**Memory Based Paper
22 Feb, 2025 Shift 1**

100 Questions

Que. 1 **Directions:** In the following question, some parts of the sentence may have an error. The error, if any, will be in one part of the sentence. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from errors, select 'No error' as your answer.

Thirteen M.A.s and seven bachelors, (A)/ beside the president, (B)/ John Hornley, B.D., were (C)/ named in the charter. (D)/ No error (E)/.

1. A
2. B
3. C
4. D
5. E

Correct Option - 2

Que. 2 **Directions:** In the following question, some parts of the sentence may have an error. The error, if any, will be in one part of the sentence. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from errors, select 'No error' as your answer.

I would like to (A)/ take a moment to (B)/ summarize briefly the facts (C)/ that I presented earlier. (D)/ No error (E)/.

1. A
2. B
3. C
4. D
5. E

Correct Option - 3

Que. 3 **Directions:** In the following question, some parts of the sentence may have an error. The error, if any, will be in one part of the sentence. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from errors, select 'No error' as your answer.

He took us all (A)/ out to dinner at (B)/ one of the best Japanese (C)/ restaurant in town. (D)/ No error (E)/.

1. A
2. B
3. C
4. D
5. E

Correct Option - 4

Que. 4 **Directions:** In the following question, some parts of the sentence may have an error. The error, if any, will be in one part of the sentence. Find out which part of the sentence has an error and select

the appropriate option. If a sentence is free from errors, select 'No error' as your answer.

If Vikas had known (A)/ that he would learn (B)/ so much, he will have (C)/ watched this lesson. (D)/ No error (E)/.

1. A
2. B
3. C
4. D
5. E

Correct Option - 3

Que. 5 **Directions:** In the following question, some parts of the sentence may have an error. The error, if any, will be in one part of the sentence. Find out which part of the sentence has an error and select the appropriate option. If a sentence is free from errors, select 'No error' as your answer.

He will not (A)/ have given you (B)/ a fine if (C)/ you had apologized. (D)/ No error (E)/.

1. A
2. B
3. C
4. D
5. E

Correct Option - 1

Que. 6 **Direction:** Evaluate the following word, accompanied by three sentences containing it. Determine the sentence(s) that accurately convey the meaning of the given word.

Batch

A. The factory produced a new **batch** of cars every month.
B. The chemistry student carefully prepared a **batch** of solutions for the experiment.
C. She felt a **batch** of emotions when she watched my favourite movie.

1. Only A
2. Both A & B
3. Only C
4. All A, B and C
5. Both A & C

Correct Option - 2

Que. 7 **Direction:** Evaluate the following word, accompanied by three sentences containing it. Determine the sentence(s) that accurately convey the meaning of the given word.

Slip

A. He had to carefully **slip** the paperwork into the envelope without anyone noticing.
B. The baby played with the **slip**, smiling at her reflection.
C. Due to a **slip** in communication, they arrived at different locations.

1. Only A
2. Both A & B
3. Only C
4. Both A & C
5. All A, B & C

Correct Option - 4

Que. 8 **Direction:** Evaluate the following word, accompanied by three sentences containing it. Determine the sentence(s) that accurately convey the meaning of the given word.

Frame

A. She admired the intricate **frame** of the painting on the wall.
B. He tried to **frame** her for the crime, but the evidence proved her innocence.
C. The athlete managed to **frame** the difficult task by completing it effortlessly

1. Only A
2. Both A & B
3. Only C
4. Both B & C
5. Both A & C

Correct Option - 2

Que. 9 Read the passage given below and then answer the questions given below the passage.

