150 Questions

Que. 1 Study the bar graph and answer the questions based on it.

In how many of the given years was the production of mobiles more than the average production of the given years?

1. 3
2. 1
3. 4
4. 2

Correct Option - 3

Given:

Production of mobile in the company over the years.

Formula used:

Average = Sum of observation / Number of observations

Calculations:

Years	Production (in Lakhs)
2001	30
2002	45
2003	65
2004	50
2005	70
2006	55
2007	80
2008	85

$$\text{Required average} = \frac{30 + 45 + 65 + 50 + 70 + 55 + 80 + 85}{8}$$

$$\Rightarrow \frac{480}{8} = 60$$

So, in the years 2003, 2005, 2007, and 2008 the production is more than the average value.

∴ The answer is 4.

Que. 2 In which year was the percentage increase in production as compared to the previous year the maximum?

1. 2005
2. 2002
3. 2007
4. 2003

Correct Option - 2

Given:

Production of mobile in the company over the years.

Calculations:

Percentage increase in 2002 (production is 45) compared to the previous year 2001 (production is 30) = $\frac{45 - 30}{30} \times 100 = 50\%$

Percentage increase in 2003 (production is 65) compared to the previous year 2002 (production is 45) = $\frac{65 - 45}{45} \times 100 = 44.4\%$

Percentage increase in 2005 (production is 70) compared to the previous year 2004 (production is 50) = $\frac{70 - 50}{50} \times 100 = 40\%$

Percentage increase in 2007 (production is 80) compared to the previous year 2006 (production is 55) = $\frac{80 - 55}{55} \times 100 = 45.45\%$

From the above calculation, in the year 2002, the percentage increase is maximum

∴ The answer is 2002

Que. 3 What was the approximate percentage decline in the production of mobile from 2003 to 2004 ?

1. 27%
2. 21%
3. 29%
4. 23%

Correct Option - 4

Given:

Production of mobile in a company over the years.

Calculations:

Production of mobile in 2003 and 2004 is 65 and 50.

Required percentage decline = $\frac{65 - 50}{65} \times 100 = 23.07\% \sim 23\%$

∴ The answer is 23%.

Que. 4 The average production of 2005 and 2006 was exactly equal to the average production of which of the following pairs of years?

1. 2004 and 2006
2. 2006 and 2007
3. 2002 and 2007
4. 2004 and 2005

Correct Option - 3

Given:

Production of mobile by the company over the years.

Formula used:

Average \times number of observations = sum of observation

Calculations:

Production of mobile in 2005 = 70 and in 2006 = 55

Required average = $(70 + 55)/2 = 62.5$

Checking option(1),

The average production of 2006 and 2007 = $(80 + 55)/2 = 67.5$ (Not the same)

The average production of 2004 and 2006 = $(50 + 55)/2 = 52.5$ (Not the same)

The average production of 2004 and 2005 = $(50 + 70)/2 = 60$ (Not the same)

The average production of 2002 and 2007 = $(45 + 80)/2 = 62.5$ (Same)

Hence, same as the given one, after dividing the summation by 2 we can obtain the same average.

\therefore The correct answer is 2002 and 2007.

Que. 5 What was the approximate percentage increase in production of mobile in 2008 compared to that in 2001?

1. 195%
2. 166.67%
3. 200%
4. 183.33%

Correct Option - 4

Given:

Production of mobile in the company over the years.

Formula used:

Average = Sum of observation / Number of observations

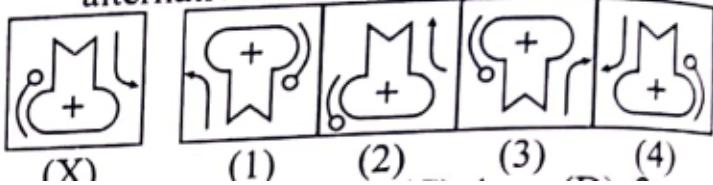

Calculations:

Years	Production(in Lakhs)
2001	30
2002	45
2003	65
2004	50
2005	70
2006	55
2007	80
2008	85

Require % = $(85 - 30)/30 \times 100 = 183.33\%$

Que. 6 Choose the correct mirror image of the given figure (X) from amongst the four alternatives.

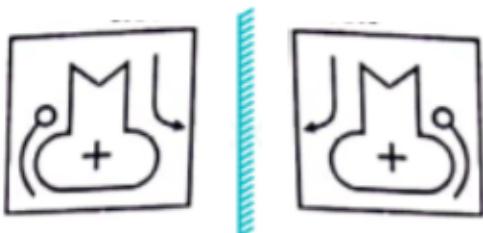

alternatives.

1. 1
2. 2
3. 3
4. 4

Correct Option - 4

The correct mirror image of the given figure is:

Hence, the correct answer is "Option 4".

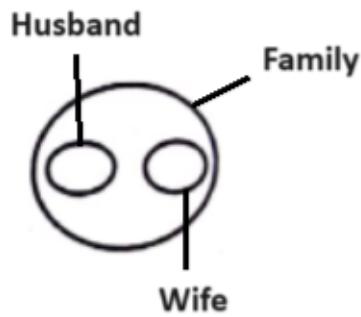

Que. 7 Choose the Venn diagram which best explains relationship among given:
Husband, Family, Wife

- 1.
- 2.
- 3.
- 4.

Correct Option - 2

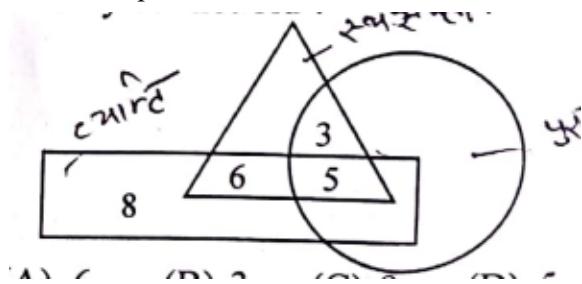

The least possible Venn diagram for the given relation is as shown below :

- Husband and wife both are the part of a Family.

Hence, the correct answer is "Option 2".

Que. 8 In the given figure if Triangle represents healthy people, Rectangle represents old persons and Circle represents men, then what is the number of those men who are healthy but not old?

1. 6
2. 3
3. 8
4. 5

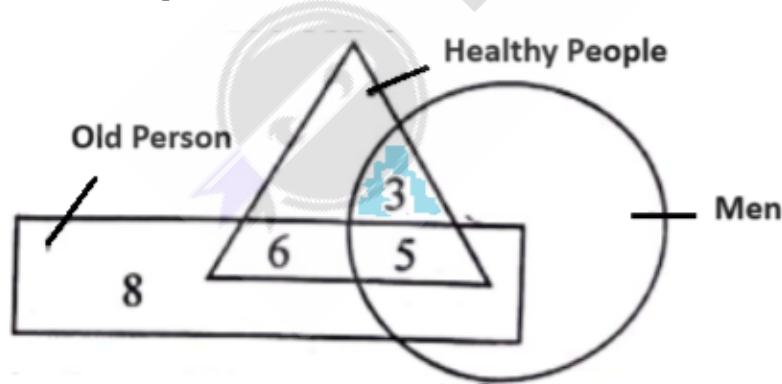

Correct Option - 2

According to the given Venn Diagram:

Triangle represents healthy people,

Rectangle represents old persons,

and Circle represents men.

The shaded area shows the Total number of men who are healthy but not old = 3.

Hence, the correct answer is "Option 2".

Que. 9 If '+' stands for division, '÷' stands for multiplication, '×' stands for subtraction and '-' stands for addition, then $63 \times 24 + 8 \div 4 + 2 - 3 = ?$

1. 61
2. 58
3. 63
4. 60

Correct Option - 4

Given Equation: $63 \times 24 + 8 \div 4 + 2 - 3 = ?$

BODMAS Rule:

B	Brackets in order (), {}, []	ब्रैकेट (), {}, [] क्रम में
O	of	का
D	Division (÷)	विभाजन (÷)
M	Multiplication (×)	गुणा (×)
A	Addition (+)	जोड़ (+)
S	Subtraction (-)	घटाव (-)

Decoding the Given Information:

Symbols	+	÷	×	-
Meaning	÷	×	-	+

Now replacing the sign from left to right using BODMAS Rule, we get:

New Equation: $63 - 24 \div 8 \times 4 \div 2 + 3 = ?$

Calculation:

$$\Rightarrow 63 - \underline{24 \div 8} \times 4 \div 2 + 3 = ?$$

$$\Rightarrow 63 - \underline{3 \times 4} \div 2 + 3 = ?$$

$$\Rightarrow \underline{63} - 6 \div 2 + 3 = ?$$

$$\Rightarrow \underline{66} - 6 = 60.$$

Hence, the correct answer is "Option 4".

Que. 10 Lion : Den :: Rabbit : (?)

1. Burrow
2. Hole
3. Trench
4. Pit

Correct Option - 1

The logic followed here is:

Lion : Den \rightarrow A den is the natural habitat or shelter of a lion.

