- Ans
- A. Obtaining the obstetric history
  - B. Determining when the last meal was taken
  - C. Ascertaining whether the membranes have ruptured.
  - D. Auscultating the fetal heart

Question ID : 54310712304  
Status : Answered  
Chosen Option : 4  
Marks : 3.00

Q.17 A client is receiving magnesium sulfate therapy for severe preeclampsia. What initial sign of toxicity should alert the nurse to intervene?

- Ans
- A. Hyperactive sensorium
  - B. Increase in respiratory rate
  - C. Lack of knee jerk reflex
  - D. Development of a cardiac dysrhythmia

Question ID : 54310712310  
Status : Answered  
Chosen Option : 3  
Marks : 3.00

Q.18 The earliest identifying sign for a developing pressure sore at skin is a localized:

- Ans
- A. edema
  - B. loss of sensation
  - C. coolness to touch
  - D. change in color

Question ID : 54310712344  
Status : Answered  
Chosen Option : 4  
Marks : 3.00

Q.19 Which of the following drugs is used to reverse the action of skeletal muscle relaxants:

- Ans
- A. Atropine
  - B. Physostigmine
  - C. Pyridostigmine
  - D. Neostigmine

Question ID : 54310712349  
Status : Answered  
Chosen Option : 4  
Marks : 3.00

Q.20 Vector of Kala Azar is:

- Ans
- A. Sandfly

- B. Mosquito
- C. Tsetse fly
- D. Housefly

Question ID : 54310712375  
Status : Answered  
Chosen Option : 1  
Marks : 3.00

Q.21 While taking temperature from rectal route in children thermometer should be inserted about:

- Ans
- A. 0.5 inch
  - B. 2 inch
  - C. 1.5 inch
  - D. 1 inch

Question ID : 54310712362  
Status : Answered  
Chosen Option : 3  
Marks : -1.00

Q.22 A nurse repositions a client who is diagnosed with emphysema to facilitate breathing. Which position facilitates maximum air exchange?

- Ans
- A. Orthopneic
  - B. Semi-Fowler
  - C. Low Fowler
  - D. Supine

Question ID : 54310712300  
Status : Answered  
Chosen Option : 1  
Marks : 3.00

Q.23 A patient is receiving parenteral therapy. The IV orders are 400ml D5W to run over 8 hours. At what rate should the nurse maintain the infusion?

- Ans
- A. 30 ml/hour
  - B. 40 ml/hour
  - C. 50ml/hour
  - D. 60ml/hour

Question ID : 54310712318  
Status : Answered  
Chosen Option : 3  
Marks : 3.00