Road rage has become an increasingly alarming phenomenon that threatens the safety and well-being of motorists and pedestrians alike. Defined as aggressive or violent behaviour stemming from a driver's uncontrolled anger at the actions of another road user, road rage incidents are on the rise globally. These incidents not only lead to serious accidents but can also escalate to physical confrontations, and in worst-case scenarios, even shootings. A significant contributing factor to the surge in road rage can be attributed to the ever-increasing traffic congestion in urban areas. People, frustrated by long commutes and delays, often find themselves resorting to aggressive driving behaviours. This impatience on the road, combined with the stress of modern life, creates a volatile environment that can quickly spiral out of control. In recent years, there have been numerous reports of road rage incidents turning fatal. In one notable case, a minor fender bender led to a heated argument between two drivers. What started as a verbal spat quickly escalated into a full-blown _____ when one of the drivers retrieved a firearm from his vehicle, resulting in a tragic **shooting**. Such incidents underline the urgent need for measures to prevent road rage and promote road safety. Authorities and road safety experts have been advocating for various strategies to curb road rage. One effective approach is the implementation of stringent traffic laws combined with enhanced enforcement measures. Visible police presence and regular traffic checks can act as deterrents for aggressive driving. Additionally, public awareness campaigns that educate drivers about the dangers of road rage and the importance of remaining calm while driving can make a significant difference. Furthermore, cities can invest in improving infrastructure to reduce traffic congestion. Well-maintained roads, efficient public transportation systems, and the development of alternative routes can alleviate the frustration experienced by commuters. Encouraging the use of carpooling and ridesharing services can also decrease the number of vehicles on the road, thereby reducing the instances of road rage. While infrastructural changes and law enforcement are crucial, individual responsibility is equally important. Drivers must understand that **resorting** to aggressive behaviour or confrontations can have dire consequences. Practicing patience, empathy, and respect for other road users is essential for ensuring the safety of everyone on the road. In conclusion, road rage is a growing menace that requires collective action from authorities, communities, and individuals. By

adopting a multi-faceted approach that includes strict law enforcement, improved infrastructure, public education, and personal responsibility, we can mitigate the risks associated with road rage and create safer roads for all.

According to the passage, which of the following has been identified as a contributing factor to the increase in road rage incidents?

1. Poor weather conditions
2. Increased traffic congestion
3. Advanced vehicle technology
4. Improved road infrastructure
5. Higher gas prices

Correct Option - 2

Que. 10 Which of the following measures is suggested in the passage to reduce the instances of road rage?

1. Lighter traffic penalties
2. Increased tolerance for minor traffic violations
3. Encouraging aggressive driving habits
4. Implementation of stringent traffic laws
5. Decreased police presence on the roads

Correct Option - 4

Que. 11 Which of the following is NOT mentioned as a strategy to curb road rage in the passage?

1. Enhanced enforcement measures
2. Visible police presence
3. Strict no-tolerance policies for speed violations
4. Development of alternative routes
5. Public awareness campaigns

Correct Option - 3

Que. 12 Which of the following most accurately states the main idea of the passage?

1. Road rage incidents are mostly caused by poor road conditions and environmental factors.
2. Traffic laws should be more relaxed to prevent drivers from becoming frustrated.
3. Road rage is a growing problem that requires cooperation between authorities and individuals to address through various measures.
4. Most road rage incidents occur due to misunderstandings between drivers and pedestrians.
5. Public transportation is the sole solution to the issue of road rage.

Correct Option - 3

Que. 13

What will fit in the blank taken from the passage: "What started as a verbal spat quickly escalated into a full-blown _____ when one of the drivers retrieved a firearm from his vehicle, resulting in a tragic shooting."

1. collision
2. dispute
3. confrontation
4. altercation
5. discussion

Correct Option - 4

Que. 14 Which of the following words is similar in meaning to "shooting" in the context of the passage?

1. Photographing
2. Discharging
3. Aiming
4. Directing
5. Loading

Correct Option - 2

Que. 15 Which of the following words is similar in meaning to "resort" in the context of the passage?

1. Desert
2. Utilize
3. Abandon
4. Seek
5. Avoid

Correct Option - 2

Que. 16 Directions: In the following sentence, four words are given in bold, out of which one is misspelled. Find the misspelled word.

Her long hair (A) fell **forword** (B) as she **bent** (C) to **tie** (D) her shoes.

1. A
2. B
3. C
4. D
5. No error

Correct Option - 2

Que. 17 Directions: In the following sentence, four words are given in bold, out of which one is misspelled. Find the misspelled word.

Some **kittens** (A) have **even** (B) been named after **mytological** (C) creatures (D).

1. A
2. B
3. C
4. D
5. No error

Correct Option - 3

Que. 18 Directions: In the following sentence, four words are given in bold, out of which one is misspelled. Find the misspelled word.

Amanda **launched** (A) into an **authoritative** (B) **disquisition** (C) about **contracts** (D).

