MPSC Group B

Previous Year Paper
28 Jan, 2024

Maharashtra Public Service Commission

Assessment

Question Paper Name :	Forest Statistician Advt No 95 of 2022 and Research Officer Advt No 98 of 2022
Subject Name :	Forest Statistician Advt No 95 of 2022 and Research Officer Advt No 98 of 2022
Actual Answer Key :	Yes
Is this Group for Examiner? :	No
Examiner permission :	Cant View
Show Progress Bar? :	No

General Knowledge

Section type :	Online
Section Negative Marks :	0.5
Enable Mark as Answered Mark for Review and Clear Response :	Yes
Maximum Instruction Time :	0
Is Section Default? :	null

**Question Number : 1 Question Id : 630680569216 Is Question Mandatory : No Calculator :
None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 2 Wrong Marks : 0.5**

Who among the following was honoured with the Nobel Prize in Medicine 2023?

I. Pierre Agostini

- II. Katalin Karikó
- III. Drew Weissman

Options :

- 1. Only I and II
- 2. Only II and III
- 3. Only I and III
- 4. I, II and III

Question Number : 1 Question Id : 630680569216 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

2023 मध्ये, खालीलपैकी कोणाला वैद्यकशास्त्रातील नोबेल पारितोषकाचा बहुमान मिळाला होता?

- I. पिएर अगोस्तिनी
- II. कॅटालिन कॅरिको
- III. ड्र्यू वाईजमन

Options :

- 1. फक्त I आणि II
- 2. फक्त II आणि III
- 3. फक्त I आणि III
- 4. I, II आणि III

Question Number : 2 Question Id : 630680569217 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In November 2023, who was appointed as the Chief Information Commissioner in Central Information Commission?

Options :

- 1. Heeralal Samariya

2. Rajiv Kumar
3. Ajay Kumar Bhalla
4. Amit Khare

**Question Number : 2 Question Id : 630680569217 Is Question Mandatory : No Calculator :
None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0**

Correct Marks : 2 Wrong Marks : 0.5

नोव्हेंबर 2023 मध्ये केंद्रीय माहिती आयोगाचे मुख्य माहिती आयुक्त म्हणून कोणाची नियुक्ती केली गेली होती?

Options :

1. हिरालाल सामरिया
2. राजीव कुमार
3. अजय कुमार भल्ला
4. अमित खरे

**Question Number : 3 Question Id : 630680569218 Is Question Mandatory : No Calculator :
None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0**

Correct Marks : 2 Wrong Marks : 0.5

Which Ministry of the Government of India observed the Vigilance Awareness Week 2023 from 30th October to 5th November?

Options :

1. Ministry of Social Justice and Empowerment
2. Ministry of Micro, Small and Medium Enterprises

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

For the year 2011-12, the poverty line for a person was fixed at Rs._____ per month for rural areas.

Options :

1. 706
2. 816
3. 926
4. 956

Question Number : 8 Question Id : 630680569223 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

वर्ष 2011-12 साठी ग्रामीण भागांमधील व्यक्तीसाठी दारिद्र्य रेषा प्रति महिना _____ रूपये इतकी निर्धारित केली गेली होती.

Options :

1. 706
2. 816
3. 926
4. 956

Question Number : 9 Question Id : 630680569224 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

_____ are also known as the 'suicide bags' of a cell.

Options :

1. Mitochondria
2. Lysosomes
3. Vacuoles
4. Cell wall

Question Number : 9 Question Id : 630680569224 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

_____ ह्यांना पेशीची 'आत्मघातकी पिशवी' म्हणूनही ओळखले जाते.

Options :

1. तंतुणिका
2. लयकारिका
3. रिक्तिका
4. पेशी भित्तिका

Question Number : 10 Question Id : 630680569225 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which of the following vitamins is also known as riboflavin?

Options :

1. Vitamin B1
2. Vitamin B2
3. Vitamin B3
4. Vitamin B12

Question Number : 10 Question Id : 630680569225 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

पुढीलपैकी कोणत्या जीवनासत्त्वाला रायबोप्लेविन म्हणूनही ओळखले जाते?

Options :

1. जीवनसत्त्व B1
2. जीवनसत्त्व B2
3. जीवनसत्त्व B3
4. जीवनसत्त्व B12

Question Number : 11 Question Id : 630680569226 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

What is the average height of Sahyadri in Maharashtra?