Similarly,

Rabbit : Burrow \rightarrow A burrow is the natural habitat or shelter of a rabbit.

Hence, the correct answer is "Option 1".

Que. 11 BPMN : CQNO :: GTPL : (?)

1. HURN
2. DUQN
3. EUQM
4. HUQM

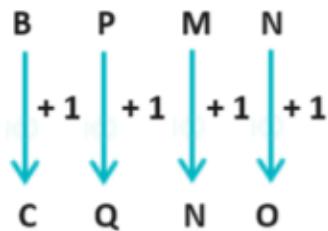

Correct Option - 4

The position and positional values of English Alphabets are:

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

Now,

BPMN : CQNO

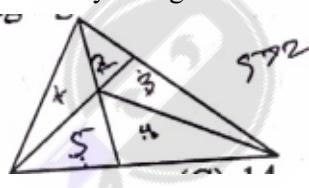

Similarly, for GTPL : (?)

Hence, the correct answer is "Option 4".

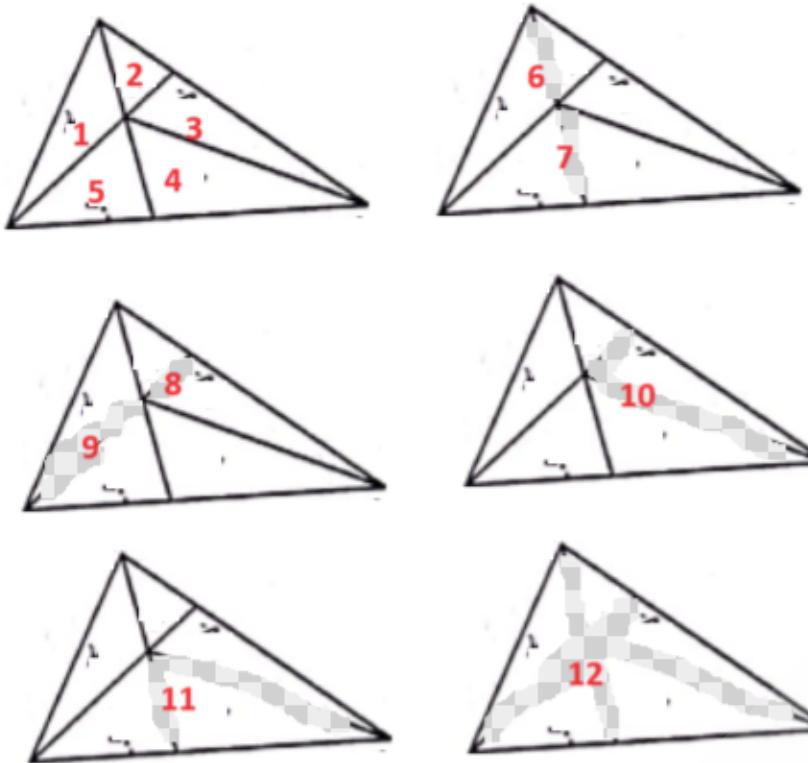

Que. 12 How many triangles are there in the following figure ?

1. 12
2. 8
3. 14
4. 10

Correct Option - 1

The triangles are:

So, there are '12' triangles in the given figure.

Hence, the correct answer is "**Option 1**".

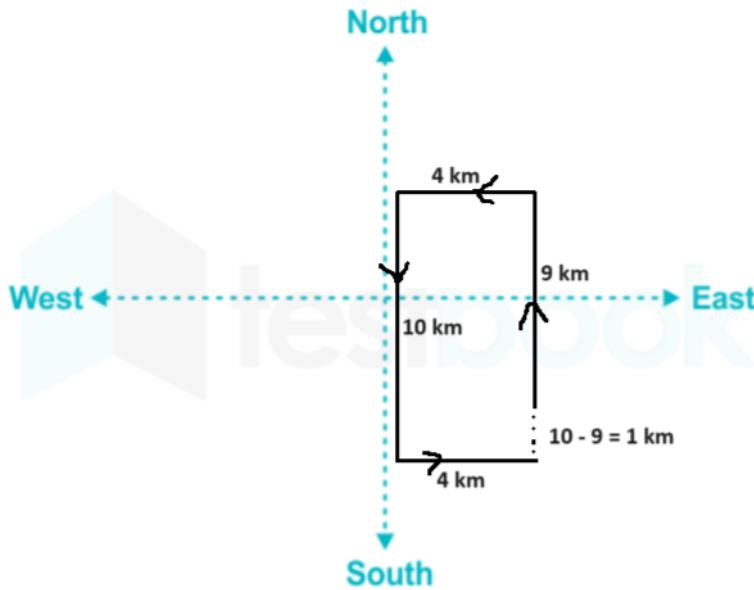

Que. 13 A person moves in north direction by 9 km, then turns left and moves by 4 km, again turns left and moves by 10 km, again turns left and moves by 4 km. How far the person is from initial position?

1. 9 km
2. 1 km
3. 14 km
4. 4 km

Correct Option - 2

Given:

A person moves in north direction by 9 km,
then turns left and moves by 4 km,
again turns left and moves by 10 km,
again turns left and moves by 4 km.

So, the person is '1 km' from the initial position.

Hence, the correct answer is '**Option 2**'.

Que. 14 In the following question, one word is given, followed by four words, one of which cannot be formed using the letters of the given word. Find that word.

ADMINISTRATION

1. RATION
2. MIND
3. MINISTER
4. STATION

Correct Option - 3

Given: ADMINISTRATION

Now checking the options:

Option 1: RATION → Can be formed.

Option 2: MIND → Can be formed.

Option 3: MINISTER → Can't be formed as the letter 'E' is not present in the word 'ADMINISTRATION'.

Option 4: STATION → Can be formed.

Hence, "MINISTER" cannot be formed using letters of the given word.

Hence, the correct answer is "**Option 3**".

Que. 15 Which one set of letters when sequentially placed at the gaps in the given letter series shall complete it?

a_d_a_n_n_ma_a_d_m_n

1. mnadmna
2. nmaadna
3. nmadnan
4. nmadnna

Correct Option - 4

The logic followed here is:

Given Sequence: a_d_an_n_ma_a_dm_n

Now, putting the letters in the blank spaces given in the option one by one:

Option 1) mnadmna → and / nan / and / mam / and / man

Option 2) nmaadna → and / man / ana / mad / and / man

Option 3) nmadnan → and / man / and / man / aad / mnn

Option 4) nmadnna → and / man / and / man / and / man

Here, 'Option 4' followed a pattern.

Hence, the correct answer is "Option 4".

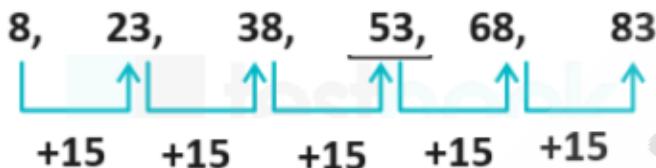

Que. 16 Choose the correct alternative from given ones that will complete the series.

8, 23, 38, 53, 68, (?)

1. 85
2. 78
3. 87
4. 83

Correct Option - 4

The logic followed here is:

So, 83 will complete the series.

Hence, the correct answer is 'Option 4'.

Que. 17 Question given below consists of a statement, followed by four arguments numbered I, II, III and IV. You have to decide which of the argument(s) is/are 'strong' argument(s) and which is/are 'weak' argument(s) and accordingly choose your answer from the alternatives given below the question:

Statement: Should India go in for computerization in all possible sectors ?

Arguments:

- I. Yes. It will bring efficiency and accuracy in the work.
- II. No. It will be an injustice to the monumental human resources which are at present underutilized.
- III. No. Computerization demands a lot of money. We should not waste money on it.
- IV. Yes. When advanced countries are introducing computers in every field, how can India afford to lag behind.

1. Only I and III are strong.
2. Only I is strong.
3. Only II and III are strong.
4. Only I and II are strong.

Correct Option - 2

Given:

Statement: Should India go in for computerization in all possible sectors.

Arguments:

I. Yes. It will bring efficiency and accuracy in the work - **Strong** (It will bring efficiency and accuracy in the work. This argument supports the computerization of all possible sectors by highlighting the potential benefits of increased efficiency and accuracy that come with the use of computers)

II. No. It will be an injustice to the monumental human resources which are at present underutilized - **Weak** (It will be an injustice to the monumental human resources which are at present underutilized. This argument opposes the idea of widespread computerization, expressing concern that it might lead to the underutilization of human resources.)

III. No. Computerization demands a lot of money. We should not waste money on it - **Weak** (Computerization demands a lot of money. We should not waste money on it. This argument presents a financial perspective, suggesting that the significant cost of computerization may not be justified and could be considered a waste of resources.)

IV. Yes. When advanced countries are introducing computers in every field, how can India afford to lag behind - **Weak** (This statement is not related with the statement, so weak argument.)

So, Only '**Argument I**' is strong.

Hence, the correct answer is "**Option 2**".