1. A
2. B
3. C
4. D
5. No error

Correct Option - 2

Que. 19 Directions: In the following sentence, four words are given in bold, out of which one is misspelled. Find the misspelled word.

She's known for her **wild** (A) **hairdos** (B) and **outrageous** (C) **costumes** (D).

1. A
2. B
3. C
4. D
5. No error

Correct Option - 3

Que. 20 Directions: In the following passage, some words have been deleted. Select the most appropriate option to fill in each blank.

Bees play a critical role in our ecosystem, not just through the production of honey, but also in food production due to their pollination activities. Pollination is the process by which pollen is transferred from the male part of a flower to the female part, enabling fertilization (A) _____ the production of seeds. Bees are one of the primary (B) _____ that accomplish this task. In fact, it's estimated that about one-third of the food we consume daily relies on pollination, primarily by bees. Without bees, many of the crops that constitute our diet would be significantly (C) _____. This includes fruits like apples, vegetables like cucumbers, and even nuts. These insects are also vital for plants that provide the seeds for certain animal feeds. As a result, the (D) _____ of bees would not only impact human food supplies but also animal husbandry. Unfortunately, bee populations have been in decline due to factors like pesticide exposure, habitat loss, and climate change. Protecting bees is crucial for maintaining biodiversity and ensuring food security. Various (E) _____ are in place to protect and encourage the health of bee colonies, including the planting of wildflowers and the reduction of pesticide use. The role bees play (F) _____ enriching our diet and supporting agriculture cannot be overstated.

Which of the following is the most appropriate option to fill in the blank labelled as (A)?

1. and
2. or
3. but
4. so
5. hence

Correct Option - 1

Que. 21 Which of the following is the most appropriate option to fill in the blank labelled as (B)?

1. mammals
2. insects
3. birds
4. animals
5. creatures

Correct Option - 2

Que. 22 Which of the following is the most appropriate option to fill in the blank labelled as (C)?

1. diversified
2. enhanced
3. sustained
4. diminished
5. increased

Correct Option - 4

Que. 23 Which of the following is the most appropriate option to fill in the blank labelled as (D)?

1. abundance
2. scarcity
3. disappearance
4. reproduction
5. migration

Correct Option - 3

Que. 24 Which of the following is the most appropriate option to fill in the blank labelled as (E)?

1. ideas
2. suggestions
3. proposals
4. notions
5. measures

Correct Option - 5

Que. 25 Which of the following is the most appropriate option to fill in the blank labelled as (F)?

1. in
2. at
3. by
4. with
5. for

Correct Option - 1

Que. 26 The question below contains five scattered segments of a sentence. Indicate the sequence which correctly assembles the segments and completes the sentence.

A. that dance was once
B. an integral part of
C. everyday life, accompanying both
D. many scholars have suggested
E. practical activities and religious rituals

1. ABCDE
2. DABCE
3. CDEBA
4. EABCD
5. BCADE

Correct Option - 2

Que. 27 The question below contains five scattered segments of a sentence. Indicate the sequence which correctly assembles the segments and completes the sentence.

A. citizens were
B. compelled to
C. attend dance dramas
D. to encourage allegiance
E. in ancient Greece,

1. CDEBA
2. ADEBC
3. EABCD
4. ABEDC
5. BCDEA

Correct Option - 3

Que. 28 The question below contains five scattered segments of a sentence. Indicate the sequence which correctly assembles the segments and completes the sentence.

- A. figure skating, particularly
- B. is more difficult to
- C. of ice dance competition,
- D. distinguish from dance
- E. in its contemporary form

1. AECBD
2. CDBAE
3. ABCDE
4. ACEBD
5. EABCD

Correct Option - 1

Que. 29 The question below contains five scattered segments of a sentence. Indicate the sequence which correctly assembles the segments and completes the sentence.

- A. options between
- B. public and private systems
- C. education options in Toronto
- D. its population and thereby offer a wide range of
- E. reflect the diversity of

1. DCEAB
2. ABCDE
3. DBACE
4. BCADE
5. CEDAB

Correct Option - 5

Que. 30 The question below contains five scattered segments of a sentence. Indicate the sequence which correctly assembles the segments and completes the sentence.