Options :

1. 800 meters
2. 1200 meters
3. 1800 meters
4. 2200 meters

Question Number : 11 Question Id : 630680569226 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

महाराष्ट्रामध्ये सह्याद्रीची सरासरी उंची किती आहे?

Options :

1. 800 मीटर्स
2. 1200 मीटर्स
3. 1800 मीटर्स
4. 2200 मीटर्स

Question Number : 12 Question Id : 630680569227 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

As per Census 2011, male literacy rate in Maharashtra is approximately _____ percent.

Options :

1. 72
2. 76
3. 82
4. 88

Question Number : 12 Question Id : 630680569227 Is Question Mandatory : No Calculator :

In the following question below are given some statements followed by some conclusions based on those statements. Taking the given statements to be true even if they seem to be at variance from commonly known facts. Read all the statements carefully and then decide which of the given conclusion logically follows the given statements.

Statements:

- I. No P is Q.
- II. All Q are R.
- III. No R is T.

Conclusion:

- I. All R are Q.
- II. No R is P.
- III. No T is Q.

Options :

- 1. Only conclusion I follows
- 2. Only conclusion II follows
- 3. Only conclusion III follows
- 4. None of the conclusions follow

पुढील प्रश्नामध्ये काही विधाने दिली आहेत व त्यानंतर त्या विधानांवर आधारित निष्कर्ष दिलेले आहेत. जरी दिलेली विधाने सामान्यतः ज्ञात तथ्यांपेक्षा वेगळी असली तरीही ती सत्य माना. सर्व विधाने काळजीपूर्वक वाचा आणि त्यानंतर खालीलपैकी कोणता/कोणते निष्कर्ष हे दिलेल्या विधानांशी तर्कसंगत आहे/आहेत, हे ठरवा.

विधाने:

- I. एकही P हा Q नाही.
- II. सर्व Q हे R आहेत.
- III. एकही R हा T नाही.

निष्कर्ष:

- I. सर्व R हे Q आहेत.
- II. एकही R हा P नाही.
- III. एकही T हा Q नाही.

Options :

1. फक्त निष्कर्ष I तर्कसंगत आहे
2. फक्त निष्कर्ष II तर्कसंगत आहे
3. फक्त निष्कर्ष III तर्कसंगत आहे
4. एकही निष्कर्ष तर्कसंगत नाही.

Question Number : 24 Question Id : 630680569239 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In the given question, a statement is followed by two courses of action. Based on the information given in the statement, you have to assume everything in the statement to be true. Identify which course(s) of action logically follows.

Statement: A tower collapsed in town A during rush hour traffic.

Course of Action:

- I. Search-and-rescue operations should be conducted immediately.
- II. People should leave town A and move to town B.

Options :

1. Only I follow

2. Only II follow
3. Both I and II follows
4. Neither I nor II follows

Question Number : 24 Question Id : 630680569239 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

दिलेल्या प्रश्नामध्ये एक विधान आणि त्यानंतर दोन कृती योजना दिलेल्या आहेत. विधानामध्ये दिलेल्या माहितीच्या आधारे आपल्याला विधानामध्ये असलेली प्रत्येक बाब सत्य मानायची आहे. कोणती कृती योजना तर्कसंगत असेल हे ओळखा.

विधान: शहर A मध्ये अतिशय रहदारीच्या वेळेमध्ये एक टॉवर कोसळला.

कृती योजना:

- I. तत्काळ शोध आणि बचावाचे कार्य सुरू केले गेले पाहिजे.
- II. लोकांनी शहर A सोडावे आणि शहर B मध्ये जावे.

Options :

1. फक्त निष्कर्ष I तर्कसंगत आहे
2. फक्त निष्कर्ष II तर्कसंगत आहे
3. दोन्ही निष्कर्ष I आणि II तर्कसंगत आहेत
4. निष्कर्ष I किंवा II पैकी एकही तर्कसंगत नाही.

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In the following question, select the missing number from the given series.

2, 5, 10, 17, 26, ?

Options :

1. 36
2. 35

3. 37

4. 38

Question Number : 25 Question Id : 630680569240 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

खालील प्रश्नामध्ये दिलेल्या मालिकेमधील प्रश्नचिन्हाच्या जागी येणारी संख्या निवडा.

2, 5, 10, 17, 26, ?

Options :

1. 36

2. 35

3. 37

4. 38

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which type of index number measures the relative change in the purchasing power of money over time?