Que. 18 In the question below a statement followed by two assumptions numbered I and II is given. You have to consider the statement and the following assumptions and decide which of the assumption(s) is/are implicit in the statement.

Statement : Imprisonment for 27 years made Mihir Kalal the President.

Assumptions:

I. One who will be imprisoned for 27 years will become the President.

II. To become the President imprisonment is a qualification.

1. Either I or II is implicit.
2. Only assumption I is implicit.
3. Neither I nor II is implicit.
4. Only assumption II is implicit.

Correct Option - 3

Given:

Statement : Imprisonment for 27 years made Mihir Kalal the President.

Assumptions:

I. One who will be imprisoned for 27 years will become the President - **Not Implicit** (The statement does not indicate that imprisonment for 27 years is a guaranteed path to becoming the President. There may be other factors or events that contributed to Mihir Kalal becoming the President.)

II. To become the President imprisonment is a qualification - **Not Implicit** (There is no direct correlation or indication in the statement that suggests imprisonment is a specific qualification for becoming the President.)

So, Neither I nor II is implicit.

Hence, the correct answer is "**Option 3**".

Que. 19 Following are the criteria for selection of computer professionals in an organisation :

The candidate must-

- (1) be a Computer Engineer or MCA with first class having minimum 65% marks.
- (2) have secured at least 50% marks in the Selection Test.
- (3) have secured at least 40% marks in the Interview.
- (4) not be less than 21 years and not more than 30 years of age as on 1-10-2005.

In case of candidate who satisfies all other criteria, except:

A. At (1) above, but is an Electronics Engineer with 70% marks, the case may be referred to the GM, Recruitment.

B. At (2) above, but is having at least 2 years' experience of working as a Systems Analyst, the case may be referred to the Chairman, Recruitment Committee.

In each of the following question, information about one candidate is given. You have to analyse it with reference to the above criteria and condition and then decide the appropriate course of action. You are not to assume anything other than the given information. All these cases are given to you as on 1-10-2005.

Modi Jay did MCA in 1998 with 70% marks at the age of 22 years. He scored 55% marks in Interview and 55% marks in the Selection Test. He joined an IIT company in 1999 as programmer and got promoted as Systems Analyst in December 2002.

1. If the case is to be referred to the Chairman, Recruitment Committee.
2. If the candidate is to be selected.
3. If the case is to be referred to the GM, Recruitment.
4. If the candidate is not to be selected.

Correct Option - 2

As of 1-10-2005,

Condition	Details	Suitability
i	Computer Engineer or MCA with first class having minimum 65% marks.	Yes, He has 70% marks in MCA.
ii	Secured at least 50% marks in the Selection Test.	Yes, He has 55% marks.
iii	Secured at least 40% marks in the Interview.	Yes, He has 55% marks.
iv	Not be less than 21 years and not more than 30 years of age as on 1-10-2005.	Yes, 22 years in 1998, so in 2005, His age will be 29 Years.
1	If NOT criteria (1) above, but is an Electronics Engineer with 70% marks, the case may be referred to the GM, Recruitment.	not applicable
2	If NOT criteria (2) above, but is having at least 2 years' experience of working as a Systems Analyst, the case may be referred to the Chairman, Recruitment Committee.	not applicable

According to the given information in the table, All the data are fulfilled.

We can say "**Modi Jay to be selected**".

Hence, "**Option 2**" is the correct answer.

Que. 20 Sanjay is a Civil Engineer with 75% marks. He was born on 6th July, 1976. He scored 70% marks in the Selection Test and 42% marks in the Interview.

1. If the case is to be referred to the Chairman, Recruitment Committee.
2. If the candidate is to be selected.
3. If the case is to be referred to the GM, Recruitment.
4. If the candidate is not to be selected.

Correct Option - 4

As of 1-10-2005,

Condition	Details	Suitability
i	Computer Engineer or MCA with first class having minimum 65% marks.	No, He has 75% marks but in Civil Engineering.
ii	Secured at least 50% marks in the Selection Test.	Yes, He has 70% marks.
iii	Secured at least 40% marks in the Interview.	Yes, He has 42% marks.
iv	Not be less than 21 years and not more than 30 years of age as on 1-10-2005.	Yes, 29 years.
1	If NOT criteria (1) above, but is an Electronics Engineer with 70% marks, the case may be referred to the GM, Recruitment.	not applicable
2	If NOT criteria (2) above, but is having at least 2 years' experience of working as a Systems Analyst, the case may be referred to the Chairman, Recruitment Committee.	not applicable

According to the given information in the table, Condition I are not fulfilled by Sanjay.

We can say "**Sanjay is not to be selected**".

Hence, "**Option 4**" is the correct answer.

Que. 21 Vijay, a Computer Engineer, passed out with 72% marks in the final examination at the age of 22 years in 2003. He secured 70% marks in the Selection Test and 48% marks in the Interview.

1. If the case is to be referred to the Chairman, Recruitment Committee
2. If the candidate is to be selected.
3. Data inadequate.
4. If the candidate is not to be selected.

Correct Option - 3

As of 1-10-2005,

Condition	Details	Suitability
i	Computer Engineer or MCA with first class having minimum 65% marks.	Can't say, Because He has 72% marks in the final examination, not in the complete Degree.
ii	Secured at least 50% marks in the Selection Test.	Yes, He has 70% marks.
iii	Secured at least 40% marks in the Interview.	Yes, He has 48% marks.
iv	Not be less than 21 years and not more than 30 years of age as on 1-	Yes, 24 years.

	10-2005.	
1	If NOT criteria (1) above, but is an Electronics Engineer with 70% marks, the case may be referred to the GM, Recruitment.	not applicable
2	If NOT criteria (2) above, but is having at least 2 years' experience of working as a Systems Analyst, the case may be referred to the Chairman, Recruitment Committee.	not applicable

According to the given information in the table, Vijay's Degree's marks is not given in the question. So, the Data is inadequate to take any decision. Hence, "**Option 3**" is the correct answer.

Que. 22 Ankit scored 80% marks in B.Sc. (IT) and 78% marks in Electronics Engineering. His scores at the Selection Test and the Interview are 55% and 60% respectively. He has been working as Systems Analyst since 2001. His date of birth is 19th April, 1980.-

1. If the case is to be referred to the Chairman, Recruitment Committee.
2. If the candidate is to be selected.
3. If the case is to be referred to the GM, Recruitment.
4. If the candidate is not to be selected.

Correct Option - 3

As of 1-10-2005,

Condition	Details	Suitability
i	Computer Engineer or MCA with first class having minimum 65% marks.	No, Ankit has B.Sc (IT) degree.
ii	Secured at least 50% marks in the Selection Test.	Yes, He has 55% marks.
iii	Secured at least 40% marks in the Interview.	Yes, He has 60% marks.
iv	Not be less than 21 years and not more than 30 years of age as on 1-10-2005.	Yes, 25 Years
1	If NOT criteria (1) above, but is an Electronics Engineer with 70% marks, the case may be referred to the GM, Recruitment.	Yes, 78 % marks in Electronics Engineering.
2	If NOT criteria (2) above, but is having at least 2 years' experience of working as a Systems Analyst, the case may be referred to the Chairman, Recruitment Committee.	Yes, He has been working as Systems Analyst since 2001.

According to the given information in the table, Condition I is not fulfilled but he has the degree in Electronics Engineering.

So, "the case is to be referred to the GM, Recruitment".

Hence, "Option 3" is the correct answer.

Que. 23 Divya is a Computer Engineer with 80% marks. She scored more than 55% marks in the Interview and the Selection Test. She has worked in XYZ company as a Systems Analyst for more than 5 years.

1. If the case is to be referred to the Chairman, Recruitment Committee.
2. If the candidate is to be selected.
3. Data inadequate.
4. If the candidate is not to be selected.

Correct Option - 3

As of 1-10-2005,

Condition	Details	Suitability
i	Computer Engineer or MCA with first class having minimum 65% marks.	Yes, Computer Engineer with 80% marks
ii	Secured at least 50% marks in the Selection Test.	Yes, He has 55% marks.
iii	Secured at least 40% marks in the Interview.	Yes, He has 55% marks.
iv	Not be less than 21 years and not more than 30 years of age as on 1-10-2005.	Not mentioned.
1	If NOT criteria (1) above, but is an Electronics Engineer with 70% marks, the case may be referred to the GM, Recruitment.	not applicable
2	If NOT criteria (2) above, but is having at least 2 years' experience of working as a Systems Analyst, the case may be referred to the Chairman, Recruitment Committee.	Yes, 5 Years

According to the given information in the table, Divya's age is not given in the question.

So, the Data is inadequate to take any decision.

Hence, "Option 3" is the correct answer.

Que. 24 You are stationed as a police officer, an agitated crowd at a local fair accuses a teenager of theft and attempts mob lynching. You should :

1. make the accused confess under duress.
2. use force to arrest the accused for questioning.
3. let the mob punish the accused if enough proof available.
4. rescue the teenager and disperse the mob to ensure fair trial.

Correct Option - 4

The correct answer is rescue the teenager and disperse the mob to ensure fair trial.