- A. The University of Toronto
- B. and is globally
- C. respected for its research
- D. is one of the
- E. top universities in Canada

1. ABCDE
2. ADEBC
3. DEABC
4. ACBED
5. CDEBA

Correct Option - 2

Que. 31 A and B entered into a partnership where A invested ₹x and B invested ₹(x + 500) for one year. At the end of the year, the profit of A is 1/6th less than the profit of B. What is the value of x?

1. ₹1000
2. ₹1500
3. ₹2000
4. ₹2500
5. ₹3000

Correct Option - 4

Que. 32 A mixture of 70 litres contains milk and water in the ratio 3:7. Then, x litres of milk is added, and 56 litres of water is added. After this, the ratio of milk to water becomes 4:5. What is the value of x?

1. 60 litres
2. 71 litres
3. 64 litres
4. 56 litres
5. 63 litres

Correct Option - 5

Que. 33 The ratio of the ages of A and B is 6:5, and the age of C is 5 years less than twice the age of B. The difference between the ages of C and A is 11 years. What is the age of A?

1. 24 years
2. 30 years
3. 36 years
4. 42 years
5. 18 years

Correct Option - 1

Que. 34 An article is sold at a selling price (SP) of Rs 2400 after a discount of 20% on the marked price (MP). If the profit earned is 20% of the marked price, what will be the profit if the article is sold at Rs 2700?

1. Rs 600
2. Rs 700
3. Rs 800
4. Rs 900
5. Rs 450

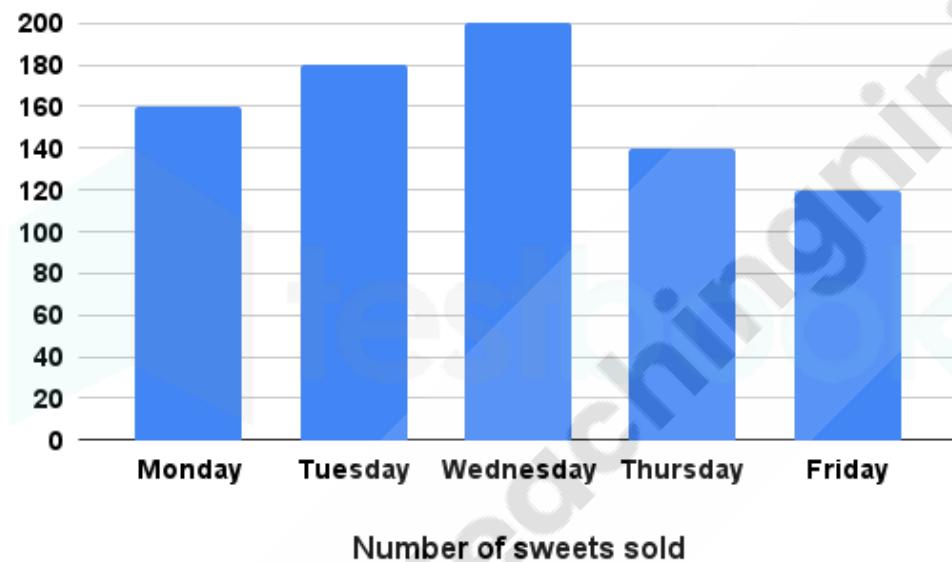

Correct Option - 4

Que. 35 A boat travels upstream and downstream in a river. The ratio of the boat's upstream speed to its downstream speed is 2:3. The total time taken by the boat to cover 180 km both upstream and downstream is 7.5 hours. What is the downstream speed of the boat?

1. 75 km/h
2. 88 km/h
3. 60 km/h
4. 54 km/h
5. None of these

Correct Option - 3

Que. 36 The bar graphs show the number of sweet sold in a shop on five days [Monday, Tuesday, Wednesday, Thursday and Friday] of week.

Number of sweet sold on Monday is _____ less than the number of sweet sold on Tuesday and Number of sweet sold on Wednesday is _____ more than the number of sweet sold on Friday. Find which of the following satisfy the blank?

1. 40, 80
2. 20, 60
3. 40, 60
4. 50, 60
5. 20, 80

Correct Option - 5

Que. 37 Number of sweet sold on Thursday is $[x + 45]$. Find the value of x?

1. 70
2. 80

3. 95
4. 75
5. 105

Correct Option - 3

Que. 38 Ratio number of sweet sold on Friday and Saturday is 4:7. Find the number of sweet sold on Saturday?

