Que. 61 Directions: Read the passage given below and answer the questions that follow by choosing the correct/most appropriate options:

For a leader who led the Conservative party to an 80-seat majority three years ago with a Thatcher-like charisma, Boris Johnson's *fall from grace* was so steep that a host of his Ministers, including those who were appointed days earlier, publicly called for his resignation on Wednesday. Mr. Johnson, a journalist-turned-politician who rose to the pinnacles of power riding the Brexit wave, tried to cling to his position till the last minute. But despite Downing Street's fightback, the intra-party rebellion spread like wildfire, engulfing even the loyalist inner circle. Faced with no other choice, he agreed on Thursday to *stand down* as the Conservative Party leader immediately and resign as Prime Minister in October when the party chooses a new leader. His position within the party became **untenable** in June when 41% of lawmakers expressed no confidence in his leadership in a vote. **Signs of the rebellion had emerged much earlier as his government were rocked by the "partygate" scandal — the Prime Minister was fined by police for attending a birthday gathering at Downing Street in the midst of a nationwide COVID-19 lockdown.** The **resignation** of Chris Pincher as Deputy Chief Whip last week over **allegations** of sexual misconduct came as the final straw. As **chaos prevailed**, two of his senior Ministers — Chancellor Rishi Sunak and Health Secretary Sajid Javid — announced their resignations, triggering the **disintegration** of the government.

Mr. Johnson won the 2019 elections promising a quick, orderly Brexit. But the best he could deliver was a chaotic, painful divorce with the EU whose economic pains continue to haunt ordinary Britons and businesses. There is still no clarity on the post-Brexit trade relations _____ the EU and the Northern Ireland protocol remains a mess. As scandals began to hit his government, his moral authority within the party started slipping. Mr. Johnson could still argue that he got a colossal mandate and that he remained a vote-getter for the Conservatives. But even that position became untenable as a serious economic crunch began to bite. Last month, the Conservatives suffered humiliating defeats in two by-elections — Wakefield and Tiverton and Honiton — which practically sealed Mr. Johnson's fate. The rest was only a matter of time. His successor will inherit a crisis-ridden economy and polity. Inflation rose to 9.1% in May, the highest in 40 years, which, according to the Bank of England, could hit 11% this year. Some economists predict a recession. Brexit remains an unfinished business, which, if not resolved properly, could threaten peace in Northern Ireland. And the government in Scotland is demanding another referendum on independence. Mr. Johnson, who came to power offering a new post-Brexit future for the U.K., is leaving the country in economic pain and political disarray.

Which of the following **is/are incorrect** according to the given passage?

- A. Sajid Javid served as Secretary of State for Health and Social Care.
- B. Inflation in the UK in the month of May was the lowest in 40 years.
- C. The Conservatives won elections in Wakefield and Tiverton and Honiton with a huge margin.

3. The loyalty of Mr. Boris Johnson toward his party.
4. Not supporting Russia in the Ukraine war.
5. The deteriorating health of Mr. Boris Johnson.

Correct Option - 2

1. The resistance of UK Prime Minister Boris Johnson.
2. The UK Prime Minister joined hands with the rival party.