Key Points

- The most appropriate action in this scenario is to "rescue the teenager and disperse the mob to ensure a fair trial." Here are the key points that support this decision:
 - **Upholding the Rule of Law:** As a police officer, it is your duty to uphold the rule of law and ensure that due process is followed. This means protecting individuals from vigilante justice, which can often be based on misinformation, bias, or emotion rather than evidence.
 - **Protecting Human Rights:** Every individual, regardless of the accusations against them, has the right to a fair trial. By rescuing the teenager, you are safeguarding their human rights, including the right to defend themselves in a court of law where evidence can be impartially examined.

Que. 25 As head of police in a riot-hit mixed religious locality, you should :

1. act tough on miscreants crossing community lines.
2. impose indefinite curfew till tensions subside.
3. engage elders to reconcile groups through dialogue.
4. table concerns with municipal authorities for resolution.

Correct Option - 3

The correct answer is engage elders to reconcile groups through dialogue.

Key Points

- As head of police in a riot-hit mixed religious locality, you should engage elders to reconcile groups through dialogue.
- The points that support this decision are:
 - **Community Engagement:** Engaging community elders and respected figures in dialogue helps leverage their influence to calm tensions. Elders are often seen as neutral arbitrators who can lend credibility to the peace-making process.
 - **Promoting Understanding and Reconciliation:** Dialogue facilitated by community elders can help bridge misunderstandings and reduce animosities between groups. It provides a platform for airing grievances in a constructive manner, promoting empathy and mutual understanding.

Que. 26 You are stationed as a police officer, you receive reliable information of preparations to violently disrupt upcoming local body elections. You should :

1. mobilize auxiliary police augmentation in vulnerable areas.
2. recommend postponing the electoral process.
3. ban political campaign events and restrict assembly.
4. conduct preventive detentions to avoid subversion.

Correct Option - 1

The correct answer is mobilize auxiliary police augmentation in vulnerable areas.

Key Points

- The most appropriate action upon receiving reliable information about preparations to violently disrupt upcoming local body elections is to "mobilize auxiliary police augmentation in vulnerable areas." Here are the points that support this decision:
 - **Ensuring Voter Safety:** Mobilizing auxiliary police forces to augment security in vulnerable areas prioritizes the safety and security of voters. It aims to provide a secure environment that encourages voter participation without fear of violence.

- o **Maintaining Public Order:** A visible and proactive law enforcement presence can deter potential disruptors and maintain public order during the election process. It sends a clear message that any attempts to disrupt the elections will be met with an immediate response.

Que. 27 You are an Investigating officer; the primary accused in a VIP assassination case is offering huge bribes for manipulating evidence and influencing judges to ensure acquittal. You should :

1. pretend to agree but submit weakly fabricated bogus evidence.
2. comply on records but secretly collect dialogue against accused.
3. avoid investigating as per your independent professional judgement.
4. remain uncorrupted and present facts transparently in court.

Correct Option - 4

The correct answer is remain uncorrupted and present facts transparently in court.

Key Points

- The points that support this decision are -
 - o Upholding Integrity and Professional Duty
 - o Ensuring Justice
 - o Maintaining Public Trust
 - o Moral and Ethical Responsibility

Que. 28 You are stationed as a police officer; to prevent further cases of card cloning at ATMs, you should :

1. place one observer each in all ATMs to identify suspicious accomplices.
2. temporarily disable all ATMs in the jurisdiction.
3. purchase card cloning machine prototypes to understand methodology.
4. examine ATM machine access logs for anomalies.

Correct Option - 4

The correct answer is examine ATM machine access logs for anomalies.

Key Points

- **The points that support this decision:**
 - o **Targeted Approach:** By examining ATM machine access logs, you can identify patterns or anomalies indicative of cloning activities, such as unusual access times, failed transaction attempts,
 - o **Efficient Use of Resources:** This strategy utilizes existing data and technology, making it a more resource-efficient way to tackle card cloning.

Que. 29 You are a constable in a special cell that deals with cyber crimes and online frauds. You have been trained in various aspects of cyber security and digital forensics. However, due to a shortage of staff, you are assigned to a patrol duty where you have to patrol the streets and respond to emergency calls. You feel that this is a boring and mundane task that does not suit your expertise. You should:

1. do the patrol duty but constantly look for opportunity of taking leave.
2. refuse to do the patrol duty and insist on staying in the cyber cell.
3. do the patrol duty enthusiastically and learn from the experiences of other patrol officers.
4. do the patrol duty reluctantly and complain about it to your superiors and colleagues.

Correct Option - 3

The correct answer is **do the patrol duty enthusiastically and learn from the experiences of other patrol officers.**

Key Points

- **Professional Growth:** Engaging positively with the patrol duty allows you to gain a broader understanding of law enforcement. This perspective can be invaluable, even in cybercrime investigations, where understanding the physical aspects of crime can complement digital investigations.
- **Teamwork and Morale:** Approaching the assignment with enthusiasm can positively influence team morale and cohesion. It demonstrates adaptability and a team-first attitude, qualities that are crucial in law enforcement agencies.
- **Contributing to Public Safety:** Patrol duties are crucial for maintaining public safety and order. By performing these duties enthusiastically, you contribute directly to the safety and security of the community, fulfilling the broader mission of law enforcement beyond your specialization in cybercrime.

Que. 30 In the climax stage of a nationwide terror manhunt, you learn your only parent suffers a debilitating stroke. You should :

1. conceal news avoiding distraction till mission completion.
2. handover reins to accomplished deputy for family priority.
3. commit singular focus expecting siblings to handle parent.
4. remotely coordinate certain areas without Ops leadership.

Correct Option - 3

The correct answer is **commit singular focus expecting siblings to handle parent.**

Key Points

- Commit singular focus expecting siblings to handle parent," could be considered the most appropriate decision under certain circumstances:
 - **Critical Role in Operations:** In this scenario, your role in the nationwide terror manhunt is presumably of such critical nature that your absence could significantly affect the outcome. In situations of national security, the unique responsibilities and skills you possess might be irreplaceable at the climax of operations.
 - **Trust in Siblings' Capability:** This choice relies on the belief that your siblings are both capable and willing to take care of your parent in your stead. It presumes a family dynamic where responsibilities can be shifted, and where there is enough support in place for your parent without your physical presence.
 - **Prioritization of Duties:** It underscores the harsh reality of prioritizing duties. In careers that deal with national security, law enforcement, or emergency services, individuals often face situations where personal sacrifices are made for the greater good. The decision acknowledges the weight of responsibility towards societal safety and security.

1. focus on Medical test ruthlessly without any women police present.
2. complete documentation along with FIR using pseudo name.
3. transfer to experienced Woman Inspector without direct involvement.
4. personally interview the victim in plain clothes to build trust.

Correct Option - 3

The correct answer is **transfer to experienced Woman Inspector without direct involvement.**

Key Points

- Transferring the case to an experienced Woman Inspector without direct involvement can indeed be an essential step in handling cases of rape sensitively and effectively.
- **Why transferring the case to an experienced Woman Inspector is appropriate:**
 - **Gender Sensitivity:** An experienced Woman Inspector is likely to have a better understanding of the nuances and sensitivities involved in such cases. Gender-sensitive policing can lead to a more empathetic and effective investigation.
 - **Comfort and Trust:** Female victims of sexual assault may feel more comfortable and safe talking about their experiences with a woman,

Que. 32 As a police officer, transgender citizens report facing harassment and dignity violations during law enforcement interactions. You should :

1. enforce strict disciplinary actions against offenders.
2. depute gender-rights community volunteers for engagements.
3. take complaint and forward it to Human Rights Commission.

1. Superintendent of Police

2. Station House Officer
3. Deputy Inspector General
4. Circle Officer

Correct Option - 2

The correct answer is **Station House Officer**.

Key Points

- **Station House Officer is in-charge of the police station.**
- The SHO holds the rank of inspector or sub-inspector.
- In India, the law permits a station house officer to conduct an investigation of crimes.
- He supervises the police station's activities and is responsible for maintaining law and order in his region.
- Thus, we can say that S.H.O regarding police is Station House Officer.

Que. 35 As a police officer, what would guide your decision-making in enforcing laws?

1. Following the orders of your superiors without questioning their judgment.
2. Strict adherence to the letter of the law, regardless of individual circumstances.
3. Applying personal moral values even if they conflict with established regulations.
4. Balancing legal requirements with empathy and consideration for the situation.

Correct Option - 4

The correct answer is **Balancing legal requirements with empathy and consideration for the situation**.

Key Points

- **Empathy:** Understanding the unique circumstances of each situation allows for a more nuanced and compassionate approach to law enforcement. Empathy helps build trust within the community.
- **Legal Compliance:** As a police officer, it is crucial to adhere to the letter of the law to maintain public order and ensure justice.

1. South
2. North
3. West
4. East

Correct Option - 4

Drawing the diagram according to the given information,

So, the direction from the starting point = East

Hence, **East** is the correct answer.