1. 240
2. 260
3. 290
4. 210
5. 285

Correct Option - 4

Que. 39 Find the difference between number of sweet sold on Wednesday and Thursday together and number of sweet sold on Monday and Tuesday together?

1. 4
2. 6
3. 70
4. 0
5. 50

Correct Option - 4

Que. 40 Only 40% and 60% sweet sold at shop on Monday and Tuesday out of total sweet made. Find the total number of unsold sweet on Monday and Tuesday together?

1. 560
2. 360
3. 320
4. 270
5. 280

Correct Option - 2

Que. 41 What should come in place of the question mark (?) in the following question?

$$16^2 + (5/8) \text{ of } 344 + ? = 500$$

1. 19
2. 23
3. 29
4. 31
5. 17

Correct Option - 3

Que. 42 What should come in place of the question mark '?' in the following question?

$$10\% \text{ of } 450 - (8 \times 5) = ? \times 5$$

1. 8.2
2. 2
3. 1
4. 5
5. None of these

Correct Option - 3

Que. 43 What should come in place of the question mark (?) in the following question?

$$78 \div 6 \times 5 + \sqrt{625} = ? \times 9$$

1. 9
2. 8
3. 10
4. 7
5. 6

Correct Option - 3

Que. 44 What should come in place of the question mark (?) in the following question?

$$12^2 \times 5 - \sqrt{400} + ? \times 5 = 850$$

1. 20
2. 25
3. 30
4. 35
5. 40

Correct Option - 3

Que. 45 What will come in the place of the question mark ‘?’ in the following question?

$$20 - 10^2 = 41 - ?^2$$

1. 12
2. 10
3. 7
4. 11
5. 9

Correct Option - 4

Que. 46 What will come in the place of the question mark ‘?’ in the following question?

$$5656 \div 28 \times 11 - 333 = ?$$

1. 1789
2. 1989
3. 1889
4. 2089
5. None of these

Correct Option - 3

Que. 47 What should come in the place of the question mark ‘?’ in the following question?

$$90 \times 20\% \text{ of } 105 \div 3 = ?$$

1. 630
2. 600
3. 615
4. 610
5. None of these

Correct Option - 1

Que. 48 What should come in the place of the question mark ‘?’ in the following question?

$$440 + 1825 \div 25 + 102 = 215 + ?$$

1. 375
2. 400
3. 425
4. 450
5. None of these

Correct Option - 2

Que. 49 What will come in the place of the question mark ‘?’ in the following question?

$$(4/9) \text{ of } (729/2) + 400 = ?$$

1. 462
2. 662
3. 562
4. 362
5. 262

Correct Option - 3

Que. 50 What will come in the place of the question mark '?' in the following question?

$$378 + ?^{1/2} = 25\% \text{ of } 2400 - 192$$

1. 784
2. 900
3. 576
4. 400
5. 625

Correct Option - 2

Que. 51 A car travels at a speed of 24 km/hr and covers a distance of 84 km. After that, the car increases its speed by 25% and covers the next 150 km. What is the total time taken for the entire journey?

1. 8.5 hours
2. 9.25 hours
3. 10.75 hours
4. 11.5 hours
5. None of these

Correct Option - 1

Que. 52 A person spends 20% of their salary on rent. Out of the remaining salary, 30% is spent on Food, 25% is spent on Transport, and the rest is spent on Entertainment. If the amount spent on Entertainment is ₹16,560, what is the total salary of the person?

1. ₹69,000
2. ₹56,000
3. ₹35,000
4. ₹46,000
5. ₹72,000

Correct Option - 4

Que. 53 The ratio of the diameter of a circle to the breadth of a rectangle is 7:4. The area of the circle is 616 cm². If the length of the rectangle is 6 cm more than its breadth, what is the area of the rectangle?

1. 268 cm²
2. 286 cm²
3. 305 cm²
4. 352 cm²
5. 346 cm²

Correct Option - 4

Que. 54 The table shows the number movie shows in three months [January, February and March] in three different multiplexes [A, B, and C].

Months	A	B	C
January	180	270	140
February	160	210	200
March	150	220	240

Find the difference between total number of movies shows in February and March in all multiplex together?

