 (A) Dr. Abdul Kalam
 (B) Dr. Raja Ramanna
 (C) Dr. Vikram Sarabhai
 (D) Dr. Kasturirangan
89. Which section of IPC deals with Defamation?
 (A) Section 496
 (B) Section 497
 (C) Section 498
 (D) Section 499
90. Which Article of IT Act, 2000 was struck down by Apex Court?
 (A) 68
 (B) 66 A
 (C) 67 A
 (D) 67

91. What type of variable is the 'size of the family'?
- (A) Intervening variable
 - (B) Discrete variable
 - (C) Continuous variable
 - (D) Non-discrete variable
92. In which of these scales, 'zero has absolute and natural value' ?
- (A) Interval value
 - (B) Ratio scale
 - (C) Nominal scale
 - (D) Ordinal scale
93. Which type of Survey is Census?
- (A) Analytical Survey
 - (B) Demographic Survey
 - (C) Descriptive Survey
 - (D) Exploratory Survey
94. One of these tests investigates simultaneous analysis of differences between more than two groups of samples.
- (A) t - test
 - (B) ANOVA
 - (C) Chi-Square
 - (D) Standard Deviation
95. Which of these is not the principles of visualization in Ads?
- (A) Balance
 - (B) Contrast
 - (C) White space
 - (D) Tombstoning

Read the following passage and answer questions 96 to 100:

One important lesson for communication study from the work of the Palo Alto group is to focus on problems of communication, as well as on the presumed positives. "The attention paid by Bateson, Watzlawick, and others to paradox, confusion, manipulation, noncontingency and even 'disinformation'... suggests a very different way of looking at human communication from that which has reigned in recent wisdom (Wilder 1979). So, for example, communication study of such topics as self-disclosure and openness should be balanced by the study of ambiguity (Eisenberg 1984), deception and deviousness. Certain situations like diplomacy, love, and business negotiation call for deliberate ambiguity rather than directness and clarity. The perspective of the Palo Alto group presses for an awareness of equivocal communication (Bavelas and others 1990), an understanding of communication pathologies, a search for the nature of self-referential contradiction like paradox, and to question whether more and clearer communication is always functional.

The group states that human communication is not just conscious, intentional, and successful as a step toward mutual understanding by two or more participants. The exchange of information between individuals can also be nonverbal, unintentional, paradox creating, and useful as a therapeutic technique. The perspective of the relational communication scholars is cybernetic, ecological, and based on systems theory. It does not fit with the dominant epistemology, of communication study, which is one reason why the interactional theory of the Palo Alto group has not had more impact on communication study. The dominant focus of communication research is on investigating effects. In contrast, inter-actionist theory seeks to answer an entirely different kind of important question. This difference may explain why the Palo Alto group has not received more attention by mainstream communication scholars in the United States, who are chiefly concerned with studying effects.

The Palo Alto scholars oppose effects research, cast in terms of one-way models. "It could be argued that S-M-C-R (source-message-channel-receiver) was not extended as a 'model' of communication, that it met none of the tests of theoretical modeling, and that it was developed as an audiovisual aid to stimulate recall of the components of a communication relationship" (Berlo 1977, p. 12). One-way models may be quite appropriate for persuasion, propaganda, and studying mass communication effects, but the linear causality assumed by such directional models does not fit with a vision of human communication as interrelationships and as a process of mutual influence.

96. Which of the following issues matches the area of concern of the Palo Alto Group?
- (A) Direct Communication
 - (B) Result oriented Communication
 - (C) Ambiguity in Communication
 - (D) Development Communication

97. One of the benefits of the type of communication practiced by Palo Alto Group was termed as

- (A) Effective
- (B) Therapeutic
- (C) Psychoanalytic
- (D) Clarity Vision

98. Why did Palo Alto Group of Communication could not impact Communication Studies in the United States of America?

- (A) The USA scholars concentrated on effect oriented approach.
- (B) Palo Alto Group never shared its findings with any other group.
- (C) The USA scholars isolated themselves from all other groups.
- (D) Palo Alto Group scholars were all working with hospitals.

99. The works of Palo Alto group of scholars contribution can be summed up by

- (A) Interactional Communication Theory
- (B) Epistemological Communication
- (C) Double-bind Theory
- (D) Persuasion Communication

100. "The SMCR model could not stand the rigour of test for a theoretical model."

To whom this paraphrased statement could be attributed?

- (A) Wilder
- (B) Berlo
- (C) Bateson
- (D) Watzlawick