Que. 39 In the following question, some words are given. They have some common features except the odd one. You are required to find odd one out.

1. Harass
2. Annoy
3. Ravage
4. Distress

Correct Option - 3

1. **Harass** - This implies persistently troubling or bothering someone.
2. **Annoy** - This means to irritate or bother, often in a less intense or less aggressive manner than harassment.
3. **Ravage** - Unlike the other words, which deal with emotional or minor physical disturbances, "ravage" implies severe damage or destruction, often used in the context of natural disasters, wars, or something that physically

destroys.

4. **Distress** - This involves causing someone to feel extremely worried, upset, or troubled, often as a result of a particular event or situation.

While "harass," "annoy," and "distress" are primarily concerned with causing emotional turmoil or irritation, "ravage" stands out because it refers to causing severe and extensive damage or destruction,

Hence, the correct answer is option 3.

Que. 40 Choose the correct alternative from given ones that will complete the series:

2.3, 15.9, 79.6, 423, 2574, (?)

1. 10300
2. 5632
3. 18067
4. 8432

Correct Option - 3

The logic follows here:

$$\begin{aligned} 2.3 & \quad | \\ & x_3 + 3^2 \\ 15.9 & \quad | \\ & x_4 + 4^2 \\ 79.6 & \quad | \\ & x_5 + 5^2 \\ 423 & \quad | \\ & x_6 + 6^2 \\ 2574 & \quad | \\ & x_7 + 7^2 \\ 18067 & \quad | \\ & x_8 + 8^2 \end{aligned}$$

Hence, the correct answer is "18067".

Que. 41 In a certain code language "MADRAS" is written as "OWNHEQ". How will "SUNDAY" be written in that same code ?

1. WUZWYR
2. WUZRYX
3. UWZYWR
4. UWZRYW

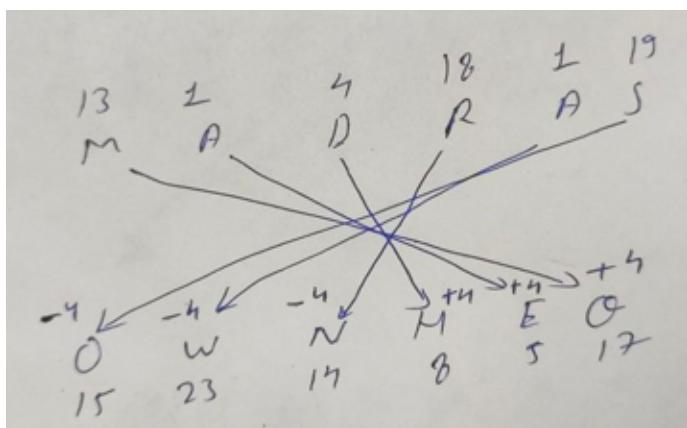

Correct Option - 4

The table shows the place value of the alphabet from A to Z and Z to A.

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

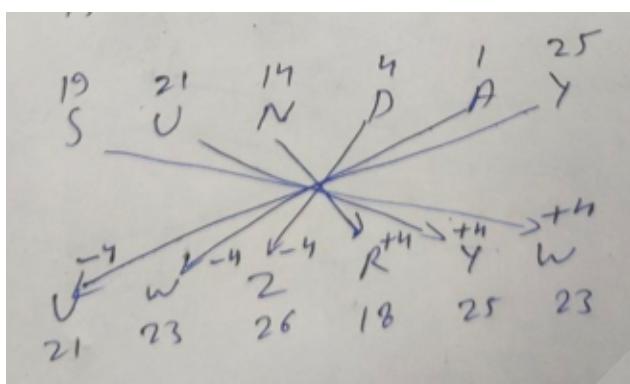

The logic followed here is:

Now, "MADRAS" is written as "OWNHEQ"

Similarly,

"SUNDAY" be coded as

Therefore, "SUNDAY" is coded as "UWZRYW".

Hence, the correct answer is "Option (4)".

Que. 42 Suresh's sister is the wife of Ram. Ram is Rani's brother. Ram's father is Madhur. Sheetal is Ram's grandmother. Rema is Sheetal's daughter - in - law. Rohit is Rani's brother's son. How is Rohit related to Suresh ?

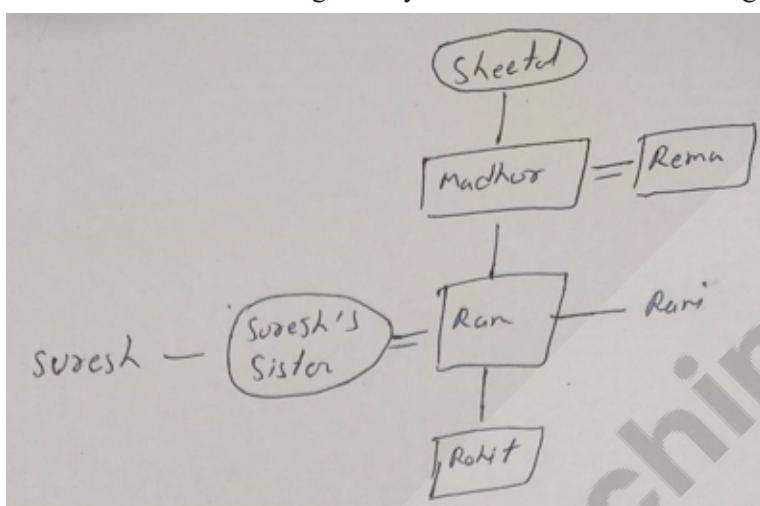

1. Brother
2. Brother - in - law
3. Nephew
4. Son

Correct Option - 3

From the given information,

Symbol in Diagram	Meaning
○	Female
□	Male
— —	Married Couple
— —	Siblings
— —	Difference of A Generation

We can draw the following Family Tree from the information given above:

Hence, Rohit is the “Nephew” of Suresh.

Que. 43 If in the word "SPIRITUAL", position of second and fifth letter is interchanged, similarly position of fourth and sixth letter is interchanged with seventh and ninth letters respectively, then how many pair of letters in the new word have as many letters between them (either forward or backward) as they have in the English alphabet series?

1. 5
2. 3
3. 6
4. 4

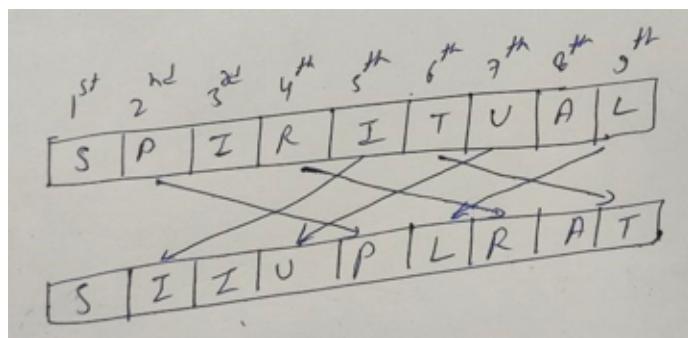

Correct Option - 1

The alphabets are positioned in the following order:

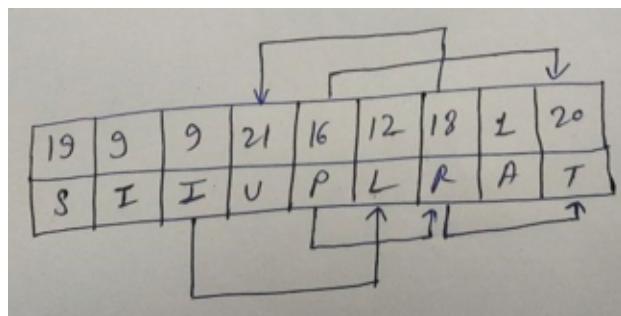

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

Follow the conditions given in the question:

Position of second and fifth letter is interchanged, similarly position of fourth and sixth letter is interchanged with seventh and ninth letters respectively.

The word can be presented as follows,

In Forward direction: IL, PR, RT, PT;

In Backward direction: RU.

Hence, we can see that "5" such pairs are there.

Que. 44 A clock is started at noon. By 10 minutes past 4, the hour hand has turned through

1. 130°
2. 120°
3. 135°
4. 125°

Correct Option - 4

Given: A clock is started at noon - This means from 12 : 00 PM.

By 10 minutes past 4,

So, the time travelled between 12 : 00 pm to 04 : 10 pm = 4 hours and 10 minutes.

We know, 1 hour has make 30° .

And, 4 hours 10 minutes: $30^\circ \times 4$ and in 10 Minutes has = $\frac{10}{60} \times 30^\circ$

$$\rightarrow 120^\circ + 5^\circ = 125^\circ.$$

Hence, the correct answer is "Option 4".

Que. 45 Study the following figure and answer the question given below.