1. 45
2. 56
3. 40
4. 85
5. 70

Correct Option - 3

Que. 55 Number movie shows in January at D is $5/7^{\text{th}}$ of the number of movies shows in January at C. Find number the number of movies shows at D in January?

1. 120
2. 140
3. 150
4. 100
5. 160

Correct Option - 4

Que. 56 Find the ratio of total number of shows in January and February together in B and in February and March together in C?

1. 12 : 11
2. 11 : 12
3. 12 : 13
4. 13 : 12
5. 5 : 6

Correct Option - 1

Que. 57 Number of movies shows in April at C is 25% more than the number of movies shows in March at same multiplex, Find the number of movies shows in April at C?

1. 250
2. 300
3. 320
4. 280

5. 340

Correct Option - 2

Que. 58 Total number of movies shows in January and February at A is how much less than the number of movies in same months at B?

1. 120
2. 165
3. 160
4. 170
5. 140

Correct Option - 5

Que. 59 30% of a principal is invested at 12% per annum, and 70% of the principal is invested at 8% per annum. The sum of the interests earned from both investments is 2438. What is the principal?

1. 30,000
2. 22,750
3. 26,500
4. 28,000
5. None of these

Correct Option - 3

Que. 60 A, B, and C can complete a work individually in 48 days, 72 days, and 54 days, respectively. A and B work together for 16 days, and the remaining work is completed by C alone. How many days will C take to complete the work?

1. 22 days
2. 24 days
3. 26 days
4. 28 days
5. 18 days

Correct Option - 2

Que. 61 What should come in the place of (?) in the given series?

15, 17, ?, 25, 32, 43

1. 17
2. 20
3. 32
4. 43
5. 25

Correct Option - 2

Que. 62 What should come in the place of (?) in the given series?

2, 9, 30, ?, 282, 849

1. 90
2. 93
3. 96
4. 99
5. 87

Correct Option - 2

Que. 63 What should come in place of the question mark '?' in the following number series?

110, 120, 135, 155, 180, ?

1. 200
2. 220
3. 210
4. 230
5. None of these

Correct Option - 3

Que. 64 The average weight of 3 children is 20 kg. The weight of Chinu is three times the weight of Bhavya and weight of Arshi is twice that of Bhavya, Find the weight of Chinu.

1. 20 kg
2. 30 kg
3. 10 kg
4. 15 kg
5. 25 kg

Correct Option - 2

Que. 65 In a group of people, 40% are male, and the rest are female. Among the females, 40% are graduates, and the remaining are postgraduates. If the total number of female postgraduates is 360, what is the number of males in the group?

1. 200
2. 300
3. 400
4. 500
5. 600

Correct Option - 3

Que. 66 **Directions:** Study the following information carefully and answer the questions that follow

Eight people L, M, N, O, P, Q, R, and S are sitting in a row facing North. N is sitting at one, end and only two people are sitting between N and L. Q is an immediate neighbor of one who is sitting at extreme end. No one is sitting between Q and M, who is sitting at extreme end. P is sitting to the immediate left of L and only two persons are sitting between P and O. R is an immediate neighbor of neither O nor Q.

Who is sitting second to left of S?

1. P
2. L
3. Q
4. M
5. None of these

Correct Option - 1

Que. 67 How many people are sitting between R and O?

1. Two
2. Five
3. Four
4. Six
5. None of these

Correct Option - 5

Que. 68 Which of the following statement is true?

1. Q is sitting third to the right of S
2. All of the statements are true
3. P is an immediate neighbor of O
4. M is sitting fourth to the right of L
5. None of the given statements are true

Correct Option - 4

Que. 69 Who is sitting third to the right of P?

1. L
2. N
3. O
4. S
5. None of these

Correct Option - 3

Que. 70 Who is sitting second to the right of one, who is sitting immediate to the left of O?

1. L
2. Q
3. S
4. R
5. None of these

Correct Option - 2

Que. 71 **Direction:** In each question below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows/follow from the given statements, disregarding commonly known facts

Statements:

Only a few Cities are Districts.

No Districts is States.

All States are Country.