Options :

1. Price Index
2. Quantity Index
3. Cost of Living Index
4. Volume Index

Question Number : 34 Question Id : 630680569305 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which type of index number measures the relative change in the purchasing power of money over time?

Options :

1. Price Index
2. Quantity Index
3. Cost of Living Index
4. Volume Index

Question Number : 35 Question Id : 630680569306 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which method of constructing index numbers uses a fixed base year and compares subsequent years to this base year?

Options :

1. Chain Base Method
2. Paasche's Method
3. Laspeyres' Method
4. Fisher's Ideal Method

Question Number : 35 Question Id : 630680569306 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which method of constructing index numbers uses a fixed base year and compares subsequent years to this base year?

Options :

1. Chain Base Method

2. Paasche's Method
3. Laspeyres' Method
4. Fisher's Ideal Method

Question Number : 36 Question Id : 630680569307 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which component of time series represents short term fluctuations that occur in most time series?

Options :

1. Trend
2. Seasonal variation
3. Cyclical variation
4. Irregular variation

Question Number : 36 Question Id : 630680569307 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which component of time series represents short term fluctuations that occur in most time series?

Options :

1. Trend
2. Seasonal variation
3. Cyclical variation
4. Irregular variation

Question Number : 37 Question Id : 630680569308 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which type of index number measures the change in the general level of prices of goods and services over time?

Options :

1. Quantity index number
2. Cost of living index number
3. Consumer Price index number
4. Value index number

Question Number : 37 Question Id : 630680569308 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which type of index number measures the change in the general level of prices of goods and services over time?

Options :

1. Quantity index number
2. Cost of living index number
3. Consumer Price index number
4. Value index number

Question Number : 38 Question Id : 630680569309 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which method of constructing index numbers assigns weights to items based on their relative importance?

Options :

1. Simple aggregative method
2. Simple average of price relative method
3. Weighted aggregative method
4. Weighted average of price relative method

Question Number : 38 Question Id : 630680569309 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which method of constructing index numbers assigns weights to items based on their relative importance?

Options :

1. Simple aggregative method
2. Simple average of price relative method
3. Weighted aggregative method
4. Weighted average of price relative method

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which component of a time series refers to the long-term movement in data after eliminating other components such as seasonal, cyclical, and irregular movements?

Options :

1. Trend
2. Seasonal variation
3. Cyclical variation
4. Irregular variation

Question Number : 39 Question Id : 630680569310 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which component of a time series refers to the long-term movement in data after eliminating other components such as seasonal, cyclical, and irregular movements?

Options :

1. Trend
2. Seasonal variation
3. Cyclical variation

4. Irregular variation

Question Number : 40 Question Id : 630680569311 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which component of time series analysis typically spans over multiple years and might be linked to economic conditions?

Options :

1. Trend
2. Seasonal variation
3. Cyclical variation
4. Irregular variation

Question Number : 40 Question Id : 630680569311 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which component of time series analysis typically spans over multiple years and might be linked to economic conditions?

Options :

1. Trend
2. Seasonal variation
3. Cyclical variation
4. Irregular variation

Question Number : 41 Question Id : 630680569312 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In time series analysis, which component represents the fluctuations that cannot be ascribed to the trend, seasonal, or cyclical components?

Options :

1. Trend
2. Seasonal variation
3. Cyclical variation
4. Irregular variation

Question Number : 41 Question Id : 630680569312 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In time series analysis, which component represents the fluctuations that cannot be ascribed to the trend, seasonal, or cyclical components?

Options :

1. Trend
2. Seasonal variation
3. Cyclical variation
4. Irregular variation

Question Number : 42 Question Id : 630680569313 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

What component of a time series is responsible for the periodic oscillations that are driven by natural or cultural occurrences, such as yearly temperature patterns or holiday shopping trends?

Options :

1. Trend
2. Seasonal variation
3. Cyclical variation
4. Irregular variation

Question Number : 42 Question Id : 630680569313 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

What component of a time series is responsible for the periodic oscillations that are driven by natural or cultural occurrences, such as yearly temperature patterns or holiday shopping trends?

Options :

1. Trend
2. Seasonal variation
3. Cyclical variation
4. Irregular variation

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In linear regression analysis, which type of model uses multiple predictors to explain the variance in a dependent variable?

