### Section - A : General Awareness

47. The Machhkund hydro electric project is a joint venture of-
- A) West Bengal & Odisha                      B) Odisha & Andhra Pradesh  
C) Tamil Nadu & Karnataka                  D) Odisha & Madhya Pradesh
48. Ozone layer of the Earth's atmosphere is important for living organisms because it-
- A) prevents entry of X-rays.  
B) maintains level of Oxygen on Earth.  
C) prevents entry of ultra-violet rays.  
D) prevents acid rain on Earth.
49. The climate of India is-
- A) sub-tropical              B) sub-tropical monsoon      C) savanna type              D) tropical
50. Which of the following districts in Odisha records the lowest child sex ratio as per 2011 census?
- A) Nayagarh              B) Dhenkanal              C) Angul              D) Ganjam
51. Which of the following acts would not be an offence under provisions of the "Protection of Women from Domestic Violence Act, 2005"?
- A) biting, abusing and depriving women of food and clothing.  
B) using women for entertainment of others.  
C) prohibiting children from going to school.  
D) None of these
52. Definition of Health according to WHO includes-
- i. a state of complete physical, mental and social well-being.  
ii. a state of absence of disease or infirmity.  
iii. ability to lead a socially, economically productive life.
- A) i & ii                      B) ii & iii                      C) i & iii                      D) i, ii & iii
53. The study of inter-relationship between various organisms and their relationship with the physical environment is called-
- A) Eco-system              B) Ecology                      C) Ecological balance              D) Biology
54. Life expectancy of a region is-
- A) the minimum age up to which an individual should definitely live.  
B) the maximum age up to which an individual can live.  
C) the average age at which people die in the region.  
D) the age at which majority of people die in the region.
55. When an employee is terminated from service due to alcoholism, dishonesty, inefficiency or misappropriation, it is called-
- A) Discharge              B) Dismissal                      C) Suspension                      D) Layoff

**Section - A : General Awareness**

56. Which of the following is not a benefit of use of Iron folic acid for pregnant woman?  
 A) maintains the stability of blood level.  
 B) supplies energy at pre and post-delivery stage.  
 C) prevents from infectious diseases.  
 D) compensates loss of blood during delivery of child.
57. The average norm of calorie and protein in Hot Cooked Meal provided for pre-school children in the Anganwadi Center is-  
 A) 555.32 & 15.94 B) 550.32 & 15.90 C) 545.32 & 14.90 D) None of these
58. Which of the following is not an effect of deficiency of Iron?  
 A) Bleeding of gum B) Loss of energy to work  
 C) Birth of low-weight child D) Anaemia
59. Siddha system of medicine which takes into account the patient's environment, age, sex, race, physiological constitution etc. is practised in which state of India?  
 A) Haryana B) Meghalaya C) Bihar D) Tamil Nadu
60. First vaccine for Polio was developed by –  
 A) James Lind B) John Salk C) Ronald Ross D) Walter Reed
61. To achieve goals, organizations require employees'  
 A) Control B) Direction C) Commitment D) Supervision
62. Which of the following is not a reason behind lack of nutrition among women of productive age?  
 A) Poverty in the family B) Gender discrimination  
 C) Want of balance diet D) None of these
63. Deficiency of Vitamin-D is not the cause of which of the following?  
 A) Delirium B) Osteomalasia  
 C) Pain in waist, leg and hip joint D) Bending of leg bone
64. Which of the following departments of Government of India is not associated with the National Campaign of "Beti Bachao Beti Padhao"?  
 A) Women & Child Development B) Social Justice & Empowerment  
 C) Human Resource Development D) Health & Family Welfare
65. Human resource management aims at maximizing employees as well as organizational-  
 A) Effectiveness B) Efficiency C) Economy D) Elasticity

### Section - A : General Awareness

66. Which of the following statements is not true of the scheme 'ARUNIMA'?
- Pre-school education is provided to children between 3 to 6 years of age for 3 hours a day in the morning.
  - It aims at ensuring social, emotional, cognitive, physical and aesthetic development of the child in local culture and practices.