Conclusions:

I. Some Cities is not Country.

II. All Country being Cities is a possibility.

1. Only conclusion I follows
2. Only conclusion II follows
3. Both conclusion I and II follows
4. Either conclusion I or II follows
5. Neither conclusion I nor II follows

Correct Option - 2

Que. 72 **Direction:** In the question below, there are three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows them from the given statements disregarding commonly known facts.

Statements:

Only a few true are false.

No false is correct.

All wrong are correct.

Conclusions:

I. Some false can be wrong.

II. Some true can be correct.

1. Both I and II follow
2. Only I follow
3. None follow
4. Either I or II follow
5. Only II follow

Correct Option - 5

Que. 73 **DIRECTIONS:** In the question below are given two statements followed by two conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding the commonly known facts.

Statements :

All land are ground.

All big are land.

Only a few big are pond.

Conclusion :

I. Some ground are pond.

II. Some pond are land.

1. Only conclusion I follows
2. Only conclusion II follows
3. Either conclusion I or II follows
4. Neither conclusion I nor II follows
5. Both conclusion I and II follow

Correct Option - 5

Que. 74 If it is possible to make a meaningful word with the 1st, 2nd, 6th and 9th letters of the word “VOUCHERING”, which of the following will be the second letter from the left end of that word? If more than one such word can be formed, give 'X' as the answer and if no such word can be formed, give 'Y' as the answer.

1. G
2. V
3. E
4. X
5. Y

Correct Option - 2

Que. 75 **Directions:** Read the following information carefully and answer the questions.

Eight friends L, W, B, F, X, N, S and U decide to deposit a certain amount of money in a trip fund. Each of them deposits the amount either on the 8th or on the 27th of four different months, January, May, June and November. All the information given are not necessarily in the same order.

W and F deposits in the same month. L deposits on the second allotted date of the month that contains 30 days. N is the last person to deposit the money. B deposits the money in the month of January. W deposits the money on the 8th of May. U deposit immediately before B. X doesn't deposit in the same month as N. S deposits the money in the month of November.

Who deposits on the 8th of June?

1. F
2. L
3. N
4. X
5. S

Correct Option - 4

Que. 76 Who deposits money in the same month as B?

1. X
2. W
3. U
4. N
5. L

Correct Option - 3

Que. 77 Who deposits on the 27th of June?

1. B
2. F
3. N
4. L
5. S

Correct Option - 4

Que. 78 Which pair of persons deposits in the month of May?

1. X and L
2. Cannot be determined
3. U and B
4. S and L
5. W and F

Correct Option - 5

Que. 79 Who among the following is the odd one out?

1. W
2. X
3. B
4. U
5. S

Correct Option - 3

Que. 80 **Direction:** Answer the questions based on the sequence of numbers given.

6 6 5 9 9 6 9 9 6 2 1 6 7 9 9 9 8 5 2 6 9 5 9 5 9 5 6 9 9

How many numbers are prime that are there in the sequence (consider each digit as a different one)?

1. 3
2. 4
3. 5
4. 7
5. 8

Correct Option - 5

Que. 81 How many unique digits in the sequence are divided by 2?

1. 3
2. 4
3. 5
4. 7
5. 8

Correct Option - 1

Que. 82 Which of the following numbers have highest frequency?

1. 2
2. 4
3. 5
4. 6
5. 9

Correct Option - 5

Que. 83 If all the numbers are arranged in ascending order from left then which of the following will be in the centre of the sequence?

1. 2
2. 5
3. 6
4. 7
5. 8

Correct Option - 3

Que. 84

If the given digits in the sequence are used to form a highest three-digit number (all three digits need to be unique) and lowest three-digit number (all three digits need to be unique). What is the difference between highest three-digit number and lowest three-digit number?

1. 694
2. 862
3. 963
4. 764
5. None of the above

Correct Option - 2

Que. 85 If all the letters in the word 'HUNGRILY' are arranged according to the English alphabetical order, starting from the left to the right, then the position of how many letters will remain unchanged in the newly formed sequence of letters?

1. Three
2. Four
3. None
4. One
5. Five

Correct Option - 4

Que. 86 **Direction:** Study the following information carefully and answer the questions following it.

There are eight persons A, B, C, D, E, F, G, and H are sitting around a square table. Four of them are sitting in the middle of the table facing outside and the rest of them are sitting on the corner of the table facing inside. Only one person seat between G and A. F and G seats opposite to each other and facing each other. D does not sit adjacent to B. E does not seat between A and F. B seats third to the left of A. G does not seat to the immediate left of B. H and D are immediate left of each other.

