चीन विश्व का तीसरा सबसे बड़ा देश है। चीन की जनसंख्या भारत की जनसंख्या की तुलना में अधिक है। चीन हमारा पड़ोसी है। हिमालय भारत और चीन के बीच में स्थित है। चीन के पूर्व में प्रशांत महासागर और चीन के उत्तर में गोबी का विशाल रेगिस्तान है। चीन ने बिना किसी व्यवधान के पिछले 4000 वर्षों तक इस क्षेत्र पर शासन किया है।

पहली चीनी सभ्यता दो नदियों की महान नदी घाटी - उत्तर में ह्वांग हो और दक्षिण में यांग्त्ज़ी - में फली-फूली। यह सभ्यता भारत में सिंधु घाटी में हड़प्पा सभ्यता के समय में ही बढ़ी थी। आज भी, ये नदी घाटियां चीन के सबसे घनी आबादी वाले हिस्से हैं।

ज्यादातर चीनी किसानों के कार्य में लगे हैं। आधुनिक चीन में, किसानों के पास अपने खेतों का मालिकाना अधिकार नहीं है। प्रत्येक गांव की अपनी जमीन होती है। ग्रामीण एक साथ काम करते हैं और फसल उनके बीच साझा की जाती है। चीन में उगाई जाने वाली मुख्य फसलें दक्षिण में चावल और उत्तर में गेहूं और जौ हैं। सिल्क, चाय और कपास भी आधिक्य में उपजाया जाता है, और वहां मछली पकड़ने का एक बड़ा उद्योग भी है। चीन का रेशम पूरी दुनिया में प्रसिद्ध है। वास्तव में, चीन ने ही सबसे पहले रेशम बनाया था। उनके रेशम को प्राचीन सिल्क रूट के द्वारा दूर-दूर के स्थानों पर - यहाँ तक कि यूरोप - भी भेजा गया था।

चीन की महान दीवार, दुनिया के सात आश्चर्यों में से एक है और दुनिया की सबसे लंबी दीवार है। यह दीवार लगभग 2000 वर्ष पुरानी है और 6000 किलोमीटर से अधिक लंबी है। दीवार पत्थरों और ईंटों से बनी है। यह बाहरी अंतरिक्ष से दिखाई देने वाली एकमात्र मानव निर्मित संरचना है।

चीन व भारत के लिए निम्नलिखित कथनों में से क्या सत्य नहीं है?

The end of sumptuary laws did not mean that everyone in European societies could now dress in the same way. The French Revolution had raised the question of equality and ended aristocratic privileges, as well as the laws that maintained those privileges. However, differences between social strata remained. Clearly, the poor could not dress like rich, nor eat the same food.

But laws no longer barred people's right to dress in the way they wished. Differences in earning, rather than sumptuary laws, now defined what the rich and the poor could wear. And different classes developed their own culture of dress. The notion of what was beautiful or ugly, proper or improper, decent or vulgar, differed. Styles of clothings also emphasised differences between men and women. Women in Victorian England were groomed from childhood to be docile and dutiful, submissive and obedient. The ideal woman was the one who could bear pain and suffering. While men were expected to be serious, strong, independent and aggressive, women were seen as frivolous, delicate, passive and docile. Norms of clothing reflected these ideals. From childhood, girls were tightly laced up and dressed in stays. The effort was to restrict the growth of their bodies, contain them within small moulds. When slightly older, girls had to wear tight fitting corset. Tightly laced, small-waisted women were admired as attractive, elegant and graceful. Clothing thus played a part in creating the image of frail, submissive Victorian women.