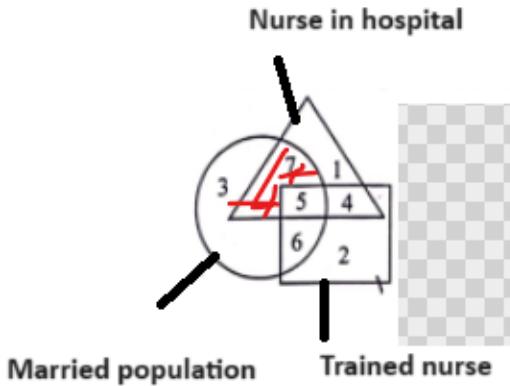

What is represented by the number 7?

1. Married nurses in the hospital
2. Trained nurses
3. Married trained nurses
4. Unmarried trained nurses

Correct Option - 1

The Venn diagram representation is as follows :

From the above diagram "7" represent "Married nurse in hospital but not trained."

Thus, the correct answer is "**Married nurses in the hospital**".

Que. 46 Which of the following diagrams best indicates the relation between India, Gujarat, Surat?

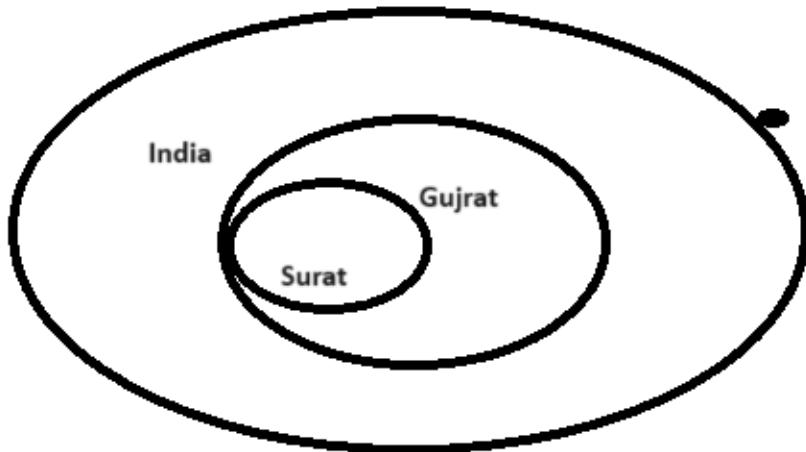

1. 
2. 
3. 
4. 

Correct Option - 3

Given: India, Gujarat, Surat

1. **India** → country
2. **Gujarat** → State of India.
3. **Surat** → city of Gujarat.

The Venn diagram is:

Hence, the correct answer is "Option (3)".

Que. 47 Solve: $120 \div 3 + 8 \times 3 - 40 = ?$

1. -256
2. 24
3. 74
4. -24

Correct Option - 2

Given:

$$120 \div 3 + 8 \times 3 - 40 = ?$$

$$\begin{aligned}
 &120 \div 3 + 8 \times 3 - 40 = ? \\
 \Rightarrow &120 \times 1/3 + 8 \times 3 - 40 = ? \\
 \Rightarrow &40 + 24 - 40 = ? \\
 \Rightarrow &64 - 40 = ? \\
 \Rightarrow &? = 24
 \end{aligned}$$

Que. 48 In a row Mihir is 17th from the left and 19th from the right, then what is the total number of candidates in that row?

1. 35
2. 36
3. 29
4. 31

Correct Option - 1

Formula used:

$$\text{Total candidates in the row} = \{(\text{rank from the left} + \text{rank from the right}) - 1\}$$

As per the given information:

Mihir is 17th from the left and 19th from the right in a row.

then,

$$\text{Total candidates in the row} = \{(17 + 19) - 1\}$$

Total candidates in the row = $36 - 1 = 35$

Hence, the correct answer is "35".

Que. 49 There is a cuboid whose dimensions are $4 \times 3 \times 3$ cm. The opposite faces of dimensions 4×3 are coloured yellow. The opposite faces of other dimensions 4×3 are coloured red. The opposite faces of dimensions 3×3 are coloured green. Now the cuboid is cut into small cubes of side 1 cm. How many small cubes have three faces coloured?

1. 16
2. 8
3. 20
4. 12

Correct Option - 2

Given:

There is a cuboid whose dimensions are $4 \times 3 \times 3$ cm.

The opposite faces of dimensions 4×3 are coloured yellow.

The opposite faces of other dimensions 4×3 are coloured red.

The opposite faces of dimensions 3×3 are coloured green.

The number of cuboids with three faces painted is always 8

Hence, "8" is the correct answer.

Que. 50 In the following question, a word has been given, followed by four other words, one of which can be formed using the letters of the given word. Find that word.

MEASUREMENT

1. RETUNES
2. ASSURE
3. MANTLE
4. SUMMIT

Correct Option - 1

Given word: MEASUREMENT

Let's check all the options:

(1) RETUNES \Rightarrow It can be formed.
(2) ASSURE \Rightarrow It can't be formed as it requires S .
(3) MANTLE \Rightarrow It can't be formed as it requires L.
(4) SUMMIT \Rightarrow It can't be formed as it requires I.

Hence, the correct answer is "RETUNES "

Que. 51 A scientist is trying to recall the access code to a secure laboratory. He remembers the following details:

- (1) The code starts with the digit 5.
- (2) The code ends with 987.
- (3) The second digit is the sum of the first digit and 3.
- (4) The third digit is half of the second digit.

Now, considering these conditions, the scientist has narrowed down four potential access codes for the laboratory. Find the suitable one.

1. 563987
2. 542987
3. 548987
4. 584987

Correct Option - 4

Given:

(1) The code starts with the digit 5.

$\Rightarrow 5$

(3) The second digit is the sum of the first digit and 3.

$\Rightarrow 5 + 3 = 8$

(4) The third digit is half of the second digit.

$\Rightarrow 8 / 2 = 4$

(2) The code ends with 987.

$\Rightarrow 584987$

Hence, The correct answer is "**584987**".

Que. 52 In the question below two statements followed by three conclusions numbered I, II and III are given. You have to assume everything in the statements to be true, then consider the the three conclusions together and decide which of them logically follows beyond reasonable doubt from the information given in the statements.

Statements:

- I. Water has no shape, has volume.
- II. The knowledge is like water, flowed from one side to other.

Conclusions:

- I. The knowledge is interdisciplinary.
- II. The knowledge is bound within a specific area.
- III. The knowledge influences the core of mental activity directly.

1. Both I and II follow.
2. Only conclusion I follows.
3. Both I and III follow.
4. Only conclusion II follows.

Correct Option - 2

The solution is based on analyzing the metaphorical comparison of knowledge to water, which suggests flexibility, adaptability, and the capacity to flow or transfer across areas.

Conclusion I, "The knowledge is interdisciplinary," aligns with this metaphorical representation, suggesting knowledge is not confined to a single domain but can be applied across different fields, much like water taking the shape of its container.

Conclusion II, "The knowledge is bound within a specific area," contradicts the analogy of water's ability to flow and adapt, implying that knowledge is not rigidly confined.

Conclusion III, "The knowledge influences the core of mental activity directly," does not directly follow from the statements provided, which focus more on the nature of knowledge's spread rather than its effect on mental activity.

Given the analysis Only conclusion I follows.

Hence, the correct answer is "**Only conclusion I follows.**".

Que. 53 A is B's sister. C is B's mother. D is C's father. E is D's mother. Then how is A related to D?

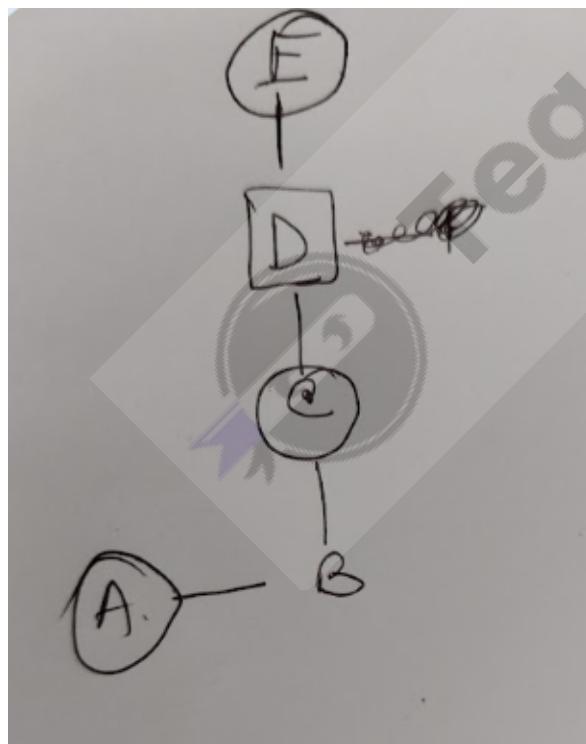

1. Daughter
2. Grand mother
3. Grand daughter
4. Grand father

Correct Option - 3

From the given information,

Symbol in Diagram	Meaning
○	Female
□	Male
—	Married Couple
—	Siblings
	Difference of A Generation

We can draw the following Family Tree from the information given above:

Here, A is grand daughter of D.

Hence, the correct answer is "**Granddaughter**".

Choose the alternative which closely resembles the mirror image of the given combination.