Options :

1. Univariate Linear Model
2. Simple Linear Regression
3. Polynomial Regression
4. Multiple Linear Regression

Question Number : 43 Question Id : 630680569314 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In linear regression analysis, which type of model uses multiple predictors to explain the variance in a dependent variable?

Options :

1. Univariate Linear Model
2. Simple Linear Regression
3. Polynomial Regression
4. Multiple Linear Regression

Question Number : 44 Question Id : 630680569315 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

What does a regression coefficient of zero indicate about the relationship between the predictor variable and the response variable?

Options :

1. Strong positive relationship
2. Strong negative relationship
3. No linear relationship
4. Perfect linear relationship

Question Number : 44 Question Id : 630680569315 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

What does a regression coefficient of zero indicate about the relationship between the predictor variable and the response variable?

Options :

1. Strong positive relationship
2. Strong negative relationship
3. No linear relationship
4. Perfect linear relationship

Question Number : 45 Question Id : 630680569316 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In the context of a regression model, what does an R^2 value of 0.85 signify?

Options :

1. The model explains 15% of the variability in the response variable.
2. There's a weak linear relationship between predictors and response.

3. The model explains 85% of the variability in the response variable.
4. The predictors are unrelated to the response variable.

Question Number : 45 Question Id : 630680569316 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0 Correct Marks : 2 Wrong Marks : 0.5

In the context of a regression model, what does an R^2 value of 0.85 signify?

Options :

1. The model explains 15% of the variability in the response variable.
2. There's a weak linear relationship between predictors and response.
3. The model explains 85% of the variability in the response variable.
4. The predictors are unrelated to the response variable.

Question Number : 46 Question Id : 630680569317 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0 Correct Marks : 2 Wrong Marks : 0.5

In multiple regression analysis, what is the primary advantage of including more than one independent variable?

Options :

1. It simplifies the regression model
2. It allows for an examination of interaction effects
3. It reduces the risk of overfitting
4. It helps to capture more variability in the response variable

Question Number : 46 Question Id : 630680569317 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0 Correct Marks : 2 Wrong Marks : 0.5

In multiple regression analysis, what is the primary advantage of including more than one independent variable?

Options :

1. It simplifies the regression model
2. It allows for an examination of interaction effects
3. It reduces the risk of overfitting
4. It helps to capture more variability in the response variable

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which measure accounts for the total value of finished goods and services produced by a country's residents, regardless of the location of production, and excludes depreciation?

Options :

1. Gross Domestic Product (GDP)
2. Net Domestic Product (NDP)
3. Gross National Product (GNP)

4. Net National Product (NNP)

Question Number : 49 Question Id : 630680569320 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which measure accounts for the total value of finished goods and services produced by a country's residents, regardless of the location of production, and excludes depreciation?

Options :

1. Gross Domestic Product (GDP)
2. Net Domestic Product (NDP)
3. Gross National Product (GNP)
4. Net National Product (NNP)

Question Number : 50 Question Id : 630680569321 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

How is Net Domestic Product (NDP) calculated from Gross Domestic Product (GDP)?

Options :

1. $GDP - \text{Depreciation}$
2. $GDP \times \text{Net Investment}$
3. $GDP \div \text{Net Exports}$
4. $GDP + \text{Depreciation}$

Question Number : 50 Question Id : 630680569321 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

How is Net Domestic Product (NDP) calculated from Gross Domestic Product (GDP)?

Options :

1. $GDP - \text{Depreciation}$

2. $GDP \times \text{Net Investment}$
3. $GDP \div \text{Net Exports}$
4. $GDP + \text{Depreciation}$

Question Number : 51 Question Id : 630680569322 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which of the following is an example of an intermediate good in the context of Gross Domestic Product (GDP)?

Options :

1. A finished automobile
2. A new smartphone
3. Steel used in car production
4. Consumer electronics

Question Number : 51 Question Id : 630680569322 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which of the following is an example of an intermediate good in the context of Gross Domestic Product (GDP)?

Options :

1. A finished automobile
2. A new smartphone
3. Steel used in car production
4. Consumer electronics

Question Number : 52 Question Id : 630680569323 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which component is NOT typically included in the calculation of GDP using the expenditure approach?

Options :

1. Government expenditure on goods and services
2. Net exports
3. Consumption by households
4. Private savings

Question Number : 52 Question Id : 630680569323 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which component is NOT typically included in the calculation of GDP using the expenditure approach?