  - None of these
67. The ICDS, the world's largest and most unique programme for early childhood development, was launched on-
- 26<sup>th</sup> January, 1981.
  - 14<sup>th</sup> November, 1979.
  - 2<sup>nd</sup> October, 1975.
  - 30<sup>th</sup> January, 1983.
68. The Ayurveda system of medicine which is based on *Tridosha Theory* defines diseases as the cause of in-equilibrium in three *doshas/humours* namely-
- wind, gall & mucus
  - blood, stool & urine
  - wind, stool & mucus
  - stool, urine & wind
69. Which Indian state has dry season for only 3 to 4 months every year?
- West Bengal
  - Mizoram
  - Himachal Pradesh
  - Kerala
70. Which of the following is not an objective of Biju Kanya Ratna Yojana recently launched by the Government of Odisha?
- Prohibiting gender biased sex determination.
  - Providing free college education to girls.
  - Ensuring security, survival, health and nutrition of girl child.
  - Ensuring education and retention of girl child in school.
71. The most important factor/s that affect the climate around the world is/are-
- distance from the sea.
  - direction of prevailing wind.
  - proximity to the Equator.
  - All the above
72. Which of the following is not a function of an Anganwadi Center?
- Children's Day
  - Parents Meeting
  - Grand Parents Day
  - None of these
73. After 4.5 years of age, a normal Indian child grows in height until the age of 12 years at the rate of about -
- 6.0cm/year
  - 5.0cm/year
  - 4.5cm/year
  - None of these

**Section - A : General Awareness**

74. Which of the following is not one of the six packages of ICDS?  
 A) Distribution of iron folic acid to anemic children  
 B) Non-formal pre-school education  
 C) Immunization  
 D) SNP
75. The climate is the average atmospheric conditions of an area over a considerable period of time. For proper conclusions, observations are needed for a minimum period of-  
 A) 5 year                      B) 10 years                      C) 20 years                      D) 35 years
76. Which of the following Dal has comparatively the least protein content?  
 A) arhar                      B) chana                      C) kandul                      D) buta
77. The ASHA, who act as link between the health centers and the villagers to provide effective health care to rural population, stands for-  
 A) Accredited Social Health Assistant  
 B) Associate Social Health Assistant  
 C) Advanced Social Health Associates  
 D) Accredited Social Health Activists
78. Which of the following is a possible effect of the greenhouse warming?  
 A) Alteration of the world's water resources  
 B) New weather pattern  
 C) Rise in sea level  
 D) All the above
79. Personnel man shall be a person who must have-  
 (A) sensibility.                      (B) conceptual skill.  
 (C) human relation skill.                      (D) all of the above.
80. Which of the following statements about Atmosphere is correct.  
 A) It is the mixture of gases.  
 B) It is the result of climate.  
 C) It is the wind above the Earth's surface.  
 D) It is liquid.

**Section B : Basic Knowledge in Computer & IT**

81. To auto fit the width of column-  
 A) Double click the right border of column  
 B) Double click the left border of column  
 C) Double click the column header  
 D) All of the above

### Section B : Basic Knowledge in Computer & IT

82. Different components on the motherboard of a PC unit are connected together by sets of parallel electrical conducting lines are called-  
 A) conductors                      B) buses                      C) connectors                      D) consecutives
83. Which of the following shortcut key is used to check spelling?  
 A) F1                      B) F2                      C) F7                      D) F9
84. What is the shortcut key to "Subscript" the selected text?  
 A) Ctrl + =                      B) Ctrl + -                      C) Ctrl + Shift + =                      D) Ctrl + Shift + -
85. What characteristic of read-only memory (ROM) makes it useful?  
 A) ROM information can be easily updated.  
 B) ROM provides large amounts of inexpensive data storage.  
 C) Data in the ROM is non-volatile, that is, it remains there even without electricity.  
 D) ROM chips are easily swapped between different brands of computer
86. Free of cost repair of software bug available on internet is called-  
 A) Version                      B) FAR                      C) Patch                      D) Add-on
87. Multiple calculations can be made in a single formula using:  
 A) Standard Formulas                      B) Array Formula  
 C) Complex Formulas                      D) Smart Formula
88. Portrait and Landscape are  
 A) Paper Size                      B) Page Orientation                      C) Page Layout                      D) All of the above
89. Which of the following is the effect of Roll Back command in a transaction?  
 A) Undo all changes to the data base created during the current transaction.  
 B) Undo the effect of the last Update command.  
 C) Restore the content of the data base to its state at the end of the previous day.  
 D) Make sure that all changes to the database are in effect.
90. A device that is connected to a motherboard is called-  
 A) an external device                      B) an adjunct device  
 C) a peripheral device                      D) a ribbon device
91. Collecting personal information and effectively posing it as that of another individual is known as the crime of-  
 A) Spooling                      B) spoofing                      C) identity theft                      D) hacking
92. PDF stands for:  
 A) Plain Document Format                      B) Portable Document Format  
 C) Portable Data Format                      D) None of the above