Que. 54 B R 4 A Q 1 6 H I

1. **B R 4 A Q 1 6 H I**
2. **B R 4 A Q 1 6 H I**
3. **B R 4 A Q 1 6 H I**
4. **B R 4 A Q 1 6 H I**

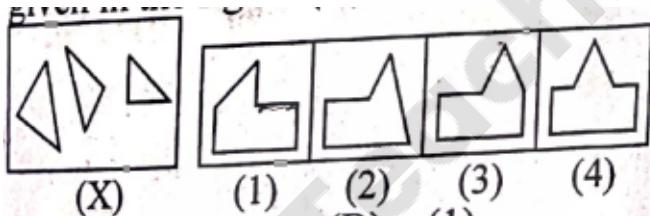

Correct Option - 2

The correct mirror image of the given figure is:

The correct answer of above Question is option 2.

Que. 55 Find out which of the figures (1), (2), (3) and (4) can be formed from the pieces given in the figure (X).

1. (1)
2. (2)
3. (3)
4. (4)

Correct Option - 2

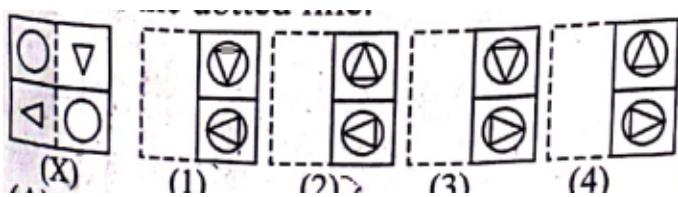

The figure will be formed from the given figure 'X':

So, the figure number '2' will forms a complete figure after assemble the pieces of given figure.

Hence, the correct answer is "Option 2".

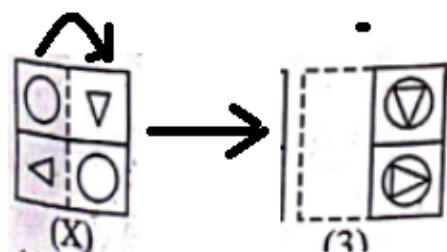

Que. 56 Find out from amongst the four alternatives as to how the pattern would appear when the transparent sheet is folded at the dotted line.

1. (3)
2. (1)
3. (4)
4. (2)

Correct Option - 1

Here, we unfold the paper-cutting step by step:

Hence, the correct answer is option 1: Figure (3).

Que. 57 Simplify : $108 \div 36 \times \frac{1}{4} + \frac{2}{5} \times 3\frac{1}{4}$

1. $2\frac{1}{5}$
2. $1\frac{1}{20}$
3. $2\frac{1}{11}$
4. $2\frac{1}{20}$

Correct Option - 1

Given:

$$108 \div 36 \times \frac{1}{4} + \frac{2}{5} \times 3\frac{1}{4}$$

Calculation:

$$\begin{aligned}
 & 108 \div 36 \times \frac{1}{4} + \frac{2}{5} \times 3\frac{1}{4} \\
 & \Rightarrow 108 \times 1/36 \times 1/4 + 2/5 \times 13/4 \\
 & \Rightarrow 3 \times 1/4 + 13/10 \\
 & \Rightarrow 3/4 + 13/10 = (15 + 26)/10 = 41/20 = 2\frac{1}{20}
 \end{aligned}$$

Que. 58 Which of the following option would be meaningful order of the following words?

1. Exhaust
2. Night
3. Day
4. Sleep
5. Work

1. 3, 5, 1, 4, 2
2. 1, 3, 5, 4, 2
3. 3, 5, 2, 1, 4
4. 3, 5, 1, 2, 4

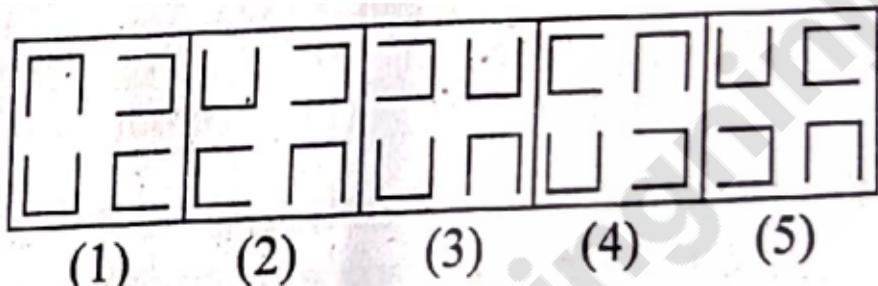

Correct Option - 4

The logical order is as follows:

3. Day
5. Work
1. Exhaust
2. Night
4. Sleep

Hence, the correct answer is option 4.

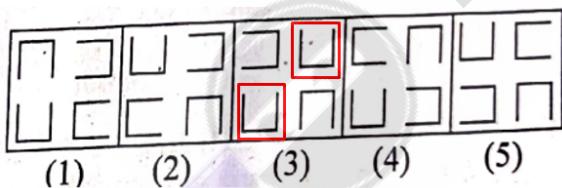

Que. 59 Choose the figure which is different from the rest.

1. (3)
2. (1)
3. (4)
4. (2)

Correct Option - 1

The logic follows here:

All the given figures in the shape's open area are in different directions except figure 3.

Hence, the correct answer is "Option 1".

Que. 60 The number of apples in a basket doubles every minute. If the basket is full of apples in an hour, when was the basket half-filled?

1. 55 minutes
2. 38 minutes
3. 59 minutes
4. 47 minutes

Correct Option - 3

Given, the number of apples in a basket doubles every minute and the basket is full of apples in one hour or 60 minutes.

Clearly, the basket is half-filled in 59 minutes.

Hence, option (3) is the correct answer.

Que. 61 The Great Barrier Reef is located at the coast of which of the following countries?

1. Australia
2. South Africa

Que. 137 Two numbers are in the ratio of 13 : 9. If their HCF is 13, then find the largest number.

- 117
- 52
- 143
- 169

Correct Option - 4

Given:

Ratio of numbers = 13 : 9, HCF = 13

Concept:

The smallest number is the product of its ratio and HCF.

Solution:

Let the number be $13x$ and $9x$

Since x is common in both as both number is divided by x , so x will be the HCF.

$x = 13$

The largest number = $13x = 13 \times 13 = 169$

Therefore, the largest number is 169.

Que. 138 Salaries of Rohan and Soham are in the ratio $2 : 3$. If the salary of each is increased by ₹ 2,000, the new ratio becomes $40 : 57$. What is Soham's present salary ?

1. ₹ 25,500
2. ₹ 17,000
3. ₹ 34,000
4. ₹ 20,000

Correct Option - 2

Given:

Ratio of salaries of Rohan and Soham = $2 : 3$.

Increased salary = 2000 each.

New ratio of Ravi and Sumit = $40 : 57$.

Calculation:

Let the original salaries of Rohan and Soham be Rs. $2x$ and Rs. $3x$ respectively.

Then, $(2x + 2000)/(3x + 2000) = 40/57$

$$\Rightarrow 57(2x + 2000) = 40(3x + 2000)$$

$$\Rightarrow 114x + 114000 = 120x + 80000$$

$$\Rightarrow 6x = 34000$$

$$\Rightarrow x = 34000/6$$

The original salaries Soham = Rs. $3x = 3 \times 34000/6 = \text{Rs. } 17000$

Que. 139 In a certain school, 20% of students are below 10 years of age. The number of students above 10 years of age is $\frac{2}{3}$ of the number of students of 10 years age which is 48. What is the total number of students in the school?

1. 100
2. 80
3. 110
4. 90

Correct Option - 1

Given:

Students are below age of 10 years = 20%

Students above 10 years of age = $2/3$ of the number of students of 10 years of age which is $48 = 2/3$ of $48 = 32$

So, the 80% of the total will be ≥ 10 years of age

Number of students of 10 Years = 48

$$\Rightarrow 80\% \text{ of } x = 48 + 2/3 \text{ of } 48 \quad \dots(1)$$

Calculation:

Let the number of students be x

Then,

Number of students above 10 years of age

$$\Rightarrow (100 - 20) \% \text{ of } x$$

$$\Rightarrow 80\% \text{ of } x$$

According to question

$$\Rightarrow 80\% \text{ of } x = 48 + \frac{2}{3} \text{ of } 48$$

$$\Rightarrow 80/100 \times x = 48 + 32$$

$$\Rightarrow 4x/5 = 80$$

$$\Rightarrow 4x = 400$$

$$\Rightarrow x = 100$$

∴ Total number of students in the school is 100

Que. 140 A number when divided by 119, leaves 19 as remainder. If it is divided by 17, it will leave a remainder

1. 3
2. 1
3. 4
4. 2

Correct Option - 4

Given:

Number is divided by 119 then leaves remainder 19.