Options :

1. Government expenditure on goods and services
2. Net exports
3. Consumption by households
4. Private savings

Question Number : 53 Question Id : 630680569324 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Why might a country's GNP be significantly higher than its GDP?

Options :

1. The country exports a significant portion of its goods
2. The country has many residents working or investing abroad
3. The country has a high rate of depreciation
4. The country imports a significant portion of its goods

**Question Number : 53 Question Id : 630680569324 Is Question Mandatory : No Calculator :

Correct Marks : 2 Wrong Marks : 0.5**

How is Net Domestic Product (NDP) different from Gross Domestic Product (GDP)?

Options :

1. NDP considers the total income earned by citizens, while GDP does not
2. Depreciation of capital goods from GDP
3. NDP includes income from abroad, while GDP only considers domestic production
4. NDP focuses on the number of goods produced, whereas GDP considers the value of services

**Question Number : 54 Question Id : 630680569325 Is Question Mandatory : No Calculator :

Correct Marks : 2 Wrong Marks : 0.5

In data presentation, which of the following tables shows the relationship between two sets of data entries?

Options :

1. Univariate frequency table
2. Bivariate frequency table
3. Multivariate frequency table

4. Cumulative frequency table

Question Number : 56 Question Id : 630680569327 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In data presentation, which of the following tables shows the relationship between two sets of data entries?

Options :

1. Univariate frequency table
2. Bivariate frequency table
3. Multivariate frequency table
4. Cumulative frequency table

Question Number : 57 Question Id : 630680569328 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which of the following best describes a histogram?

Options :

1. A graph used to convert non continuous data to continuous data.
2. A plot of cumulative frequencies against upper class boundaries.
3. A curve that represents the distribution of a single set of data.
4. A plot that depicts the relationship between two variables.

Question Number : 57 Question Id : 630680569328 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which of the following best describes a histogram?

Options :

1. A graph used to convert non continuous data to continuous data.

2. A plot of cumulative frequencies against upper class boundaries.
3. A curve that represents the distribution of a single set of data.
4. A plot that depicts the relationship between two variables.

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Two events, A and B, are independent. Which of the following correctly represents the probability of both A and B occurring?

Options :

1. $P(A \cup B) = P(A) + P(B)$
2. $P(A \cup B) = P(A) \times P(B)$
3. $P(A \cap B) = P(A) + P(B)$
4. $P(A \cap B) = P(A) \times P(B)$

Question Number : 63 Question Id : 630680569334 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Two events, A and B, are independent. Which of the following correctly represents the probability of both A and B occurring?

Options :

1. $P(A \cup B) = P(A) + P(B)$
2. $P(A \cup B) = P(A) \times P(B)$
3. $P(A \cap B) = P(A) + P(B)$
4. $P(A \cap B) = P(A) \times P(B)$

Question Number : 64 Question Id : 630680569335 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

According to the additive law of probability, what is the probability of the union of two mutually exclusive events A and B, denoted by $P(A \cup B)$?

Options :

1. $P(A) + P(B) - P(A \cap B)$
2. $P(A) + P(B)$
3. $P(A) \times P(B)$
4. $P(A) - P(B)$

Question Number : 64 Question Id : 630680569335 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

According to the additive law of probability, what is the probability of the union of two mutually exclusive events A and B, denoted by $P(A \cup B)$?

Options :

1. $P(A) + P(B) - P(A \cap B)$

2. $P(A) + P(B)$
3. $P(A) \times P(B)$
4. $P(A) - P(B)$

Question Number : 65 Question Id : 630680569336 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Which property of an estimator indicates that it approaches the true parameter value as the sample size increases?

Options :

1. Unbiasedness
2. Efficiency
3. Sufficiency
4. Consistency

Question Number : 84 Question Id : 630680569355 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which property of an estimator indicates that it approaches the true parameter value as the sample size increases?