### Section B : Basic Knowledge in Computer & IT

93. A worksheet is made of columns and rows, wherein  
 A) columns run horizontally and rows run vertically  
 B) columns run vertically and rows run horizontally  
 C) the run is dependent on the application being used  
 D) Both (B) and (C)
94. A set of programmes designed to manage the resources of computer, including starting the computer, managing programs and memory and coordinating tasks between input and output devices is called-  
 A) Application suite      B) compiler    C) interface    D) operating system
95. Which command is used to copy the formula not the value from one data to another?  
 A) Paste      B) Paste special    C) Ctrl +V    D) Hyperlink
96. How can we set Page Border in Excel?  
 A) From Edit menu      B) From Home  
 C) You cannot set page border in Excel      D) From Tools menu
97. The file responsible for starting MS Excel is  
 A) MS.EXCEL      B) MS.EXE  
 C) EXCEL.EXE      D) EXCEL.COM
98. Ctrl + Z option is used to-  
 A) undo the last Action      B) redo the last Action  
 C) add the new page      D) paste the contents from clipboard
99. Pressing F8 key for three times selects.  
 A) a word      B) a sentence      C) a paragraph      D) entire document
100. The process of loading OS files from hard disks into the main memory is called-  
 A) Booting      B) Downloading      C) Buffering    D) Fragmenting
101. The applications that combine text, sound, graphics, motion video and/or animation are called-  
 A) multimedia      B) videoscapes      C) motion ware      D) anigraphics
102. The Computer users who are not computer professionals are sometimes called-  
 A) peripheral user    B) programmer      C) librarian    D) end-users

**Section B : Basic Knowledge in Computer & IT**

103. A clipboard is:  
 A) used to save data on disk in the event of a powerful failure.  
 B) able to retain the contents even when computer is switched off.  
 C) available only in Microsoft Word.  
 D) a temporary storage in the computer's memory and temporarily stores the cut or copied data.
104. Which of the following places the common data elements in order from smallest to largest?  
 A) Character, file, record, field, database  
 B) Character, record, field, file, database  
 C) Character, file, record, field, database  
 D) Character, field, record, file, database
105. The piece of hardware that converts your computer's digital signals into analog signals that can travel faster over telephone lines is called-  
 A) red ware      B) modem      C) tower      D) blue cord
106. The primary storage of the computer system is \_\_\_\_\_ in comparison to the secondary storage.  
 A) slow and expensive      B) fast and expensive  
 C) fast and inexpensive      D) slow and inexpensive
107. GUI stands for-  
 A) Gnutella universal Interface      B) Graphical User Interface  
 C) Graphic Uninstall/Install      D) General Utility Interface
108. The new selected Font applies to-  
 A) full document      B) all the text above the current cursor position  
 C) the selected text      D) only to headings
109. Which command is used to close the Excel Window?  
 A) Ctrl + W      B) Alt+F4      C) Ctrl + C      D) Ctrl + R
110. Which of the following is high-speed memory to make adjustment with speed gap between processor and main memory?  
 A) Cache      B) PROM      C) EPROM      D) SRAM
111. The 'headers' and 'footers' are used in a document to-  
 A) enhance the overall appearance of the document.  
 B) mark the starting and ending of a page.  
 C) make large documents more readable.  
 D) page numbers automatically appear on the document when it is printed.

**Section B : Basic Knowledge in Computer & IT**

112. What is the shortcut key to "Centre Align" the selected text?  
 A) Ctrl + C      B) Ctrl + E      C) Ctrl + F      D) None of above
113. Which command we will use to repeat a string certain time  
 A) Rept      B) Repeat      C) Repte      D) Proper
114. The formulas in Excel are made up of-  
 A) arithmetical operators and functions.      B) only arithmetical functions.  
 C) only arithmetical operators.      D) only symbols.
115. In the Print Preview window, the-  
 A) user can see overall appearance of one page or all the pages.  
 B) user can see where text falls on a page before it continues on to the text page.  
 C) once the user examines his/her document, he/she can make finer adjustments to get the layout as per requirement.  
 D) All the above.
116. Which menu option would you choose to save a document with a new name?  
 A) Press Ctrl + S      B) Click File, Save  
 C) Click Tools, Options, Save      D) Click File, Save As
117. What is the smallest and largest font size available in Font Size tool on formatting toolbar?  
 A) 8 and 72      B) 8 and 64      C) 12 and 72      D) None of above
118. Which short cut command is used to insert the current date?  
 A) Alt + Shift+ d      B) Alt +d      C) Ctrl +d      D) Ctrl +;
119. Which of the following statements about margin is correct?  
 A) All sections in a document need to have same margin.  
 B) Different sections can have different margins.  
 C) Word have predefined margins settings for all documents.  
 D) Can't say, depend on the version of Word.
120. What is the shortcut key you can press to create a copyright symbol?  
 A) Ctrl +C      B) Alt +C      C) Alt +Ctrl +C      D) Ctrl +Shift +C
