Status : Answered

Chosen Option : D

Marks : -0.25

Q.15 Which of the following is an example of search engine?

Ans A. Facebook

B. Google

C. Wordpress

D. Amazon

Question Type : MCQ

Question ID : 630680992748

Option 1 ID : 6306803895319

Option 2 ID : 6306803895316

Option 3 ID : 6306803895317

Option 4 ID : 6306803895318

Status : Answered

Chosen Option : B

Marks : 1