Options :

1. Unbiasedness
2. Efficiency
3. Sufficiency
4. Consistency

Question Number : 85 Question Id : 630680569356 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In the context of linear regression, the ordinary least squares (OLS) method aims to:

Options :

1. Minimize the likelihood function
2. Minimize the sum of squared residuals
3. Maximize the likelihood function
4. Minimize the sample variance

Question Number : 85 Question Id : 630680569356 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In the context of linear regression, the ordinary least squares (OLS) method aims to:

Options :

1. Minimize the likelihood function
2. Minimize the sum of squared residuals
3. Maximize the likelihood function

4. Minimize the sample variance

Question Number : 86 Question Id : 630680569357 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

According to the Gauss-Markov theorem, the ordinary least squares (OLS) estimator is:

Options :

1. Consistent but not unbiased
2. Biased and inefficient
3. BLUE (Best Linear Unbiased Estimator)
4. Always consistent

Question Number : 86 Question Id : 630680569357 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

According to the Gauss-Markov theorem, the ordinary least squares (OLS) estimator is:

Options :

1. Consistent but not unbiased
2. Biased and inefficient
3. BLUE (Best Linear Unbiased Estimator)
4. Always consistent

Question Number : 87 Question Id : 630680569358 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

A composite hypothesis specifies:

Options :

1. The exact value of a population parameter
2. A range or multiple values of a population parameter

3. Only the alternate parameter value
4. The sample statistic value

**Question Number : 87 Question Id : 630680569358 Is Question Mandatory : No Calculator :
None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 2 Wrong Marks : 0.5**

A composite hypothesis specifies:

Options :

1. The exact value of a population parameter
2. A range or multiple values of a population parameter
3. Only the alternate parameter value
4. The sample statistic value

**Question Number : 88 Question Id : 630680569359 Is Question Mandatory : No Calculator :
None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 2 Wrong Marks : 0.5**

The "t-test" is particularly suited for:

Options :

1. Large samples with known variance
2. Small samples with unknown variance
3. Comparing variances of two samples
4. Testing for independence in contingency tables

**Question Number : 88 Question Id : 630680569359 Is Question Mandatory : No Calculator :
None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 2 Wrong Marks : 0.5**

The "t-test" is particularly suited for:

Options :

1. Large samples with known variance

2. Small samples with unknown variance
3. Comparing variances of two samples
4. Testing for independence in contingency tables

Question Number : 89 Question Id : 630680569360 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which of the following properties ensures that the expected value of an estimator equals the true population parameter?

Options :

1. Efficiency
2. Sufficiency
3. Consistency
4. Unbiasedness

Question Number : 89 Question Id : 630680569360 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which of the following properties ensures that the expected value of an estimator equals the true population parameter?

Options :

1. Efficiency
2. Sufficiency
3. Consistency
4. Unbiasedness

Question Number : 90 Question Id : 630680569361 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which estimation method gives estimators that maximize the probability of the observed sample data?

Options :

1. Ordinary Least Squares
2. Minimum Variance
3. Maximum Likelihood
4. Sum of Absolute Deviations

Question Number : 90 Question Id : 630680569361 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which estimation method gives estimators that maximize the probability of the observed sample data?

Options :

1. Ordinary Least Squares
2. Minimum Variance
3. Maximum Likelihood
4. Sum of Absolute Deviations

Question Number : 91 Question Id : 630680569362 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

What is the key assumption of the Gauss-Markov Theorem related to the error terms?

Options :

1. The error terms must be normally distributed.
2. The error terms must have a constant variance (homoscedasticity).
3. The error terms must be independent and identically distributed (i.i.d).
4. The error terms must be perfectly correlated.

**Question Number : 91 Question Id : 630680569362 Is Question Mandatory : No Calculator :
None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 2 Wrong Marks : 0.5**

What is the key assumption of the Gauss-Markov Theorem related to the error terms?

Options :

1. The error terms must be normally distributed.
2. The error terms must have a constant variance (homoscedasticity).
3. The error terms must be independent and identically distributed (i.i.d).
4. The error terms must be perfectly correlated.

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 2 Wrong Marks : 0.5**

Which of the following best describes a situation where the null hypothesis specifies a single value for a parameter, while the alternative hypothesis specifies all other possible values?

Options :

1. Composite Hypothesis
2. Simple Hypothesis
3. Dual Hypothesis
4. Unilateral Hypothesis

**Question Number : 92 Question Id : 630680569363 Is Question Mandatory : No Calculator :
None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 2 Wrong Marks : 0.5**

Which of the following best describes a situation where the null hypothesis specifies a single value for a parameter, while the alternative hypothesis specifies all other possible values?

Options :

1. Composite Hypothesis
2. Simple Hypothesis
3. Dual Hypothesis

4. Unilateral Hypothesis

Question Number : 93 Question Id : 630680569364 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which rate measures the number of deaths in a particular population scaled to the size of that population, per unit of time?