Which of the following persons are sitting at the corners?

1. HFAC
2. GAHD
3. FAGB
4. FHAG
5. None of these

Correct Option - 4

Que. 87 Which of the following statement is true?

1. A and D are sitting at the corners
2. E is sitting opposite to H
3. C sits second to the right of E
4. B sits second to the right of G

5. None of these

Correct Option - 3

Que. 88 What is the position of F with respect to D?

1. F is sitting second to the left of D
2. F is sitting third to the left of D
3. F is sitting third to the right of D
4. F is the immediate neighbour of D
5. None of these

Correct Option - 2

Que. 89 Which of the following statement is false?

1. E is sitting opposite to B
2. C sits third to the right of H
3. A and H are sitting at the corners
4. G sits third to the left of B
5. H is immediate right of B

Correct Option - 4

Que. 90 Who is sitting immediate right of E?

1. G
2. A
3. D
4. B
5. None of these

Correct Option - 2

Que. 91 How many such pairs of digits are there in the number '857169224', each of which has as many digits between them in the number (both forward and backward direction) as they have between them in the natural number series?

1. One
2. Two
3. Three
4. Four
5. None

Correct Option - 4

Que. 92 **Direction:** In the following question assuming the given statements to be True, find which of the conclusion among given conclusions is/are definitely true and then give your answers accordingly.

Statements: $M < U \geq Y > D$; $X \geq B > U$

Conclusions:

I. $M < X$

II. $B > D$

1. Only II is True
2. Neither I nor II is True
3. Both I and II are True
4. Either I or II is True
5. Only I is True

Correct Option - 3

Que. 93 **Directions:** In the following question assuming the given statements to be True, find which of the conclusion among given conclusions is / are definitely true and then give your answers accordingly.

Statements: $M > A \geq T > F = Y \leq S < P$

Conclusions:

I. $F < P$

II. $A > S$

1. Only I is True.
2. Only II is True.
3. Both I and II are True.
4. Either I or II is True.
5. None is True.

Correct Option - 1

Que. 94 **Directions:** In the following question assuming the given statements to be True, find which of the conclusion among given conclusions is / are definitely true and then give your answers accordingly.

Statements: $A \geq B \leq C > D > E < F = K \geq M$

Conclusions:

I. $A > C$

II. $E \leq M$

1. Only I is True
2. Only II is True
3. Both I and II are True
4. Neither I nor II is True
5. Either I or II are true

Correct Option - 4

Que. 95 **Directions:** Read the following comprehension carefully and answer the questions given below.

A certain number of people are sitting in a linear row facing North. R sits fifth from the left end of the row. Only two persons sit between R and G, who sits to the right of R. X sits second to the left of G. Only one person sits to the left of L. Three persons sit between X and A, who sits second from the right end of the row. L sits third to the left of R. V sits sixth to the right of R.

What is the total number of persons sitting in the row?

1. 13
2. 15
3. 10
4. 11
5. 12

Correct Option - 4

Que. 96 How many persons sit between L and G?

1. 8
2. 3
3. 4
4. 5
5. 6

Correct Option - 4

Que. 97 What is the position of R with respect to A?

1. Sixth to the right
2. Immediate left
3. Third to the left
4. Fifth to the right
5. Fifth to the left

Correct Option - 5

Que. 98 **Direction:** Study the following information carefully and answer the given questions:

There are eight members A, B, C, D, E, F, G and H in a family. Male members in a family are less than female members in a family. D is married to A's sister. F is sister-in-law of B and mother of A. H is the father of C's mother. G is the nephew of A. H is father-in-law of D and has two daughters. F does not have siblings. C is the granddaughter of F. A is unmarried.

How is G related to H?

1. Son
2. Nephew

3. Granddaughter
4. Grandson
5. Niece

Correct Option - 4

Que. 99 If H is related to E in the same way as D is related to _____.

1. A
2. B
3. C
4. F
5. G

Correct Option - 3

Que. 100 If P is the son of B, then how is A related to P?

1. Aunt
2. Sister
3. Daughter
4. Cousin
5. Sister-in-law

Correct Option - 4