Concept Used:

Dividend = Divisor \times Quotient + Remainder

Calculation:

Let the quotient be 1,

$$\Rightarrow \text{Dividend} = 119 \times 1 + 19$$

$$\Rightarrow \text{Dividend} = 119 + 19$$

$$\Rightarrow \text{Dividend} = 138$$

Now when 138 is divided by 17,

$$\Rightarrow 138/17 = 8 \frac{2}{17}$$

∴ The remainder is 2

Que. 141 Simplify: $\frac{17.28 \div x}{3.6 \times 0.2} = 2$

1. 14
2. 10
3. 15
4. 12

Correct Option - 4

Given:

$$\frac{17.28 \div x}{3.6 \times 0.2} = 2$$

Calculation:

$$\frac{17.28 \div x}{3.6 \times 0.2} = 2$$

$$\Rightarrow 17.28 \times 1/x = 2 \times 3.6 \times 0.2$$

$$\Rightarrow x = (17.28) / (2 \times 3.6 \times 0.2) = 12$$

∴ The value of x is 12.

Que. 142 What will replace the question mark (?) in the following equation?

$$5072.19 + 368.312 + (?) = 9018.618$$

1. 3571.115
2. 3571.116
3. 3578.116
4. 3578.112

Correct Option - 3

Given:

$$5072.19 + 368.312 + (?) = 9018.618$$

Calculation:

$$5072.19 + 368.312 + (?) = 9018.618$$

$$\Rightarrow 5440.502 + ? = 9018.618$$

$$\Rightarrow ? = 9018.618 - 5440.502 = 3578.116$$

∴ The value of x is 3578.116.

Que. 143 The average of six numbers is 3.75. The average of two of them is 3.2, while the average of other two is 3.55. What is the average of the remaining two numbers?

1. 4.5
2. 4.3
3. 4.6
4. 4.4

Correct Option - 1

Given:

Average of six numbers = 3.75

Average of the first set of two numbers = 3.2

Average of the second set of two numbers = 3.55

Total numbers = 6

Calculation:

Sum of six number = $6 \times 3.75 = 22.5$

Sum of first set of two numbers = $2 \times 3.2 = 6.4$

Sum of the second set of two numbers = $2 \times 3.55 = 7.1$

Sum of the remaining two numbers = $22.5 - (6.4 + 7.1) = 9$

The average of the remaining two numbers = $9/2 = 4.5$

∴ The option (1) is the correct answer.

Que. 144 An article is sold at a certain price. By selling it at $\frac{2}{3}$ of that price one loses 10%. Find the gain percent at original price.

1. 35%
2. 25%
3. 38%
4. 30%

Correct Option - 1

Given:

Let the original selling price of article be Rs. x. Then, new selling price = Rs. $2x/3$.

Loss = 10%

$$\therefore \text{Cost price} = (100/90 \times 2x/3) = 20x/27$$

$$\Rightarrow \text{Profit} = (x - 20x/27) = \text{Rs. } 7x/27$$

$$\therefore \text{Profit \%} = (\text{profit/cost price} \times 100) \% = (7x/27 \times 27/20x \times 100) \% = 35\%$$

Que. 145 A sum of money amounts to ₹ 4,460 after 3 years and to ₹ 6,690 after 6 years on compound interest. Find the approximate sum.

1. ₹ 3,115.33
2. ₹ 2,973.33
3. ₹ 2,991.66
4. ₹ 3,121.66

Correct Option - 2

Given:

Calculation:

Amount after 3 years (A3) = ₹ 4,460

Amount after 6 years (A6) = ₹ 6,690

Calculation:

$$A = P[1 + R/100]^n$$

For 3 years

$$4,460 = P[1 + R/100]^3 \rightarrow (1)$$

For 6 years

$$6,690 = P[1 + R/100]^6 \rightarrow (2)$$

From Eqn (1) and (2), we have

$$6,690/4,460 = P[1 + R/100]^3$$

From (1),

$$6,690/4,460 = P \times 4,460$$

$$P = 4,460 \times 4,460/6,690 = \text{Rs. } 2,973.33$$

Que. 146 Three partners P, Q and R start a business. Twice P's capital is equal to thrice Q's capital and Q's capital is equal to four times R's capital. Out of total profit of ₹ 27,500 at the end of the year, R's share is:

1. ₹ 5,000
2. ₹ 7,000
3. ₹ 15,000
4. ₹ 2,500

Correct Option - 4

Given:

Twice P's capital is equal to thrice Q's capital.

Q's capital is equal to four times R's capital.

Total profit at the end of the year is ₹ 27,500.

Calculation:

According to the question,

$$2P = 3Q \text{ and } Q = 4R$$

$$P : Q : R$$

$$3 : 2 : 2$$

$$\underline{4 : 4 : 1}$$

$$\underline{12 : 8 : 2}$$

$$\text{Share of } R = 2/22 \times 27500 = \text{Rs. 2500}$$

Que. 147 How long will a boy take to run round a square field of side 25 metres, if he runs at the rate of 9 km/hr ?

1. 42 sec.
2. 38 sec.
3. 48 sec.
4. 40 sec.

Correct Option - 4

Given:

Side of a square field = 25 meters

The speed of boy = 9 km/hr

Concept used:

To convert kilometers per hour to meters per second, multiply it with 5/18

Formula used:

Perimeter of square = $4 \times$ side of square

Time = Distance/Time

Calculation:

We will convert its unit with m/s, so we get

$$9 \text{ km/hr} = 9 \times (5/18) = 5/2 \text{ m/s}$$

According to the question:

Distance run around the field (d) = Perimeter of the field

Perimeter of square = $4 \times$ side of square

$$\Rightarrow d = 4 \times 25 \text{ m} = 100 \text{ meters}$$

Now,

$$\text{Time (time taken to run around the field)} = 100 \text{ m}/(5/2) \text{ m/s}$$

$$\Rightarrow 100 \times (2/5) \text{ sec} = 20 \times 2 = 40 \text{ sec}$$

∴ Time taken to run around the field is 40 sec.

Que. 148 4 boys and 6 girls can do a piece of work in 10 days while 6 boys and 4 girls can do the same work in 8 days. In how many days can 4 boys and 2 girls do the work ?

1. 28
2. $25/2$
3. 30
4. $27/2$

Correct Option - 2

Given:

4 boys and 6 girls can do a work in 10 days

6 boys and 4 girls can do the same work in 8 days

Concept used:

Time = Work/Efficiency

Calculation:

Let, M = boys ; B = girls

$$(4M + 6B) \times 10 = (6M + 4B) \times 8$$

$$\Rightarrow 40M + 60B = 48M + 32B$$

$$\Rightarrow 48M - 40M = 60B - 32B$$

$$\Rightarrow 8M = 28B$$

$$\Rightarrow M/B = 28/8 = 7/2$$

So, the efficiency of one boys = 7

Efficiency of one girls = 2

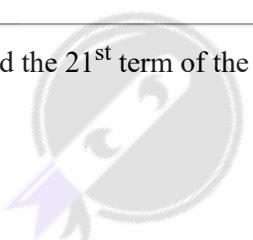

$$\text{Total work} = [(4 \times 7) + (6 \times 2)] \times 10 = 400$$

$$\text{Efficiency of 5 boys and 4 girls} = (4 \times 7) + (2 \times 2) = 32$$

$$\text{Required time to finish the work} = 400/32 = 25/2 \text{ days}$$

∴ The 5 boys and 4 girls will take 8 days to do the same work.

Que. 149 Find the 21st term of the sequence 26, 20, 14, 8,

1. -100
2. 146
3. 88
4. -94

Correct Option - 4

Calculation

The sequence you provided is an arithmetic sequence with a common difference of -6. This means each term is 6 less than the previous one.

To find the 21st term, we can use the explicit formula for arithmetic sequences:

$$a_n = a_1 + d(n - 1)$$

where:

a_n is the n^{th} term

a_1 is the first term (26 in this case)

d is the common difference (-6)

n is the term number (21 in this case)

$$a_{21} = 26 - 6(21 - 1)$$

$$a_{21} = 26 - 120$$

$$a_{21} = -94$$

Therefore, the 21st term of the sequence is -94.

Que. 150 The area of circular field is 13.86 hectares. Find the cost of fencing it at the rate of Rs. 3.2 per metre.

(1 hectare = 10,000 m²)

1. Rs. 5,808
2. Rs. 4,224
3. Rs. 6,132
4. Rs. 5,138

Correct Option - 2

Given:

1 hectare = 10,000 m²

Therefore, area of field = 13.86 hectares * 10,000 m²/hectare = 138,600 m²

Area of a circle = πr^2

We need to isolate r, so rearrange the formula:

$$r = \sqrt{\text{Area}/\pi}$$

$$r = \sqrt{138,600 * 7 / 22}$$

$$r \approx 210 \text{ m}$$

Circumference of a circle = $2\pi r$

$$\text{Circumference} = 2 * 22/7 * 210 \text{ m}$$

$$\text{Circumference} \approx 1320 \text{ m}$$

The cost of fencing

Cost of fencing = Fence length * Cost per meter

Cost = 1320 m * Rs. 3.2/meter

Cost \approx Rs. 4224

Therefore, the cost of fencing the circular field is approximately **Rs. 4224**.