Options :

1. Crude Birth Rate
2. Crude Death Rate
3. Total Fertility Rate
4. Replacement Rate

Question Number : 93 Question Id : 630680569364 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which rate measures the number of deaths in a particular population scaled to the size of that population, per unit of time?

Options :

1. Crude Birth Rate
2. Crude Death Rate
3. Total Fertility Rate
4. Replacement Rate

Question Number : 94 Question Id : 630680569365 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which rate measures the average number of daughters that would be born to a woman if she passed through her lifetime conforming to the age-specific fertility rates of a given year?

Options :

1. Gross Reproduction Rate (GRR)
2. Net Reproduction Rate (NRR)
3. Crude Birth Rate
4. Total Fertility Rate

Question Number : 94 Question Id : 630680569365 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which rate measures the average number of daughters that would be born to a woman if she passed through her lifetime conforming to the age-specific fertility rates of a given year?

Options :

1. Gross Reproduction Rate (GRR)
2. Net Reproduction Rate (NRR)
3. Crude Birth Rate
4. Total Fertility Rate

Question Number : 95 Question Id : 630680569366 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which statistic measures the number of infant deaths for every 1,000 live births in a particular year?

Options :

1. Crude Birth Rate
2. Fertility Rate
3. Infant Mortality Rate
4. Life Expectancy Rate

Question Number : 95 Question Id : 630680569366 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which statistic measures the number of infant deaths for every 1,000 live births in a particular year?

Options :

1. Crude Birth Rate
2. Fertility Rate
3. Infant Mortality Rate
4. Life Expectancy Rate

Question Number : 96 Question Id : 630680569367 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which of the following provides information about the expected number of years of life remaining at a given age?

Options :

1. Crude Birth Rate
2. Infant Mortality Rate
3. Life Table
4. Gross Reproduction Rate

Question Number : 96 Question Id : 630680569367 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which of the following provides information about the expected number of years of life remaining at a given age?

Options :

1. Crude Birth Rate
2. Infant Mortality Rate
3. Life Table
4. Gross Reproduction Rate

Question Number : 97 Question Id : 630680569368 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

If a country has a high number of births and a low number of deaths in a given year, which of the following will likely increase?

Options :

1. Net Migration Rate
2. Natural Increase Rate
3. Age Dependency Ratio
4. Morbidity Rate

Question Number : 97 Question Id : 630680569368 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

If a country has a high number of births and a low number of deaths in a given year, which of the following will likely increase?

Options :

1. Net Migration Rate
2. Natural Increase Rate
3. Age Dependency Ratio
4. Morbidity Rate

Question Number : 98 Question Id : 630680569369 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

If the Gross Reproduction Rate (GRR) is exactly 1 in a population, what does it signify?

Options :

1. A woman is replaced by one daughter on average
2. A woman has two daughters on average

3. The population is decreasing
4. The male population is growing faster

Question Number : 98 Question Id : 630680569369 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0 Correct Marks : 2 Wrong Marks : 0.5

If the Gross Reproduction Rate (GRR) is exactly 1 in a population, what does it signify?

Options :

1. A woman is replaced by one daughter on average
2. A woman has two daughters on average
3. The population is decreasing
4. The male population is growing faster

Question Number : 99 Question Id : 630680569370 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0 Correct Marks : 2 Wrong Marks : 0.5

If a region's Infant Mortality Rate suddenly spikes, which of the following factors could be a potential cause?

Options :

1. Increase in education levels
2. Improved sanitation facilities
3. An outbreak of a contagious disease
4. Increase in the elderly population

Question Number : 99 Question Id : 630680569370 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0 Correct Marks : 2 Wrong Marks : 0.5

If a region's Infant Mortality Rate suddenly spikes, which of the following factors could be a potential cause?

Options :

1. Increase in education levels
2. Improved sanitation facilities
3. An outbreak of a contagious disease
4. Increase in the elderly population

Question Number : 100 Question Id : 630680569371 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In a life table, what does " l_x " typically represent?

Options :

1. Number of people alive at the start of age x
2. Number of deaths between age x and $x+n$
3. Total number of years lived by the cohort from age x onwards
4. Probability that a person aged exactly x will die before reaching age $x+1$

Question Number : 100 Question Id : 630680569371 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

In a life table, what does " l_x " typically represent?

Options :

1. Number of people alive at the start of age x
2. Number of deaths between age x and $x+n$
3. Total number of years lived by the cohort from age x onwards
4. Probability that a person aged exactly x will die before reaching age $x+1$
